Professional Development/Trainings
On May 8th the development services manager attended a MAPS class entitled “Change Management for Leaders.” The class was taught by Sallie Voyles and included effective leadership traits and styles, the three steps of effective communication, SWOT analysis, how to get targeted outcomes, and how changing thinking changes beliefs.

2020 Census
On May 24th MORPC coordinated a meeting of Franklin County stakeholders to participate in the 2020 Census Participant Statistical Areas Program (PSAP) which enabled participants to review and update selected geographic boundaries for the upcoming 2020 Census. The Census Bureau also will use these boundaries defined for the 2020 Census to tabulate data for the annual American Community Survey (ACS) estimates and the Economic Census. The Census Bureau has tasked MORPC with coordinating meetings with counties in central Ohio to discuss potential changes to these geographic boundaries, which may include census tracts, block groups, census designated places (CDPs), census county divisions (CCDs) or tribal areas to name a few.
Informal Planning Commission: May 6, 2019

Applications: None

Other Business:

- Reconsideration of application for 7030 Hanby’s Loop V-23-2019
- Zoning Change Informal Review
  Rezoning of 484.4 acres from Agricultural (AG) to Limited General Employment (L-GE) for an area located to the north of and adjacent to Jug Street, to the east of and adjacent to Beech Road, to the south of Miller Road and to the west of Clover Valley Road for an area to be known as the “Jug Street North Zoning District.”

Applications:

Title: Variance to C.O. 1173.02 to allow a pool patio to be located 10 feet from the southern property line.
Location: 4661 Goodheart Court
Applicant: Tim Snider
Request: Variance
Zoning: R-3
Commission Action: Approved with conditions
PROJECT UPDATES
MAY 2019

2019 Strategic Plan Update
Staff finalized contracts with MKSK, Pentella Unlimited, Moorehead Design, and EP Ferris and Associates for the 2019 Strategic Plan Update. The team is working towards a public launch date of June 5th. The team created the Community Engagement Brief, began the website design, and scheduled the first phase of meetings. The development services manager sent a formal invitation to potential steering committee members.

Grants Update
Eleanor Taylor Farm Clean Ohio Grant Application
The grant application was recommended for funding at the Clean Ohio NRAC meeting. The project was the top scoring application with a score of 161.1 points (116 is the minimum for funding approval). Next, MORPC will send the recommended projects to OPWC. OPWC will then review, provide final approval and draft the project grant agreement. The grant agreements are usually sent out in early June.

Low or No Emission Bus Program Grant Proposal
The city, in partnership with COTA, applied for a federal grant to replace one of the SmartRide shuttles with a 40-ft. electric bus and associated charging infrastructure. The grant program will support regional efforts to electrify vehicle fleets in the region. The transition is essential as Franklin County is one of four counties in the central Ohio region that fails to meet US EPA regulations for ozone emissions. Funding announcements are anticipated at the end of July 2019.
**CAPITAL IMPROVEMENT PROJECT UPDATES**

**MAY 2019**

**Name of Project:** Morse & Beech Road 36” Water Transmission Main  
**Construction Start Date:** October 2018  
**Project Description:** This project includes the extension of approximately 12,000 linear feet of 36” water transmission main along Morse Road and Beech Road.  
**Status:** The contractor continued site restoration efforts along the right-of-way and within easements. Restoration work is 90% complete. Morse Road pavement base repairs were completed along with resurfacing. The contractor continues to work on punch list items.

**Name of Project:** NAPD Morse Road Booster Station  
**Construction Start Date:** September 2018  
**Project Description:** This project includes the construction of a waterline booster station along the north side of Morse Road, between Avis Road and Pine Meadow Road. The project includes the building construction, mechanical equipment, water main work and site improvements.  
**Status:** All piping work including storm sewer and 36” water main is complete on the site. The metal roof is installed and the siding is 90% installed. The concrete pads for the motor controls, pipe supports, and thrust blocks are poured. The plumbing inside the building is 95% complete and the electrical is 60% complete.

**Name of Project:** Blacklick Creek Trunk Sewer Part 1  
**Construction Start Date:** January 2019  
**Project Description:** This project includes the construction of approximately 3,200 feet of 48” sanitary sewer that will connect to a sanitary sewer system that is being constructed by the city of Columbus. This project is generally located along the south side of Morse Road beginning on the west side of Reynoldsburg New Albany Road and extending to the east. This project will utilize a specialized construction method called micro-tunneling. The city’s contractor is Ward & Burke Tunneling, Inc.  
**Status:** The contractor is performing the second and final micro-tunneling drive from Manhole 3 to Manhole 4B. Manhole 4B is the interface between this project and the downstream sanitary sewer that was recently installed by the City of Columbus. The contractor also prepared the shaft site at Manhole 5 for the BCTS Part 2A-1 contractor to tie in and continue the project.
CAPITAL IMPROVEMENT PROJECT UPDATES
MAY 2019

Name of Project: Blacklick Creek Trunk Sewer Part 2A-1
Construction Start Date: May 2019
Project Description: This project consists of furnishing all labor, materials and equipment for the construction of approximately 8,600 linear feet 48” gravity sewer and other related items including site work. This project extends from Manhole 5 on Part 1 generally north and east to Manhole 26 which is the last manhole west of Babbitt Road. This project includes a trenchless crossing of Morse Road.
Status: The contractor has installed two manholes, along with an initial length of 48” sanitary sewer pipe. The contractor continues with site survey, installation of erosion and sediment controls, and staging stocked material along the sewer alignment.

Name of Project: Blacklick Creek Trunk Sewer Part 2A-2
Construction Start Date: May 2019
Project Description: This project consists of furnishing all labor, materials and equipment for the construction of approximately 10,750 linear feet of 18” through 48” gravity sewer and other related items including site work. This project extends from Manhole 26 on Part 2A-1 across Babbitt generally north and east to Manhole 37, which is the end of Part 2A. This project includes a 30” subtrunk that continues east to Beech Road. This project also includes an open-cut crossing of Babbitt Road.
Status: The contractor installed approximately 140 linear feet of 48” sanitary sewer and two manholes in order to complete the crossing of Babbitt Road. The trench was then backfilled and the roadway was repaved at the crossing location in order to reopen Babbitt Road to traffic. The contractor continues with site survey, installation of erosion and sediment controls, and staging stocked material along the sewer alignment.

Commercial Inspections
Pharmaforce—6610 E New Albany Road
City staff attended a consultation meeting onsite regarding the landscaping near the creek.

Home2Suites—5095 Forest Drive
On May 14th city staff completed a re-inspection to update the outstanding items list.
FIELD WORK AND INSPECTIONS CONTINUED
MAY 2019

Commerical Inspections continued...

Walton Offices II—8200 Walton Parkway
On May 28th city staff completed an inspection and the building received a conditional occupancy pending building approval.

Munster Financial—9835 Johnstown Road
On May 30th city staff completed an inspection and the building received a conditional occupancy pending building approval.

Other Business
4329 Brompton Court—The property owner responded promptly to the letter received and provided pictures and a video depicting the drainage conditions that existed prior to the construction of the pool. Based on this information, it does not appear that the construction of the pool made a meaningful difference to the drainage concern. The engineer will evaluate the property during a more significant rainfall event to offer recommendations to improve drainage in this area.
