COMMUNITY ENGAGEMENT AND OUTREACH

OCTOBER 2021

Meetings

Economic Development Incentives: Infrastructure Development (October 1)

Economic Development Advisory Council (EDAC) (October 1)

New Albany Chamber Community Update (October 6)

Central Ohio APA Housing Session Preliminary Discussions (October 6)

Central Ohio APA Housing Session Recording (October 12)

JobsOhio and ODOT Advanced Mobility Roundtable (October 13)

Ohio Economic Development Association Executive Committee Meeting (October 13)

Central Ohio APA RAPID5 Panel Prep (October 19)

Ohio Economic Development Association Board of Director's Meeting (October 20)

Central Ohio APA RAPID5 Presentation (October 20)

Route Fifty State of Spending Summit (October 21)

Columbus Regional Logistics Council - Tour Coordination (October 25)

Ohio Economic Development Association Annual Summit (October 26 and 27)

Brick House Blue Visit (October 29)

BOARD AND COMMISSIONS

OCTOBER 2021

Architectural Review Board : October 11, 2021

Applications

Title: Certificate of Appropriateness—New Albany Presbyterian Church
Location: 5526 Dublin Granville Road and 5321 Harlem Road
Applicant: M+A Architects, c/o Jeff Heffner
Request: Certificate of Appropriateness—New Construction
Zoning: Agricultural (AG)
Commission Action: Tabled

Planning Commission: October 18, 2021

Applications

Title: Final Development Plan Modification—Oxford Lot 1
Location: Oxford Subdivision Lot 1 (Parcel ID: 222-004696-00).
Applicant: Maletz Development LLC, c/o Andrew Maletz
Request: Final Development Plan
Zoning: Parcel 226 Zoning District (I-PUD)
Commission Action: Approved

Board of Zoning Appeals: October 25, 2021

Title: Variance—Trove Warehouse
Location: 5850 Zarley Street
Applicant: Heninger Construction
Request: Variances (2)
Zoning: Limited Industrial District (LI)
Commission Action: Approved with conditions

PROJECT UPDATES

OCTOBER 2021

Electronic Plan Review and Permitting Software

Anticipated completion date: March 2022 (Software Buildout)

Project Description:

The staff will identify, evaluate and recommend for selection a software package that will automate the plan review and permitting process of the department. The evaluation will include a detailed cost/benefit analysis of the software package, as well as an assessment of the specific user interface, workflow and data capabilities. The staff will also establish a transition plan necessary to implement the selected software into the daily operations of the department and create a communication plan to share any changes and updates with residents, contractors and consultants. After the software is accepted by city council, the staff will buildout and implement the new software.

Status Update:

The implementation committee formed within the development department worked closely with Accela staff to complete the analysis phase of the buildout. The analysis phase involved creating workflows, modifying existing Accela module applications, and identifying changes that need to be made to the standard Accela template.

Next Steps:

The staff will work closely with technical support staff from Accela to continue the software buildout. The next phase of the buildout is the integration portion which includes integrating Bluebeam, payment adapters, and Outlook.

Inventory & Analysis of Building Records and Conditional Occupancies

Anticipated completion date: December 2021

Project Description:

The staff will review and close all commercial and residential building permit records that are not currently active. Additionally, each permit will be electronically closed in CityView and physically inventoried with VRC (formerly known as FireProof) in accordance with our records retention policy.

Status Update:

The staff continued to review and close out inactive building permits. The building inspectors continued to work on closing out permits for 2017-2019.

Change of Occupancy Procedures

Anticipated Completion Date: December 2021

Project Description:

The staff will establish an updated procedure to better facilitate changes of occupancy within existing buildings that do not include a building modification. This update seeks to simplify the city's current change of occupancy policy while providing assurance that conformance with applicable zoning and fire codes is maintained. This will also result in reduced costs to property owners and will expedite and streamline the issuance of a change of occupancy permit.

Status Update:

No update for the month of October.

Next Steps:

The staff will collaborate with our chief building official to recommend policy changes and to create any necessary forms within Accela.

PROJECT UPDATES

OCTOBER 2021

VRC

Project Description: VRC (formerly known as Fireproof) is the company that provides record storage for the city. The department sends records to storage after the project / permits are completed or when the record is no longer needed. These records are inventoried in boxes. Boxes are frequently called back to the city offices for reasons that include but are not limited to public records requests and research purposes. This graph shows the monthly activity between the department and VRC.

PLANNING PROJECT UPDATES

OCTOBER 2021

Village Center Parking Strategy

Anticipated Completion Date: December 2021

Project Description:

Examination of existing and future parking needs in a comprehensive, data driven manner as necessary to develop a plan that provides targeted parking recommendations to facilitate the continued growth of the Village Center. The project deliverables include:

- Data validation of the parking model recommendations and traffic data analysis to ensure the parking recommendations and existing roadways are in alignment (transportation consultants Wells & Associates).
- Development of a Build-Out Plan that includes a range of future development scenarios varying in density and scale to adequately understand the impact on future parking and the overall transportation network (i.e. traffic).
- Short-term parking management strategies to address existing parking needs and long-term parking management strategies that anticipate future development conditions. Certain areas within the Village Center may be assigned multiple long-term parking management strategies based on the consensus plan.
- A phasing plan as well as an order of magnitude costs for the parking improvements recommendations.
- The plan will link parking and street improvements to density or other quantitative measure rather than time. This will allow the plan to remain relevant regardless of the timeframe that the Village Center builds out or how it might build out. It will also provide options for the city when evaluating proposed development projects.
- The traffic studies from the engineering firm Carpenter Marty and MORPC will be used to inform final parking recommendations in the final deliverable. The final report will tie parking recommendations to these traffic studies.

The working group includes the following members:

- Tom Rubey, The New Albany Company
- Jennifer Chrysler, Director of Community Development
- Adrienne Joly, Director of Administrative Services
- Mike Barker, Deputy Director of Community Development
- Steve Mayer, Planning Manager
- Chris Christian, City Planner
- Jeff Pongonis, MKSK
- Chris Hermann, MKSK

Historical Context:

The traffic consultant, Wells & Associates, finished their review of two proposed extensions of Market Street in November. The traffic simulation analysis concluded that connecting Third Street to Market Street results in overall less car travel delay within the Village Center. This connection, along with other intersection improvements at Main Street and Third Street, provides the most efficient flow of vehicular traffic. The simulation modeled AM/PM peak travel times based on anticipated development in the year 2031.

PLANNING PROJECT UPDATES

OCTOBER 2021

Village Center Parking Strategy continued...

The working group met in August to review key takeaways and recommendations:

- Key Takeaway #1: Rose Run II & Locust Alley
 - There were two parking districts that have been combined.
 - The group decided that this district requires a low and high density development scenario.
 - Provides parking for historic Village Center to the north of the site.
 - Explore on-street parking near Main Street dogleg. Implementation of the Market Street extension will make this feasible.
- Key Takeaway #2: Market & Main Continued Growth
 - Any new development will park itself.
 - Need to acknowledge timing and staging of future construction projects and materials may create temporary parking deficits.
 - Developers are responsible for producing a parking solution during construction.
 - At the completion of Market & Main development, the new parking created will likely be part of a regional parking solution during off-peak hours. (ie: event parking for McCoy and Amp).
 - RAMSA plan was created prior to Rose Run I's completion. An updated development plan will be required to address the new park and understand parking requirements for this district.
- Key Takeaway #3: Market Street Extension
 - Traffic bypass through town – reduces pressure on High (605) & Main (62) intersection to allow a more pedestrian friendly environment to walk to parking.
 - This new alignment may present options for new pocket parking lots (15-20 spaces each) around the Historic Core.
- Key Takeaway #4: 9 Acres
 - The district must park itself.
 - If the district cannot park itself then a shared agreement for a parking structure at Rose Run II must be in place.
- Key Takeaway #5: Park Once!
 - Enhancing the pedestrian experience from parking space to destination (ie: alleys, streetscapes) will increase likelihood people will walk.
 - Shared parking solutions are potentially available at Learning Campus parking available during non-school hours for event parking overflow.
 - Wayfinding solutions should be discussed for all types of parking (e.g lots, on-street, shared, etc.) and for local Village Center destinations.
- The idea of a “decision schedule” was introduced as a means for the city to prioritize improvements and determine when infrastructure improvements are needed based on the scale of private developments.

PLANNING PROJECT UPDATES

OCTOBER 2021

Village Center Parking Strategy continued...

In February, the project team provided an update to city council on the initial findings and draft recommendations of the plan. The staff provided an overview of traffic modeling data, parking blocks, current conditions, and recommendations for parking scenarios based on anticipated future growth. The city council comments/discussion included:

- A comparison of AADT (annual average daily traffic) to other cities
- The perception that people have to park far away from their destination in the Heit Center lot while the data shows there is sufficient parking at the Heit Center lot.
- The best practices and the parking space to building area ratios used for the parking standards.
- The impact of traffic from school campus on public streets. The staff acknowledged the issue and commented that there are limits to infrastructure improvements. The goal of this plan is to balance operational and infrastructure improvements.

Status Update:

There are no status updates to report. Below is the latest status update from previous reports:

- An initial draft of the entire plan was provided by MKSK. The city staff reviewed and provided comments to MKSK. The primary comment is there should be additional background information regarding the analysis and data contained in the plan since that is used as the basis for the plan's recommendations.
- The city staff, New Albany Company representatives and consultants held a visioning meeting with the goal of creating consensus around future growth and development. Led by consultants, the group reached agreement on a conceptual Market Street extension road alignment, development sites, and general building heights.
 - The team agreed throughout the Village Center there should be a mixture of building width heights to create an authentic town center aesthetic. In general, though the team decided it would be appropriate for future development to be up to three stories in the historic Village Center, four stories in the nine acres behind CVS, and two stories in the area between south High Street and the Market Street extension, south of Granville Street.
 - Based on the outcome of the visioning meeting with the New Albany Company, the city staff finalized the Market Street extension road alignment and potential building heights/densities so they can be incorporated into the plan.

Next Steps:

- MKSK is updating the draft plan to incorporate staff comments and the consensus items from the visioning meeting with the New Albany Company representatives. MKSK is scheduled to have the initial draft completed by mid November.

PLANNING PROJECT UPDATES

OCTOBER 2021

Parks Framework Plan

Anticipated Completion Date: October 2021

Project Description:

Development of a park system hierarchy complete with park typologies, use sheds, and program elements and components for each existing and future park. These recommendations will be used as a tool for the city to evaluate and prioritize future improvements for each unique park location. The project's deliverables include:

- Improvement recommendations for the facilities in each neighborhood park based on an assessment, analysis, and hierarchy developed out of the planning effort.
- Recommendations will include a basic diagram and descriptive narrative.
- A phasing plan and an order of magnitude costs to accomplish the recommended improvements.

The project working group includes the following members:

- Dave Wharton, Director of the NA Joint Parks District
- Abbey Brooks, Healthy New Albany and Parks and Trails Advisory Board
- Tom Rubey, The New Albany Company
- Jennifer Chrysler, Director of Community Development
- Adrienne Joly, Director of Administrative Services
- Steve Mayer, Planning Manager
- Chris Christian, City Planner
- Andrew Overbeck, MKSK
- Jeff Pongonis, MKSK
- Chris Hermann, MKSK

Historical Context:

The third and final working group meeting was held in August. MKSK presented the following:

- Park hierarchy consisting of four types:
 - Neighborhood Playground
 - Neighborhood Parks
 - Parkland Preservation
 - Destination Parks
- For each park hierarchy type, the draft plan includes:
 - General recommendations
 - Locations of each throughout the community
 - A “playbook of amenities” consisting of types of equipment, seating, landscaping, and other types of programming.
- The working group was supportive of the draft. The working group discussed the following details of the plan:
 - The Miracle Field area is not included in the plan because there is not enough space to provide desired amenities. Additionally, it is private property and the rest of the parks included in the plan are all publicly owned.
 - The “playbook of amenities” should include pre-selected materials and colors for equipment. There are two main age groups for playground equipment: 2-5 and 5-12 years old. The “playbook of amenities” should be broken down by age group.
 - The group still wants to be disciplined with playground aesthetics but at the same time wants to provide more dynamic programming and design.
 - Park maintenance should be considered in the plan.
 - Park access should be contemplated. Access meaning how easy it is to find a park. An example is Byington Park which has a narrow walkway between homes as an entrance. It is easy to miss.

PLANNING PROJECT UPDATES

OCTOBER 2021

Parks Framework Plan continued...

- The working group virtual meeting was recorded. The staff was able to share the video with members of city council so they can see and hear, firsthand, the presentation and feedback from the group.
- MKSK presented the analysis and recommendations to city council during their capital retreat workshop. City council prioritized the recommended improvements in neighborhood parks for the 2021 budget. City council set a goal to improve at least 2-3 parks per year until all of the neighborhood parks are updated. The number of parks updated annually may fluctuate dependent on overall budget and the costs necessary to upgrade each park.
- MKSK finalized the draft plan which includes the “playbook of amenities” to pick and choose park improvements for each neighborhood park based on the feedback from the working group.
- The playbook consists of:
 - Three options for the primary play structure.
 - Three options for complementary activities.
 - Options for additional individualized components.
 - Finishes, site amenities, selection for colors, benches and landscaping.
 - All of the options listed above can fit within the existing 50'x50' square mulched areas. There are 27 total different combinations possible based on the pre-selected equipment.
 - All of the 50'x50' square mulched areas are proposed to have a solid rubber surface to make it ADA accessible.
 - An order of magnitude costs for each playground.
- In February, the staff began an extensive search for the appropriate playground equipment to ensure the needs of the community are met while balancing the playground design/aesthetics. The staff and MKSK decided to remove the “playbook of amenities” from the Parks Framework Plan so it can act as a standalone document. This will allow staff to proceed and finalize the remainder of the Parks Framework Plan while an extensive search for the appropriate playground equipment continues.
- The staff coordinated park upgrades to Sumption Park in the New Albany Links subdivision with the HOA beginning in February. The HOA and the city are partnering to provide the addition of a climbing structure, upgraded play surface, benches, picnic tables and a redesigned seating/shade structure. The city’s goal is to have the benches, seating, and shade structure match other public parks to achieve a cohesive design with the other subdivision playgrounds.
- The “playbook of amenities” will be pulled from the plan as a separate document, in order to advance the rest of the Parks Framework Plan while the planning team reviews playground material and designs from various vendors.
- Recently, residents of the Planter’s Grove area have brought concerns to council regarding the suitability of the basketball court. The residents and council note how the park was not intended or designed to be a regional draw and accommodate a large number of visitors since it does not provide off-street parking, bathroom facilities, and lighting. The city staff provided MKSK comments and revisions to the plan based on feedback gathered from residents who attended city council meetings.
- In June, city council approved a request by the city staff to issue a request for qualifications seeking a qualified vendor to design and furnish new playground equipment at the Planters Grove, Lambton and North of Woods Parks. Services are to include playground design, removal of existing equipment, supply of new equipment, installation, site furnishings, and associated site work. The selected vendor will be required to provide a minimum of three different design proposals for review. This approach will allow the city to consider several equipment lines and evaluate them on their consistency with the existing aesthetic of New Albany neighborhoods and the quality of the materials. Responses to the RFQ will be evaluated by a team of city staff members and scored based on criteria provided in the RFQ including project team, past performance, understanding of the project, project approach and overall quality of the response. The RFQ process will allow for a transparent and competitive selection based on vendor qualifications and experience with municipal playground equipment.

PLANNING PROJECT UPDATES

OCTOBER 2021

Parks Framework Plan continued...

Status Update:

- MKSK finished incorporating the public comments from city council meetings into the final version of the plan.
- The final copy of the plan was uploaded to the city plans, maps and studies webpage.

Next Steps:

- None. The project is complete

ECONOMIC DEVELOPMENT UPDATES

OCTOBER 2021

Active Economic Development Pipeline

(Including Site Selection Requests For Information)

The department has responded to 48 site selection Requests for Information in 2021. This active pipeline represents more than \$8.3 billion in total investment associated with more than 23,300 net new jobs. The month of October added five projects to the pipeline.

Currently, the department has an active portfolio of approximately 48 projects with the top site uses being High-Tech Manufacturing/Production & Logistics, Speculative (Industrial & Flex), and Health & Life Sciences (non-clinical).

THE MEMBER COLLECTIVE

The Member Collective is one of Innovate New Albany's virtual resident companies. This business was co-founded in 2020 by New Albany resident, Adam Beckman. The company offers a wide variety of concierge-style services to a clientele seeking unique and upscale products, services, and experiences that are frequently in the luxury category.

Below, you will find a description of The Member Collective and its offerings from the company's website homepage:

"YOU'VE MADE IT. You know what you want and have the means to get it. You want to live the good life—with zero hassles, no wasted time and no second bests. You should have peace-of-mind knowing someone is looking out for you. That's where we come in. **The Member Collective** is a lifestyle management company that is here to help you get the most out of life. An exclusive membership gives you access to our insider knowledge and collective 100+ years of experience, coveted brand relationships, extraordinary access, and most importantly, gives you your precious time back. We'll elevate your status so you can enjoy life-enhancing benefits ranging from exclusive experiences to must-have luxury, often with preferred pricing. Please visit us at www.membercollective.com or email us at info@membercollective.com."

This graph shows the average number of days for commercial plans reviewed by building and zoning during each month. The state standard from the Board of Building Standards and the city standards are listed as solid lines for comparison.

*YTD is the total from January to the end of current month.

FIELD WORK AND INSPECTIONS

OCTOBER 2021

Code Enforcement Activity

Address: 5540 Harlem Road

Date of Complaint: October 15, 2021

Complaint Description: Construction project looks abandoned, tall grass

Violations: None

Activity: Inspection completed, spoke with contractor and asked him to clean up site.

Status: Closed

Address: 6294 Jason Court

Date of Complaint: October 14, 2021

Complaint Description: Junk in front yard

Violations: None

Activity: Inspection completed, items are art sculptures and not regulated by code.

Status: Closed

Address: 6295 Jason Court

Date of Complaint: October 14, 2021

Complaint Description: Shed without a permit

Violations: None

Activity: Inspection completed

Status: Closed

Address: 6275 Jason Court

Date of Complaint: October 13, 2021

Complaint Description: Accessory building without a permit

Violations: No permit

Activity: Inspection completed, spoke with homeowner, items corrected

Status: Closed

Address: 6678 Central College Road

Date of Complaint: September 20, 2021

Complaint Description: Downed trees and tall grass

Violations: Turfgrass, outdoor storage, landscape maintenance, sign maintenance

Activity: Re-inspection completed, items corrected

Status: Closed

Address: 7120 Central College Road

Date of Complaint: September 20, 2021

Complaint Description: Junk vehicle

Violations: Parking motor vehicle on residential property

Activity: Re-inspection completed, second letter mailed

Status: Open

Name of Project: VanTrust Site J Building II
Location: 8200 Innovation Campus Way West
Square Footage: 196,000
Start Date: December 2020
Estimated Completion: September 2021

Building 315

Name of Project: Holiday Inn Express
Location: 1955 Beech Road
Square Footage: 60,164
Start Date: February 2021
Estimated Completion: Summer 2022

Name of Project: Building 315
Location: 8950 Smith's Mill Rd. N.
Square Footage: 317,086
Start Date: June 3, 2021
Estimated Completion: Winter 2021

Vantrust Site J Building II

Name of Project: Innovation Industrial
Location: 9360 Innovation Campus Way
Square Footage: 130,096
Start Date: August 2021
Estimated Completion: TBD

Name of Project: Speculative Warehouse
Location: 9885 Innovation Campus Way
Square Footage: 351,851
Start Date: October 2021
Estimated Completion: Spring 2022

Innovation Industrial

Name of Project: Amgen, Inc.
Location: 4150 Ganton Parkway
Square Footage: 290,454
Start Date: October 2021
Estimated Completion: TBD

COMMERCIAL PROJECT CONSTRUCTION STATUS OCTOBER 2021

Forest Dr./Walton Parkway Corridor

Name of Project: Medical Office Connector Skybridge

Location: 5040 Forest Dr

Square Footage: 2,620

Start Date: January 2020

Estimated Completion: Summer 2021

Name of Project: Medical Center of New Albany

Location: 6455 W. Campus Oval

Square Footage: 46,080

Start Date: June 2021

Estimated Completion: Summer 2022

Medical Office Connector Skybridge

COMMERCIAL PROJECT CONSTRUCTION STATUS OCTOBER 2021

Partial Occupancy Status

Name of Project: United Methodist Church Expansion

Location: 20 Third St.

Expiration Date: November 1, 2021

Name of Project: Sidecat, LLC—NAO3 Building 2

Location: 1500 Beech Rd

Expiration Date: October 8, 2021

Name of Project: Montauk Innovations, LLC Building II

Location: 1101 Beech Rd

Expiration Date: November 1, 2021

Name of Project: Axium Building 3

Location: 8982 Innovation Campus Way

Expiration Date: October 22, 2021

Name of Project: All About Kids Daycare

Location: 96 N. High St.

Expiration Date: November 28, 2021

United Methodist Church Expansion

Axium Building 3

BUILDING AND ZONING STATISTICS OCTOBER 2021

*YTD is the total from January to the end of current month.

This graph represents the number of building and zoning permits issued per year. The significant decrease in the total number of permits in mid-2015 is due to an internal change in process. The change in process combined all permits related to one project into a single permit for ease of tracking and overall project coordination. However, this change does not always reflect the number of plan/permit reviews in a single permit.

BUILDING AND ZONING STATISTICS
OCTOBER 2021

This graph represents the number of building and zoning inspections completed per month.

*YTD is the total from January to the end of current month.

This graph represents the number of building and zoning inspections completed per year.

*YTD is the total from January to the end of current month.

BUILDING AND ZONING STATISTICS OCTOBER 2021

This graph represents the number of new residential permits per month over a three year period of time.

*YTD is the total from January to the end of current month.

This graph represents the total number of new residential permits issued per year over a 10 year period.

*YTD is the total from January to the end of current month.

RESIDENTIAL BUILDING STATISTICS

OCTOBER 2021

Subdivision Summary

| Subdivision | Total lots | Built lots | Available lots |
