2024 ANNUAL BUDGET PROGRAM

November 7, 2023

Dear Mayor Spalding and Council Members:

I am pleased to present the 2024 Operating Budget and Appropriation Ordinance for your consideration. Per Article IX of the New Albany Charter, the city manager is required to submit to council, the proposed operating budget for the ensuing fiscal year by the first council meeting of November. Council is required to adopt a balanced operating budget and appropriation ordinance by December 21, 2023.

The city's financial position is strong as we conclude 2023 and prepare for the upcoming year. Budgeted 2024 General Fund operating revenues are projected to increase slightly over 2023 receipts and exceed operating expenses by more than \$4.67M. The city's cumulative General Fund surplus will provide for transfers of more than \$9.4M to various capital funds for infrastructure projects, equipment replacement, debt service and severance liability. The proposed budget maintains the recommended 65% carryover balance that has been in place for more than a decade to offset disruptions to the local economy.

The proposed rate of growth in General Fund operating expenses for 2024 is 10.45%. The rate of increase is considered temporary and is being driven primarily by inflation, increased staffing levels and equipment replacement. The increase in staffing, the second in the last two years, is in response to business park development and the growth of community programming. The rate of increase is expected to return to more typical levels in 2025 and the outlying years referenced in the budget document. At the same time, it is expected that the rate of revenue growth will continue to increase as jobs are added in the business park.

Overall, the city's financial future appears bright over the next five years with revenues exceeding expenses, continued economic growth and very little burden on the General Fund due to debt obligations. Transfers from the General Fund and revenue from other funds will continue to be available to fund investments in infrastructure that will yield new income tax revenue and provide for ongoing enhancements to city services.

The city's department heads and I look forward to the opportunity to present this budget to you in the coming weeks, and we welcome your feedback.

Respectfully,

Joseph Stefanov City Manager

Community Profile

New Albany, Ohio is a master-planned community located fifteen miles northeast of Columbus, Ohio's capital city, and ten miles from the John Glenn Columbus International Airport. It is located in both Franklin and Licking counties. New Albany's pastoral setting, timeless architecture, community events, world-class amenities and attention to detail offer an exceptional quality of life for its 11,389 residents. A careful balance between land uses and emphasis on developing the local economy has resulted in the city's sustained, yet carefully managed growth over the past three decades.

New Albany is also home to one of the largest master-planned international business parks in the Midwest, featuring triple feed electric power and fiber optic capabilities for companies of all sizes. Since 1998, the Business Park (which has grown to 9,000+ acres) has attracted more than \$28 billion in private investment resulting in 26 million square feet of commercial space and 24,000 jobs.

New Albany stands out as a community and has seen recognition from several publications. 24/7 Wall St. selected New Albany as Ohio's 2020 representative on their annual list of <u>"Best Cities to Live in Every State"</u> and USA Today cited New Albany as one of <u>"America's 50 Best Cities to Live"</u>. New Albany was also previously named the #1 Suburb in America by <u>Business Insider</u>.

Quick Facts (2022)

- Population estimate 11,389*
- Square miles 20.69 (13,244 acres)
 - Number of homes 3,743
 - Median home value \$515,100
- Median household income \$200,001*
 - High school grad 98%*
 - College grad 78.3%*
 - Unemployment Rate 3.9%

Founded in 1837 and incorporated in 1856, the City operates under a home rule charter form of government which was originally adopted on November 3, 1992, giving the then-village greater local control and flexibility than the statutory form. Ohio statutes govern only on matters which the New Albany Charter does not address. The charter is reviewed every ten years and any proposed revisions must be approved by the New Albany electorate before they can be enacted. The current charter was last amended in November of 2019.

New Albany utilizes the Council-Manager form of government, which combines the political leadership of elected officials with the managerial experience of an appointed, professional city manager whom serves as New Albany's CEO.

City Council is the legislative branch of government consisting of seven members, one of whom is the mayor. City Council and mayoral elections are held in November of odd-numbered years and are non-partisan. Council members are elected by residents to four year terms.

The mayor, in addition to the powers, rights, and duties of a City Council member, presides over meetings and often acts as a spokesperson to other governments. The mayor has no veto powers.

City Council has been granted certain powers by the Ohio Constitution, the laws of the State of Ohio, and the New Albany Charter. These powers are exercised through the adoption of ordinances and resolutions. Among other things, the charter gives City Council the authority to create and abolish departments, commissions, boards and committees, audit accounts and records, conduct inquiries and investigations, levy taxes, enforce laws and regulations, adopt a budget and appropriate funds, adopt building and zoning regulations and hire a city manager.

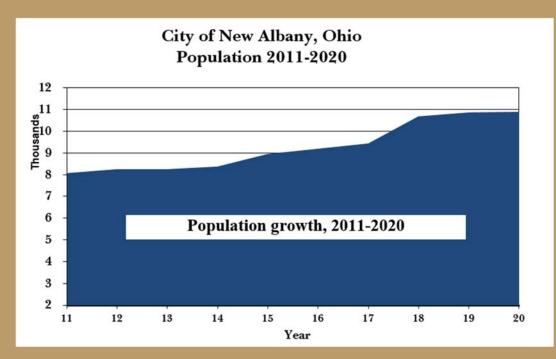

The City Manager serves as the chief administrative and law officer of the City. The City has a Department of Law (City Attorney), Department of Finance, and other departments as City Council may deem appropriate to create. The City Manager appoints the Law Director and the Director of Finance, subject to the consent and approval of City Council. The Director of Finance, as the head of the Department of Finance, serves as the City's chief financial officer.

The City provides a range of municipal services mandated by statute or charter, including police protection, street maintenance, planning, zoning, and other general government services. Health services are contracted with, and provided by, the Franklin County Board of Health

Population

New Albany is a thriving community with a US Census population estimate of **10,825** residents as of the 2020 US Census. This represents a **38.6%** increase from the April 2010 US Census total of **7,724** residents.

It is estimated that males make up **5,618** (**51.87%**) of the population and females make up **5,207** (**48.13%**). The largest share of the population is between 18 and 65 years and the median age of New Albany residents is **40.0**. The average family size in New Albany is 2.12 members.

Real Estate

In 2019, the Columbus Metro Residential Real Estate market was named the #1 real estate market in the nation by Realtor.com. New Albany is no exception. In 2022, the median sales price was \$816,500; well above the median for other neighboring municipalities and the highest in the Columbus Metro area. With over 3,700 homes and only 0.28 homes per acre, New Albany continues to be a sought-after community.

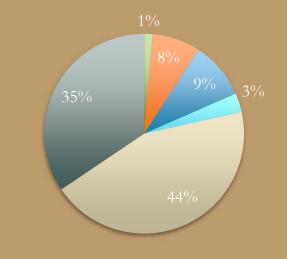

In addition to new luxury apartments in the Village Center, new construction of two neighborhoods for the 55+ community provide housing options for empty nesters who want to 'right' size while remaining in our connected community.

25.34% of New Albany land is residential; 55.73% is commercial use, 10.39% is civic/institutional/ governmental, and 8.55% is dedicated park/open space.

Schools and Education

Our Learning Community for New Albany, Ohio is approximately 20 miles northeast of Columbus, and our schools are located on a central Learning Campus in the heart of the City. The school district serves an area of 26 square miles. Unlike some suburban communities that are sprawling with unregulated growth, New Albany is seeking to develop as a "balanced" community, a 21st Century community in which its more than 10,000 residents, business enterprises, developers, government entities, and schools share a common vision.

The New Albany - Plain Local School District is a consistent top performer earning the maximum of indicators on the state report card issued by the Ohio Department of Education (ODE). Even though our district is in the top 3% of districts in the State of Ohio, it continues to pursue even higher levels of excellence. The district's Performance Index score has steadily risen every year, demonstrating the constant pursuit of raising student achievement.

Quality of Life

The thoughtful, innovative planning is reflected in everything from our pedestrian-friendly Village Center to our nationally-ranked school system located within a 200-acre learning campus, our community wellness facility, our world-class performing arts center and recent Village Center improvements including Rose Run Park and the Hinson Amphitheater.

As the residential and corporate base grows in the community, the demand for amenities and services grows as well. This concept is affirmed through the development in the medical campus and the Village Center.

The New Albany International Business Park is designed to protect and preserve many of the area's natural features and open spaces. Each site is connected to the more than 55-mile leisure trail system. This balanced atmosphere provides employees with quality of life choices and contributes to the overall health and productivity of the business. From housing and education to culture and leisure, master planning with attention to the details that define quality of life has led to New Albany's ranking among the nation's best in *Town & Country* magazine and central Ohio's best in *Columbus Monthly*. New Albany was named "America's Best Suburb" by *Business Insider*, one of the best communities in the United States by 24-7 Wall Street, and one of Ohio's "Best Hometowns" by *Ohio Magazine*.

New Albany Pickle Ball Court facility which opened in July 2023.

Our tagline – **COMMUNITY CONNECTS US** – is a rallying cry that brings people together and helps our residents connect with us. As a master-planned community, New Albany collaborates with residents and businesses to create a shared vision for our future that brings people together to do more than live and work.

We are *connected* by our community pillars – lifelong learning, health and wellness, arts and culture, and the environment.

We are *connected* by our inclusive, collaborative approach to community building.

We are *connected* in building a smarter, stronger, healthier, greener community.

We are *connected* by the many amenities, programs and services – from leisure trails to fiber optic to events that bring us together.

Strategic Planning

New Albany's first strategic plan was adopted in 1998. Since that time, it has been updated approximately every five years to respond to changing conditions and priorities resulting from the city's continued growth. The most recent update was adopted in 2021. The planning effort for each update was based on community input and sound planning principles designed to improve quality of life, address community needs, and protect investment for the long term.

The strategic plan allows for collaboration between the city, residents, and businesses—proactively planning for an outstanding community of choice. This includes planning for pedestrian and bike-friendly amenities, community connectivity, dynamic mixed-use environments, parks and open space, timeless architecture, traditional neighborhoods, versatile residential choices, robust economic development, environmental sustainability, and a vibrant Village Center. The strategic plan is the key policy guide for City Council, boards, commissions, and staff as they evaluate land use, development, annexation, and infrastructure decisions. It serves as a reference guide to evaluate the extent of public investments as well as the character, appropriateness, and overall quality of private development proposals.

The foundation of the New Albany community is rooted in four pillars: lifelong learning, health and wellness, arts and culture, and environment and sustainability. In addition to the four community pillars, the most recent adopted plan pulls forward the ten cornerstones that were established in the *2014 Strategic Plan* (page 18), all of which are reflected and prioritized in the future vision for the city.

Over the past two decades, the City of New Albany has experienced continued growth and development. The strategic plan allows New Albany to prioritize community needs, prudently allocate city resources, guide private development, and generate revenue to support services and infrastructure needs while fulfilling the community's shared vision for the future.

PLANNING PRINCIPLES

In addition to the four community pillars, this plan also pulls forward the ten cornerstones that were established by the community in the 2014 Strategic Plan.

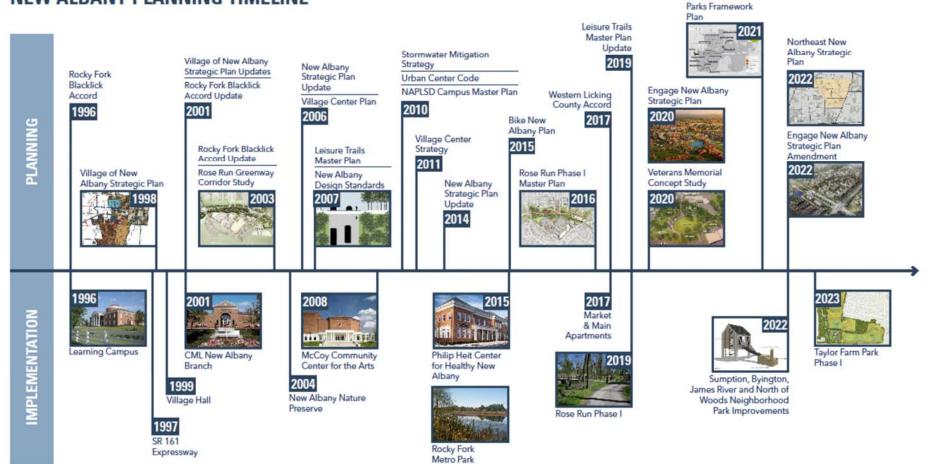

These planning principles helped to shape the focus and recommendations of this strategic plan and serve as a filter for future community decision making. They provide a framework to protect the assets and character that define New Albany while encouraging it to improve and thrive.

NEW ALBANY PLANNING TIMELINE

Vision and Organizational Goals

New Albany's vision is to be a community that optimizes the personal well-being of our citizens and visitors through investments in programs and infrastructure that support our community's four pillars of *Lifelong Learning*, *Health & Wellness*, *Arts & Culture*, and Environment & Sustainability.

New Albany leaders and staff have historically and continue to embody this vision through strategic, creative, and forward thinking initiatives while making sound, conservative, and conscientious budget decisions. Each budget is prepared with not only the current financial or community impact in mind, but with the city's long-term operations and goals in mind.

In addition to the New Albany community's four pillars and the ten cornerstones adopted within the city's <u>Engage New Albany</u> strategic plan (page 18), New Albany's overall organizational goals have been created to support the city's vision and to guide city officials and staff while making impactful decisions, both financially and operationally.

The following organizational goals support New Albany's vision and are evident through financial, operational, infrastructure and development decisions made in the past and for the future:

- To implement the ten planning principles as defined in the city's <u>Engage New Albany</u> strategic land use plan.
- 2. To support the community's four pillars through direct investment and collaboration with community partners.
- 3. To plan for and facilitate future development through infrastructure design, construction and maintenance.
- 4. To implement and facilitate successful community programming and provide excellent services to citizens and visitors.
- To pursue an organizational workplace culture that promotes professional and personal growth and development of employees who support and contribute to our vision, values and organizational goals.

Goal Driven Strategies

New Albany has developed and utilized various strategies to support our vision and achieve our organizational goals which can be summarized into five specific strategies when developing and implementing the city's operating budget and capital improvements plan. These five strategies directly support the city's vision and align with the organizational goals defined previously, and include the following:

- 1. Invest in Projects & Programs that Enhance Quality of Life
- 2. Invest in Infrastructure that Encourage Private Development
- 3. Pursue Continual Service and Operations Improvements
- 4. Maintain Excellent Stewardship of Public Funds
- 5. Invest in the Professional Development and Well Being of Our Workforce

Department Core Values & Performance Measures

To support New Albany's vision and organizational goals, each department within the city identified core values that serve as guiding principles aligned with those goals.

Each department prepares monthly and annual reports to update city officials and residents about initiatives, projects, services, and statistical and financial information. The reports are reflective of the commitment to the core values for the departments and the city's overall vision and goals.

Each department has a dedicated section in the budget (page 133) that includes details about their functions and core values. In addition, each department section includes details about organizational structure, staffing, statistical information and performance measures which connect that department's core values to the city's overall standards. The city staff developed performance measures to provide insight on the efficiency and effectiveness of the city services. The continued development of these measures will aid in the alignment of budget dollars to the city's vision and organizational goals and will be updated in future budget presentations.

New Albany Boards and Commissions

Architectural Review Board

New Albany Code 1157.05, Ord O-02-2011, Ord O-26-2007, Ord O-10-1998

<u>Duties</u>: Review plans, drawings, and signage applications. Issue Certificates of Appropriateness for environmental or zoning changes. Hear appeals made under New Albany Code section 1157.

Board of Zoning Appeals

New Albany Code section 1107.03, Charter section 10.03

<u>Duties</u>: Hear and decide appeals regarding legislation and administrative determinations related to zoning and land use; variances from zoning area regulations and general development standards. Subpoena witnesses, administer oaths, compel discovery as needed.

Cemetery Restoration Advisory Board

Resolutions 52-2015, 66-2015, and R-30-2019

<u>Duties</u>: Advise on issues related to the restoration and maintenance of New Albany cemeteries.

Charter Review Commission

City Charter Chapter 13 <u>Duties</u>: Review Charter and report findings and conclusions to Council along with recommendations for amendments.

Community Improvement Corporation

Ordinance O-15-2006

<u>Duties</u>: Trustees adopt by-laws and govern the CIC, handle CIC employee matters, handle CIC financial matters, act as agent of New Albany.

Community Reinvestment Area Housing Council

O.R.C. *3735.69* <u>Duties</u>: Annual inspection of tax exempt properties within the community reinvestment area and hear appeals.

Joint Parks District

Overview Summary

Consolidated Financial Presentation

The financial activity of New Albany is undertaken in accounting entities called funds. New Albany has a number of funds that have been classified in accordance with standards established by the Governmental Accounting Standards Board (GASB). Nine years of financial information is displayed for each of those funds. In addition to the individual fund displays, financial information has been consolidated and presented in two different formats. The first presentation, located on pages 54-55, is formatted in a traditional operating statement format and displays nine years of financial information. The second format, located on page 57, consolidates the 2024 financial information and allocates the revenue and expenditures between the categories of operations and capital & development to show each category's level of sufficiency. These two categories are further broken down into subcategories, which are described further in the funds section of this budget document.

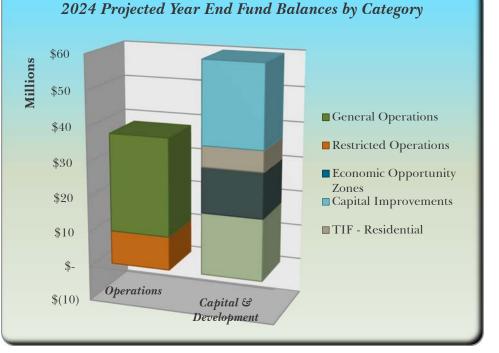

Regardless of how the presentation is formatted, it is important to point out that the consolidated financial information is not considered appropriate for governmental accounting purposes because the revenues and balances of some funds have restricted purposes. Examples are the Street Maintenance Construction and Repair and the State Highway funds, which receive money from the State's gasoline taxes and motor vehicle license fees. The Ohio Constitution provides that any money from these sources can only be used for street and highway purposes. Additionally, City Council has internally designated some funds for special uses. This designation provides the community with an understanding of the intended use of the funds. One such fund is the Safety Town Fund.

The ending fund balance, regardless of fund type or presentation, is the excess of revenue and other sources over the expenditures and other uses at the end of the year. In both presentations of the consolidated financial information, the ending fund balance is segregated into operations and capital & development categories. The operations category is comprised of general, restricted, and Economic Opportunity Zones (EOZ). The capital & development category consists of capital improvements, tax increment financing (TIF) – residential, tax increment financing (TIF) – commercial, and other capital and related.

As mentioned previously, the Operations category is segregated into three categories: general, restricted, and EOZs. The funds included in each of these categories are described on pages 58, 63-65, and 87. A brief description of each category is provided below.

General Operations - The general operations category includes funds whose resources are either unrestricted (available for use of any city activity deemed appropriate by Council) or are directly related to the New Albany's general operations. This category is dominated by New Albany's General Fund, whose fund balance consists of both unrestricted balances and a reserve (restricted funds), set at 65% of the annual operating expenditures. The overall fund balance is projected to decrease in 2024 and finish 2025 with a similar balance (while recovering from significant transfers to support capital projects and equipment in 2024) before continuing to increase steadily in 2026 and 2027. In addition to General Fund annual operating expenditures, the fund balance is utilized to fund other operations and capital investments as mentioned previously. Two such uses included in this annual budget are the transfers to the Debt Service Fund for the payment of outstanding debt and to the Capital Equipment Replacement fund to replace funds spent on current year purchases and additional amortization of the historical cost of equipment. A significant transfer to seed the newly proposed Village Center Improvement fund is proposed for 2024, in addition to a transfer to the K9 Patrol and Hinson Amphitheater funds to supplement operations. Transfers are also proposed to the Severance Liability and Infrastructure Replacement funds to set aside funding for future costs related to severance payouts and infrastructure replacement.

Restricted Operations – The restricted operations category includes funds whose resources are derived from specific taxes, grants, or other restricted or committed resources. The use and limitation of these funds is specified by city ordinance or federal or state statutes. Due to the nature of these funds (expenditures being directly tied to restricted source of revenue) most of the funds within restricted operations maintain a consistent balance each year.

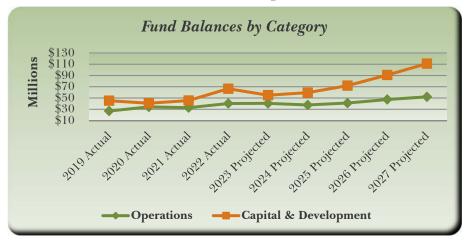

Economic Opportunity Zones (EOZ) Operations – The EOZ operations category includes funds whose resources are derived from net profits and withholding income tax received from businesses located within the New Albany International Business Park. The resources deposited into the EOZ funds are those required to be shared with other entities according to agreements that are in place. Due to the nature of these funds (all revenue received is expended according to sharing agreements), they usually carry a zero balance.

The capital & development category consists of capital improvements, TIF – residential, TIF – commercial, and other capital and related. The funds included in each of these categories are described on pages 91, 99-100, 116-117, and 124.

Capital Improvements – The Capital improvements category includes funds whose resources are expended solely for the improvement of capital and related projects that are not related to projects that improve or add infrastructure or other capital within the New Albany International Business Park. The overall fund balance in this category is projected to vary in accordance with project funding, however, the increasing balance in the Infrastructure Replacement fund helps to offset increased capital expenditures in other funds. This fund is accumulating resources for future projects related to when the replacement or repair of current infrastructure is necessary. Capital Improvements are further described in the Capital Section starting on page 253.

TIF – Residential – The TIF – Residential category includes funds which are used to account for established residential TIF districts within New Albany. The overall fund balance in this category is projected to increase over the next several years after significant contributions toward capital in 2022 and 2023. A majority of these funds contribute, in part, to annual debt service payments for the 2018 Rose Run project, the Series 2016 Refunding (which refunded Series 2007 bonds issued to finance the construction of the McCoy Performing Arts Center for which New Albany maintains joint ownership with Plain Township and the New Albany – Plain Local School District. These funds also account for the sharing of revenue with Plain Township the amount it would have received for fire and EMS services per established agreements. Payments to the school districts for "non-school" TIF districts are made directly to the schools and are not accounted for in these funds. TIF – Commercial – The TIF – Commercial category includes funds which are used to account for established commercial and mixed use TIF districts within New Albany. The overall fund balance in this category is projected to increase through 2027 and will be evaluated for capital projects as funding is available to be included in New Albany's Capital Improvement Plan. As additional projects are approved within the TIF areas, there are plans to utilize the funds in future years. These funds also account for the sharing of revenue with the appropriate township (Plain/Jersey) in the amount it would have received for fire and EMS services per the TIF agreements in place. Payments to the school districts for "non-school" TIF districts are primarily made directly to the schools and are not accounted for in these funds. The Village Center and Blacklick TIFs are "school" TIFs (meaning the revenue is not shared with the school district); therefore, there are separate agreements that address the manner in which revenue is shared during the life of each TIF.

Allocation of Resources

The total resources of New Albany are used for two broad purposes: 1) to provide for the day-to-day operations of the City and, 2) to address New Albany's long-term and development needs. Both purposes are vitally important to the quality of life and values of New Albany. Resources for operations ensure that the streets are adequately patrolled and maintained, leaves are collected, snow is removed on a timely basis, employees are paid, and that New Albany continues to provide the many other services that residents have come to expect even in a period where significant growth and pressure on these services continue.

Resources for long-term needs are used for infrastructure construction and reconstruction, parks and leisure trail improvements and the maintenance of the city's facilities. These investments are commonly referred to as *capital improvements*. Resources for long-term needs can be used in one of three ways. The first method is to pay for projects with cash on a pay-as-you-go basis. This generally places a limit on the volume of projects that can be undertaken during the year. The second method is to leverage the available funds by borrowing money and retiring the debt over time. The method of borrowing is typically the issuance of general obligation municipal bonds. The third method, which is fairly unique to New Albany, is to request funding from the New Albany Community Authority (NACA) Economic Development fund which, per agreement, is funded by 30-50% of the income tax on net profits and withholdings received from businesses in three of the four Economic Opportunity Zones in the New Albany International Business Park.

Budget Format

The City Manager's budget message provides an overview of the budget as a whole and of the General Fund projections.

The community profile introduces New Albany and provides quick facts.

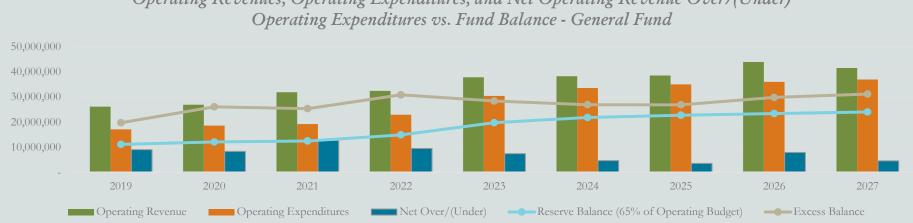

The overview summary begins with the description of the budgetary presentation and the different categories of funds. The 2024 projected fund balance by category and nine years of ending balances are displayed and discussed for each of the categories.

In the pages following the overview summary, significant revenues and expenditures are discussed in detail. Fund summaries follow the revenue and expenditures. The fund summaries include actual information for fiscal years 2019 through 2022, amended appropriations and revenue estimates for 2023, proposed appropriations and revenue estimates for 2024 and future projections for 2025 through 2027. The projections are intended to provide the long term planning perspective needed to properly evaluate funding and allocation decisions for 2025-2027; however, these are merely estimates to gain perspective on possible trending and will be re-evaluated in each of the future annual budget processes. The revenue projections do take into consideration various factors with regard to income tax and the expenditure projections take into consideration future costs of approved personnel, along with the related impact to operating and contractual services. With significant development and expansion continuing within the business park, it is even more important that the operating budget decisions include consideration of those factors along with the impact of planned projects such as park improvements, additional infrastructure and new facilities.

New Albany's fund structure consists of the following fund types: the General Fund, special revenue funds, capital projects funds, a debt service fund, and fiduciary (custodial) funds.

Historically, the General Fund accounts for most general operations of New Albany. However, in 2022, the City was granted \$105.1 million in State Infrastructure funds to construct roads and utilities as a result of Intel choosing New Albany as the location for its new chip manufacturing campus. This amount has been amended in 2023 to a total of \$281.2 million. A portion of the grant (\$101.2 million) is American Rescue Plan Act (ARPA) passed through the Ohio Department of Development (ODOD). The funding and expense has been significantly different than normal operations across all funds from 2022 through 2024, however, 2025 looks to return to previous levels. In 2024, the General fund estimates are 18% of overall revenue, 53% of the operating expenditures and 19% of overall expenditures.

Except for the 65% reserve, the General Fund balance is unrestricted and available for use for any City activity deemed appropriate by Council. This budget strives to maintain a healthy excess balance greater than \$4 million to weather the uncertainty of the economy for the next few years. The 2024 budget projects that the excess balance will significantly exceed the target for 2024 and all future years projected, even after significant transfers out to various funds.

Operating Revenues, Operating Expenditures, and Net Operating Revenue Over/(Under)

The revenues and fund balances of the special revenue funds are either internally or externally restricted. This means that they can only be used for their intended purpose. An example of an externally restricted fund is the Street Maintenance Construction and Repair Fund, whereby the State of Ohio legally restricts gasoline tax for the maintenance and repair of the streets. Examples of internally designated funds are the Economic Opportunity Zones Funds. City Council established these funds to account for and disburse the income tax related to net profits and withholdings received from businesses in the New Albany International Business Park to the appropriate parties per agreements that are in place.

Capital Projects funds are used to account for monies committed for capital equipment, capital improvements, and development within New Albany.

The Debt Service Fund is a debt service fund for the payment of principal and interest on outstanding debt obligations and other similar expenses. The debt service revenue is transfers from other funds responsible to pay the debt obligations or in some cases, premium on the sale of bonds which is to be used to partially pay the issuance's future interest payments.

Fiduciary funds are custodial in nature, and thus, a budget does not appear in this book.

A diagram displaying the funds of New Albany by fund classification can be found preceding the "Consolidated Presentation – All Funds" table in the "Funds" section. For budgetary presentation, these same funds are listed in an additional diagram according to their function and purpose within the city. This additional table is how the funds are displayed, by "operation", throughout the remainder of the Annual Budget Program.

There is a section for each of the departments of New Albany. Each department section includes: a description of the department and its functions; information including the departments' organizational goals and goal driven strategies along with performance measures; an organizational chart and staffing information showing authorized personnel for 2020-2023 and proposed for 2024 with related notes; and five years of historical and year-to-date (2019-2023) information and the 2024 proposed budget. The sections on organizational goals and goal driven strategies and related performance measures will continue to be improved as these areas are reviewed throughout the 2024 annual budget process.

The capital section includes a list of the 2024 capital equipment proposed purchases and the amortization of the historical cost of all capitalized equipment to determine the annual funding needed as a transfer from the General Fund to the Capital Equipment Replacement Fund. This section also includes a Capital Improvements projects list based on city council priorities as determined through an exercise at the Capital Workshop held on September 13, 2023. Overall, there are significant capital projects included for 2024 and the next five years. While most of the projects in dollar amount are related to necessary infrastructure related to economic development projects, the projects not related to the business park also include significant investment and project coordination which has been reflected within each departments' operating costs as increases in personnel and/or contracted services.

The appendices contain: various expenditure summaries; the 2024 Exempt and Non-Exempt Wage Plan; Position Summary Schedule; Information Technology Budget; Five-Year Financial Plan (2024-2028), Summary of Significant Financial Policies, and contact information for New Albany.

Pelotonia – August 5, 2023

Budget Process & Methodology

Budget Process & Schedule

Ohio law requires New Albany by mid-July of each year to prepare an estimate of resources available for expenditure in the following year. This estimate of resources is known as the *Tax Budget*. The annual budget development process begins with the development and submission of the Tax Budget to the Franklin County Budget Commission (Licking County does not require this submission). The Commission reviews the Tax Budget, approves it and generates a *Certificate of Estimated Resources*. This certificate serves as the basis of available funds for the development of the expenditure budget.

The New Albany Charter requires that the City Manager, in consultation with the Finance Director, develop revenue and expenditure estimates and present a proposed budget to City Council for their consideration at the first regularly scheduled Council meeting in November prior to the beginning of the next fiscal year.

Once adopted, amendments exceeding the legal level of budgetary control (described on page 35) must be approved by City Council by City Ordinance. Necessary amendments that do not exceed budgetary control are approved by the Director of Finance. All amendments are entered into the budgetary software and budgets are monitored throughout the budget year. A budget calendar is included page 36.

Budget Basis of Accounting

A jurisdiction's "budget basis of accounting" refers to when revenues and expenditures are recognized in the accounts for budgetary purposes.

State law establishes the budget basis of accounting for all entities in Ohio. New Albany utilizes a modified cash basis for its budgetary basis of accounting, or "cash-encumbrance basis". Revenue and expenditure transactions are recognized when the cash is received or disbursed, or when a commitment has been recorded as an encumbrance against an applicable appropriation.

An encumbrance is a commitment to purchase goods and services, and includes one or more year's payments depending on the relationship between the services rendered and the stream of payments. For example, when a service contract is signed, an encumbrance is established to reserve those funds necessary to pay for the services rendered. Payment is made after the invoice for services is received.

All annual appropriations lapse at year-end to the extent that they have not been expended or lawfully encumbered. Fund balances are shown as unencumbered cash balances. The cash-encumbrance basis of budgetary accounting is the basis used for all interim financial statements during the year as well. The financial records are maintained through the year on the budgetary basis aforementioned. The basis of budgeting (cash-encumbrance basis) used for each fund in the annual budget is not the same as the basis of accounting used in the financial statements prepared at year-end for external reporting purposes.

The year-end financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units which is an accrual basis of accounting. Such basis of accounting indicates revenues are recognized when they are earned (whether or not cash has been received), and expenditures are recognized when goods and services are received (whether or not cash has been disbursed), which differs from the budgetary basis presented in this Annual Budget Program.

Families learn and plant at the Community Garden, Rose Run Fest 2023

Budgetary Control

Ohio Revised Code (ORC) §5705.38(c) requires each municipality to present their annual operating budget to their legislative authority, at minimum, at the level of fund, department, and within each department, identifying personal services and other expenditures. New Albany adopts its annual budget at the level of fund, function/department, and within each function/department, personal services and operating and contractual services. In addition, within each fund, capital, debt services and transfers and other financing uses (OFU) are budgeted.

Fund is the individual fund number and description established by the authority to separate and control expenditures of specific monies. While all governmental funds are included in the annual appropriation ordinance, agency and fiduciary funds are not included.

Function/Department represents groupings of functionally similar tasks performed by the jurisdiction and is the local equivalent of the ORC-required department. There are twelve major programs/departments identified by the Director of Finance that include the following:

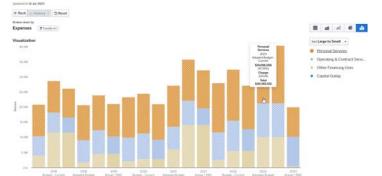

- Council
- Police
- Community Development
- Administrative Services
- City Attorney
- General Administration
- Public Service
- Finance
- Land & Building Maintenance
- Capital
- Debt Services
- Transfers & OFU

The final ORC required component is *Object*. The object code is the lowest level of control provided for in the appropriation legislation. The current format provides the level of detail required by the ORC while not unduly restricting the ability of the Director of Finance to manage the budget without submitting numerous supplemental appropriations to provide for minor budget transfers. In this budget structure, similar types of account numbers are grouped together into higher-level summary accounts. These summary groups include:

- Personal Services
- Operating & Contractual Services
- Debt Service
- Transfers & OFU

• Capital

Below is an image from New Albany's transparency website at <u>newalbanyohio.opengov.com</u> which helps visualize the historical budget vs. actual amounts within the General Fund broken down by the above categories.

(Click on the image above to be directed to the exact location of the specific chart presented within New Albany's transparency website.)

The permanent appropriation ordinance initially passed at the last Council meeting of the preceding fiscal year, sets the budget which determines the legal level of control. Amendments to authorized appropriations at the legal level of control may be made periodically as changing circumstances dictate. As in previous years, the 2024 Permanent Appropriation Ordinance authorizes the Director of Finance to make budget transfers of up to \$10,000 between appropriation line items, per quarter, within a department and fund. Such transfers will be reviewed by the City Manager on a quarterly basis. Any transfer request in excess of \$10,000, or any request to transfer between funds or departments, except as otherwise included in the legislation, is required to be approved by City Council ordinance. In addition, any increase or decrease in appropriation, regardless of the amount, is also required to be approved by City Council ordinance. Budget transfers or Supplemental appropriations requiring council approval are recommended to City Council by either the City Manager or the Director of Finance along with the rationale supporting the requests as needed.

City of New Albany 2024 Budget Calendar June 2023 • June 15 - Finance begins Midyear 2023 budget review July 2023 • July 5th - Adoption of 2024 Tax Budget August 1st – Midvear 2023 budget amendments adopted by Ordinance August 2023 August 10 – Finance completes initial projections for 2024 budget and distributes to departments along with capital equipment and IT request forms · Week of August 28th - Finance meets with departments for budget training and refresher on budget process and entry September 2023 September 11th – Capital Projects Workshop (held at Service dept conference room.) September 22nd - Departments return IT request forms to Administrative Services - IT Division for inclusion in IT budget • September 22nd - Departments return new position requests to Administrative Services (Human Resources) for review prior to turning into Finance for inclusion in the budget. September 29th – Departments complete budget entry and return Capital Equipment requests to Finance October 2023 October 16th-20th - City Manager/Department Head/Finance budget meetings October 23rd-27th - Continued City Manager/Department Head/Finance budget meetings and Capital Budget review with Admin/Service/Development/Finance November 2023 November 6th – Overall Budget review with City Manager/Finance Department November 7th – Draft budget to Council & 1" reading of Annual Appropriation Ordinance November 13th - Council Workshop - Operating Budget & Capital • November 21* - Regular Council meeting with secondary budget discussion December 2023 December 5th - 2nd Council budget hearing with adoption of 2024 Budget ordinance and 2023 final Appropriations and Transfers February 2024 TBD – Final Budget document including actual 2023 financial information distributed to Council and added to City website March - May 2024 • Various - Continued monitoring of the budget and amendments presented to Council as necessary Cycle starts back at the beginning for review of 2024 and preparation of 2025 budget.

NEWALBANY **Revenue Summary**

New Albany has limits on the resources that are needed to provide the services that enhance the quality of life of its residents. The limits are affected by a number of factors including: appropriate city and state laws; appropriate rates; demographics; and local and regional economic conditions. The proposed budget takes into consideration various potential impacts on tax revenue including the continued effect of work from home policies and related potential withholding refunds in addition to factors related to the local economy and is conservative in revenue projections as a result. However, the projections for income tax revenue also take into consideration the specific impact economic development within the New Albany Business Park, including Intel building a global chip manufacturing plant over the next few years. Consideration is also taken related to the impact to income tax from development in the business through construction withholding.

The following pages provide estimates of New Albany's major revenue sources. Actual data is presented for 2019 through 2022, while projections are provided for the years 2023-2027.

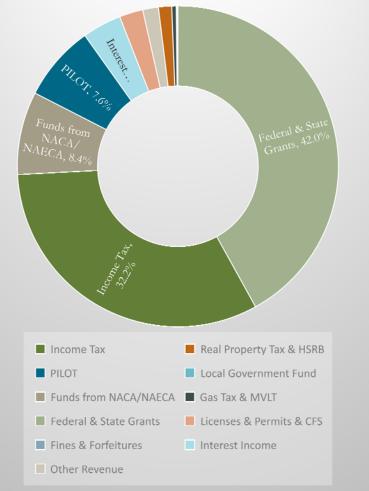

New Albany uses trend analysis to estimate various sources of revenue. Estimates for property tax and the Local Government Fund are provided by Franklin and Licking counties. New Albany's estimated revenues for 2024 are broken out into the following major categories:

• Income Tax

- Real Property Tax & HSRB
- Payments in Lieu of Taxes
- Funds from NACA/NAECA Gas Tax & MVLT
- Federal & State Grants
- Fines & Forfeitures
- Other Revenue

- Local Government Fund
- Licenses & Permits & CFS
- Interest Income

2024 Projected Consolidated Operating Revenues

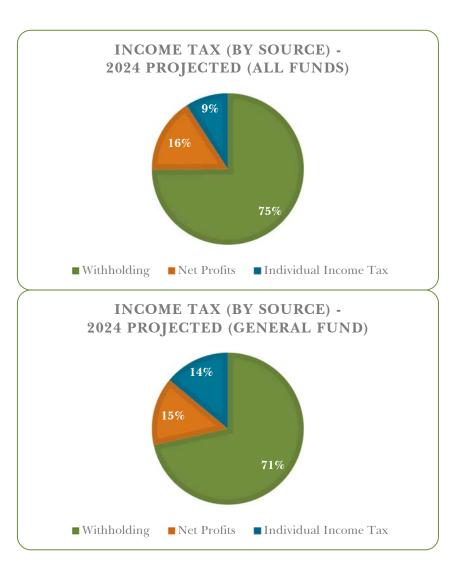

Income Tax

Residents voted in May 2003 to approve an increase in New Albany's income tax rate from 1.0% of taxable earnings with a 50% credit for local income taxes paid to neighboring jurisdictions, to 2.0% with 100% credit (up to 2%). On an individual level, the income tax applies to earned income and gambling/lottery winnings. Businesses are also subject to income tax on their net profits and withhold amounts for their employees.

The income tax is typically the largest revenue source for New Albany representing approximately 25.1% of overall revenue (37.2% exclusive of significant State Infrastructure grant funds) and 80.6% of the General Fund operating revenue. Based upon a percentage of earned income, the income tax is one source of revenue that traditionally increases each year, however, prior to this year, projected increases were not as significant as in the past due to the continued effect of COVID-19 on the economy, local businesses and individuals and the rising popularity of working remotely. Fortunately, due to significant announcements of companies building in the New Albany International Business Park and a strong local economy, projections for income tax increases through 2026. In 2027, it is projected that income tax related to construction withholding will decrease once the announced first phase of the Intel chip manufacturing site gains occupancy.

There are three components to the income tax: withholdings remitted by employers, filings by individual residents of New Albany, and the net profits of businesses located in or doing business in New Albany.

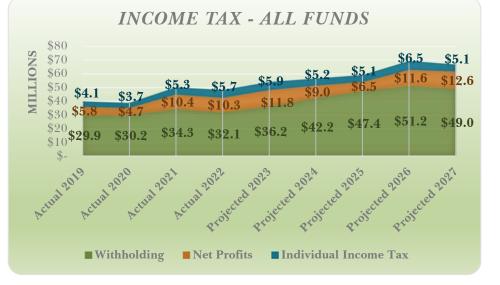

Since the income tax is a percentage of income, historically, the income tax increases as salaries increase. This trend reverses during economic downturns as contemplated within income tax projection calculations for 2024. Local businesses have the ability to carry forward a loss for up to 5 years which could threaten Net Profit collections should the economic downtown be realized. Fortunately, the continued diversification of the City's tax base within the business park, continued significant announcements of new investment and its related construction is expected to minimize the potential related negative impacts and result in a moderate increase for 2024 and beyond.

Amounts received in 2021 were unexpected and not consistent with previous years growth, and as such, was treated as an anomaly when preparing for 2022 and 2023. However, with 2023 remaining relatively consistent with those collections, 2024 projections place some confidence on 2021 revenue.

Previous increases in income tax receipts could be attributed to the improvement of general economic conditions for New Albany employers and residents in those years including the addition of jobs throughout the community as development of the New Albany International Business Park continues. Although, the immediate future of this revenue source is projected to remain steady, New Albany's proactive economic development program has continued to be successful in adding new jobs by attracting and securing new businesses and helping existing businesses expand, which helps to offset potential downturns in the coming years.

As mentioned previously, along with the potential effect of an economic downtown, these projections are also subject to Ohio municipal tax legislation, Amended Substitute HB5, and HB49, which allow for the net carry-forward of a loss for five years and the State collection of income tax from Net Profits. Beginning in 2021, the City has had record revenue in Net Profits tax and there is potential for large refunds or carry forward as businesses continue to file their tax returns each year. Projections for 2024 continue to take this into consideration. In addition, there is pending litigation regarding municipal income tax withheld during 2020 for those employees working from home located in a different jurisdiction than their normal place of work. The projections continue to include the impact of certain industries and companies shifting to allow for remote work permanently.

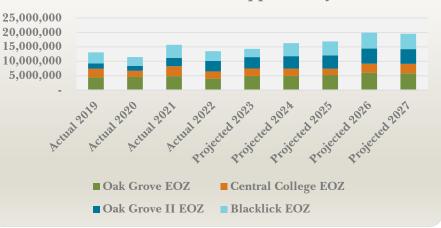

Rendering of planned Intel Chip Manufacturing site, 2022

Income tax receipts are deposited into various City funds. Currently, all individual income tax revenue is distributed 85% to the General Fund for operations, 12% to the Capital Improvement fund for investment in capital improvements and 3% to the Park Improvement fund for investment in park improvements.

The 2024 budget includes a proposed new Village Center Improvement fund and a new allocation reducing the General Fund portion to 83.5% and allocating 1.5% to the new fund. The budget has been prepared as if the new fund will be approved by council along with the proposed allocation. Withholding and net profits tax revenue are primarily attributable to companies established within the New Albany International Business Park. A significant portion of those revenues are subject to the revenue sharing agreements within each Economic Opportunity Zone due to the existence of property tax abatements put in place with Community Reinvestment Area (CRA) agreements and are included within the EOZ fund activity. See page 86 of the "Funds" section for a break down of the EOZs. New Albany's portion of the income tax revenue received in the EOZs is distributed the same as the individual income tax revenue and distributed directly to those funds.

Income Tax - Economic Opportunity Zones

Real Property Tax and Homestead & Rollback

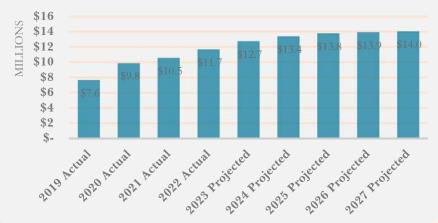

Property tax is growing at a modest pace primarily due to the growth that is happening within the city's Tax Increment Financing (TIF) Districts. Real Property Tax and related Homestead & Rollback reimbursements from the State of Ohio are recorded in the General Fund. New Albany receives real property tax from both Franklin County and Licking County. The full tax rate for New Albany is \$1.94 per \$1,000 of assessed value and \$1.70 per \$1,000 of assessed value for property in Franklin and Licking counties, respectively. Real property tax is collected in arrears, therefore 2024 receipts are for 2023 assessed values.

Payments in Lieu of Tax (PILOT)

New Albany, pursuant to the Ohio Revised Code and city ordinances, has established various Tax Increment Financing Districts (TIFs). A TIF represents a geographic area wherein increased property values created by virtue of economic development after the commencement date of the TIF are exempt, in whole or in part, from property taxes. Owners of such property, however, must pay amounts equal to the property taxes, known as a "payment in lieu of taxes" or PILOTS, as though the TIF had not been established. These PILOTS are then dedicated to the payment of various public improvements within or adjacent to the TIF area. Property values existing before the commencement date of a TIF continue to be subjected to property taxes. TIFs have a longevity of the shorter period of 30 years or until the public improvements are paid for. The property tax exemption then ceases; payments in lieu of taxes cease, and property taxes then apply to the increased property values. For more information on the individual TIF funds that the City has established, see pages 99-100 and 116-117 in the "Funds" section.

PILOT revenue has been increasing steadily since 2019 as development continues in New Albany and as the earlier Community Reinvestment Area (CRA) and TIF agreements expire. For 2024, the City is projected to receive approximately \$13.4 million in PILOT revenue in comparison to just \$7.6 million in 2019. This increase can be attributed to a portion of Abercrombie's abatement expiring and the receipt of revenue within TIF areas where development in previous years have been assessed.

Gas Tax and Motor Vehicle License Fees

The gas tax and motor vehicle license fees are based on the number of vehicles registered in New Albany. State law has levied a tax of \$0.385 per gallon of gas and \$0.47 per gallon of diesel, effective July 1, 2019, which had increased from \$0.28 for both gas and diesel in previous years. New Albany receives its allocated distribution on a monthly basis.

Motor vehicle license fees are allocated to New Albany on a different basis. For each passenger vehicle registered in the city, the State levies a fee of \$20.00, of which \$6.80 is remitted to New Albany and the remainder is retained by the State. Franklin County and New Albany have levied an additional \$20.00. Of this, New Albany receives \$15.00 directly and the remaining \$5.00 is collected and retained by the County on behalf of the city to be used for improvements on certain city streets. New Albany applies to the County for this money when a project using the funding is identified. During 2022, an amount of \$49,378 was collected and added to the 2021 balance on hand of the \$5.00 portion of these fees of \$475,430. In 2022, the City requested and received a \$500,000 distribution from the fund maintained by Franklin County which was utilized as part of the local contribution of funds for the US 62 & State Route 161 project. The remaining balance at Franklin County as of December 31, 2022 was \$24,808.

All gasoline tax and motor vehicle license fees received by the County are required to be deposited in the Street Construction Maintenance and Repair Fund (92.5%) and State Highway Fund (7.5%). Motor vehicle license fees received from the State are deposited in the Permissive Tax Fund. The projected receipts for 2024 are \$791,000 which represents a moderate increase from 2023 and 2024 collections.

Funds from New Albany Community Authority (NACA) and New Albany East Community Authority (NAECA)

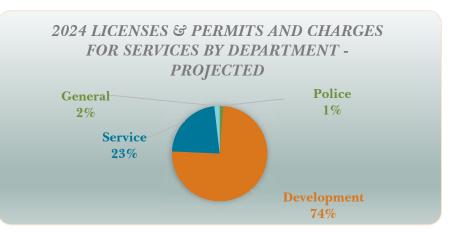

As part of the Economic Opportunity Zone agreements, New Albany distributes a portion of the income taxes received in the Central College (30%), Oak Grove (30%) and Blacklick (50%) EOZs to the New Albany Community Authority (NACA) Economic Development fund to pay for the redemption of debt issued for infrastructure built in the business park. As such, these monies distributed to the NACA Economic Development fund may also be requested by New Albany to be used for the purposes of additional development within the business park. In 2024, New Albany plans to request funding related to economic development related professional services, the annual debt payment, funding for the 2023 tax incentive program and various capital projects within the business park. In addition, within the portion of the business park located in Licking County, the New Albany East Community Authority (NAECA) assesses a development charge of 9.75 mils on commercial development. This charge is dedicated to use by New Albany for improvement projects within the City. Currently, the charge is drawn each year to pay Ohio Water Development Authority loans related to business park infrastructure improvements. In 2024, upon approval of the final Rose Run II plans, the City plans to draw down funds from NAECA, who will be issuing debt on the City's behalf. The repayment will come from the 9.75 charge paid directly by NAECA. This revenue line item varies from year to year based on development needs.

Local Government Fund

This is the State's revenue sharing program, whereby local units of government share a portion of total state General Revenue Fund tax revenues, based on an alternative formula adopted by Franklin and Licking counties. Effective July 1, 2011, the State reduced the amount of income shared with local governments by 25%. This amount was further reduced by an additional 25% effective July 2012. Since the reductions in 2011 and 2012, the level of funding continued to decrease through 2018. Beginning in 2019, funds have steadily increased and is estimated at \$135,000 for 2024. Revenues in 2021 and 2022 came in higher than anticipated at \$135,544 and \$117,364, respectively, and 2023 is estimated to end with approximately \$135,000 collected. The 2024 budget maintains this level as the projected revenue. No Local Government Funds are received from Licking County.

Federal & State Grants

New Albany has a history of utilizing grants, primarily State grants, for capital projects and special programs. For 2023 and 2024, known awards of grants are from the Ohio Public Works Commission in the amounts of approximately \$700,000 for the US 62-SR 161 Gateway project and \$250,000 for the Market Street Extension project. In addition, a \$2,000,000 Federal Safety grant has been approved to fund a portion of the Market Street Extension project. Additionally, the State awarded \$105,100,000 in State Infrastructure grant money in relation to the Intel project in 2022 and another \$174,900,000 in 2023. Other State grants are estimated and include \$20,000 for the DARE program and \$10,000 for the DUI Grant.

Licenses and Permits and Charges for Services (CFS)

License Fees, Permit Charges, and various charges for services are collected by the City. The Community Development department charges annual fees to contractors for contractor registration, permit and inspection charges for construction, plan review and other various fees. The Community Development department also collects various fees on behalf of the Public Service department such as water and sewer tap/extension fees and right of way fees. Police collect fees for fingerprinting and also registration for the Safety Town Program. Other miscellaneous fees are included with general administration. Pictured is the estimated related revenue by department for 2024.

Fines & Forfeitures

Fines & Forfeitures are received through the City's Mayor's Court. The amounts received in each of these funds is restricted to operate the Mayor's Court and the special purposes for which each fund was established. This revenue will vary based on the activity within Mayor's Court and cases heard.

Interest Income

Interest income is a function of the cash available for investments and the market interest rates. The City invests its monies in accordance with Chapter 157 of the Codified Ordinance, and this policy is fairly conservative. The majority of the portfolio is invested in government securities, certificates of deposits, and federal agency debt securities. The average weighted yield for the City's main custody account, as of September 30, 2023, was approximately 3.00% which is an increase of approximately 1.6% from the same month in 2022. The increase is, in part, a result of several Federal rate increases during 2022 & 2023 to attempt to decrease inflation. Short-term monies are invested in STAR Ohio, the State Treasurer's repository, which was yielding approximately 5.56% at the end of September 2023, and is a significant increase of approximately 2.61% from the same month in 2022. The investments of New Albany are secure with 100% of portfolio funds invested in U.S. Federal Agency obligations, US Treasuries, US Fixed Income, Municipal Bonds, Commercial Paper and Certificates of Deposits. None of the agency issues are asset-backed, but instead are debt-backed securities. The portfolio's average maturity is approximately 1.22 years and is balanced between callable and non-callable securities. New Albany's investment strategy is to hold these securities to maturity.

Interest income has increased significantly through 2023 and is projected to continue in 2024 due to several Federal rate increases and increased cash balances. Interest rates have started to level off going into 2024 as the Federal rate increases have slowed. New Albany has implemented investment strategies to help ensure that a steady stream of investment earnings will continue. Interest income is expected to increase in 2024, however, as cash balances decrease with payment of projects, 2025 through 2027 projects contemplate a decrease.

Other Revenue Items

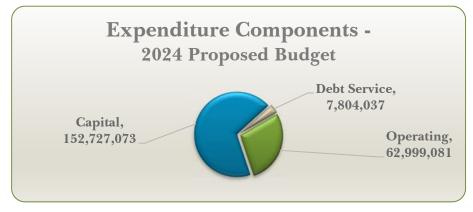

The major sources of other revenues include hotel excise tax, reimbursements, franchise fees, cell tower leases, property rental, sale of assets and other miscellaneous revenue. The majority of the components that make up this line have remained relatively consistent for several years. In 2024, and future years, components of the Other Revenues category such as cable franchise fees and law enforcement seizure revenue are forecasted to remain more consistent, while hotel tax is expected to continue recovering from substantial decreases in 2020 and 2021 due to low occupancy during the pandemic.

Safety Town, August 2023

Expenditure Summary

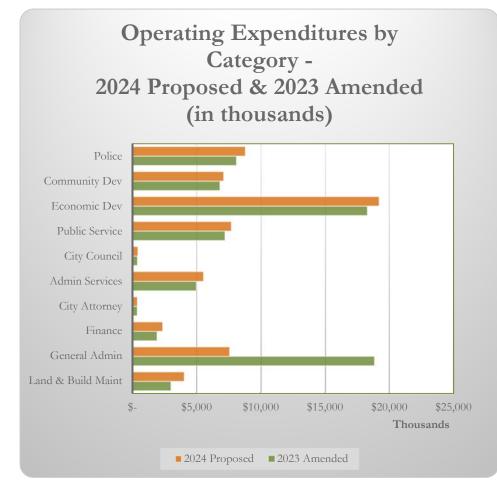

The expenditures in the consolidated presentation are categorized and presented into three separate components: operating expenditures, capital investments, and debt service. The 2024 operating expenditures include funding for all departments and divisions, and the cost of providing daily services to New Albany. The operations of \$63.0 million make up approximately 28.2% of the annual outlay of funds. The proposed \$152.7 million or 68.3% capital component includes the purchase of equipment and significant capital improvements, including the South Harlem Road Improvements, Rose Run II, Historic Village Center Road Network Extension, and continued investments in Business Park infrastructure as a result of grant funding contributing to infrastructure improvements necessary as it relates to Intel's announcement to invest in New Albany. The \$7.8 million in debt payments include annual principal and interest payments. This consolidated presentation combines all expenditures in the budget.

The 2024 consolidated operating budget of \$63.0 million is an 7.14% decrease from 2023 amended expenses totaling \$58.8 million (exclusive of \$11.0 million reimbursement of grant funds to the ARPA fund for prior year expenditures). The increase can primarily be attributable to a cost of living increase to employees equaling 3.0% for C.O. 155 employees and the implementation of a classification and compensation study completed in 2023; continued services (staff and contracts) directly related to Intel; and, professional service contracts related to future infrastructure planning in the business park.

New Albany provides services that enhance the quality of life of its residents. The activities of New Albany are classified in the Consolidated Presentation as follows:

- Police Patrol, Communications, Administration, and Safety Town;
- **Community Development** Planning & Development, Building & Zoning, and Engineering;
- **Public Service** Public service including street maintenance; water, sewer line maintenance; fleet management and other services;
- **City Council** Elected and appointed positions of City Council and the City Clerk;
- Administrative Services City Manager, Mayor's Court, Information Technology, and Public Information
- City Attorney Legal Services;
- Finance Finance Department and certain tax collection and distribution costs;
- **General Administration** Expenses such as postage, and liability insurance, City-wide training, real estate tax payments and property tax collection fees; and,
- Land & Building Maintenance All land and buildings owned by the City.

In the Department section of the budget, actual operating expenditures are summarized by category for years 2019 through 2022 and are presented for historical purposes to compare with the amended budget amounts for 2023 and proposed amounts for 2024. In the appendix, a schedule showing the grand total of all departments operating expenditures, by line item, is provided.

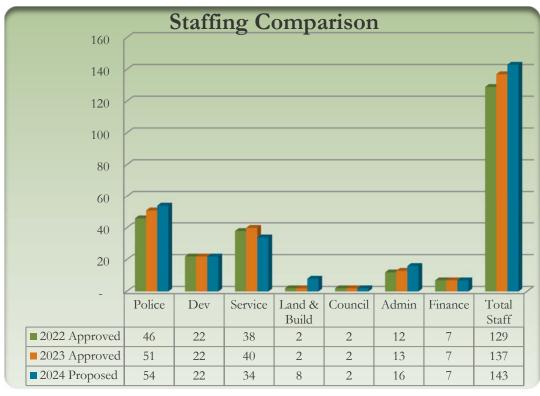

Also included in the appendix, is a schedule restating the same line item expenditure information in the form of percentages. This information is also broken down by department for 2024 in the same form.

The City uses four main categories for budgeting. They are personal services, operating and contractual services (supplies and non-personal services and contracts), capital outlay, and debt service.

Personal Services

The personal services category consists of salaries and wages, pension expense, fringe benefits, and professional development. On a percentage basis, personal services account for approximately 47% of the total operating expenditures. This percentage of personal services as to overall expenditures has primarily stayed constant over recent years. Even with the addition of several positions in years past and net of six positions proposed in 2024 combined with filling vacant positions from 2023, the 2024 budget is projected to keep the percentage within the 44-48% range that is consistent with prior years.

The 2024 proposed budget includes a total of 143 full time positions (not including seven Council members), up from 137 in 2023. This is an increase of 6 positions. The added positions include two Dispatchers, a Police Clerk, an Administrative Services Clerk, a Program Specialist, and two Maintenance Workers.

There is one organized labor union within the city representing New Albany's police officers (FOP). This accounts for approximately 19% of the City's full-time employees (not including Council). Contractual wage increases are not included in the budget proposed as negotiations for contract years 2024-2026 are not finalized, however, the budget includes an increase related to House Bill 296 which proposes an increase in pension from an employer contribution of 19.5% to 24% over four years.

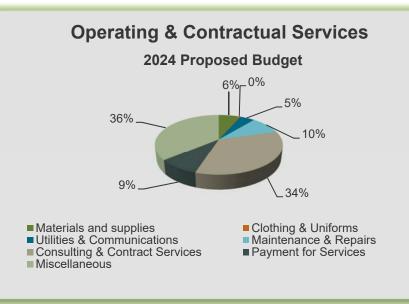

New Albany's Administrative Code provides for merit increases for non-union personnel based upon the individual's job performance. In addition, the 2024 budget provides for a proposed cost of living increase of 3.0%.

Employees of New Albany belong to one of two public retirement systems. Police officers belong to the Ohio Police and Fire Pension Fund (OPFPF). The city contributes the required 19.5% of their annual salary to the retirement system as mentioned above. The 2024 budget accounts for an increase to 21% according to the proposed HB 296. The remainder of the employees, including parttime and seasonal employees, belongs to the Ohio Public Employee Retirement System (OPERS). The employer contribution rate to OPERS is 14%.

The fringe benefit category consists of health, dental, life insurance, Medicare, and worker's compensation insurance. The majority of the City's fringe benefits cost consists of health care coverage. The is no planned increase in health premiums for the 2024 budget year.

Operating and Contractual Services

The operating and contractual services category consists of costs for supplies and services. This category includes the procurement of materials and supplies, uniforms, rents and leases, maintenance, professional services, consulting and community support. Utility costs and building maintenance are examples of large annual expenses, as well as legal consulting, engineering costs, and street salt. For 2024, the Consulting & Contractual Services category makes up approximately 34% of the operating budget.

In the proposed 2024 budget, most line items were maintained at current expenditure levels and no standard increases were included with the exception of certain materials and supplies and service contracts. However, the 2024 proposed operating budget includes amounts to continue the implementation of certain infrastructure maintenance and building maintenance programs, along with increases in professional services as it relates to planned projects and initiatives. In addition, income tax revenue sharing is included in this classification which increases in conjunction with any increase in income tax revenue. Additionally, the increase for the 2024 adopted budget can primarily be attributed to increased professional services related to infrastructure planning and economic development continuing through 2024 and a cost of living adjustment for employees equal to a 3.0% for non-union and 0.0% for union, along with the additional approved staff.

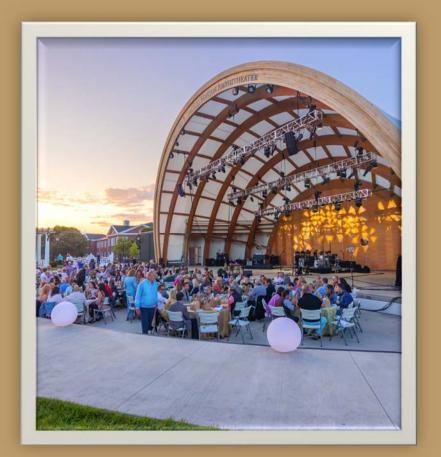

New Albany categorizes operating and contractual services by specific department, except for those items that cannot easily be allocated to a particular department. Expenditures not easily allocated are items such as special studies, consulting fees, records storage, City dues and memberships, property tax payments, fuel, and other charges. These expenses are budgeted in the department entitled General Administration.

Capital Outlay

Investment in capital is separate from the operating budget. The capital program for equipment and improvements can be found in the capital section of this Annual Budget Program.

Debt Services

Debt service is separate from the operating budget. Information on the City's outstanding debt and debt schedules can be found in the debt section of this Annual Budget Program.

Fund Summaries – Operations – General

These funds are those whose resources are unrestricted to use and are used to fund the City's basic operations.

General Fund:

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Severance Liability Fund:

The Severance Liability fund accounts for the accumulation of resources that are committed for accumulated sick leave and vacation leave, upon the termination of employment of employees in the City.

Fund Summaries – Operations – Restricted

These funds are those whose resources are derived from specific taxes, grants, or other restricted or committed resources. The use and limitation of these funds are specified by City ordinance or federal or State statutes.

Street Construction, Maintenance and Repair Fund:

The Street Construction, Maintenance and Repair fund is required by the Ohio Revised Code to account for the portion of the State gasoline and motor vehicle registration fees. Permitted services are related to the maintenance and reconstruction of the City's streets, streetlights, and traffic signals.

State Highway Fund:

The State Highway fund is required by the Ohio Revised Code to account for the portion of the State gasoline and motor vehicle registration fees that are restricted for the maintenance, construction and repair of State highways within the City.

Permissive Tax Fund:

The Permissive Tax fund accounts for revenues generated from permissive motor vehicle license taxes that are restricted for transportation programs.

Alcohol Education:

The Alcohol Education fund accounts for revenues generated from fines that are restricted for alcohol related educational programs in accordance with the Ohio Revised Code Section 4511.19(G)(5)(a).

Drug Use Prevention Program Grant Fund:

The Drug Use Prevention Program Grant fund accounts for grant monies received from the State of Ohio which is restricted to be used on preventing drug use in the City.

Mandatory Drug Fines Fund:

The Mandatory Drug Fines fund accounts for proceeds from drug-related offense fines imposed by the courts overseeing offenses committed in the City of New Albany. Funds received are restricted to paying costs of complex cases, training, special equipment purchase, or other such costs in accordance with Ohio Revised Code Section 2925.03.

Law Enforcement & Education Fund:

The Law Enforcement & Education fund accounts for the grant monies received from DUI arrests that are restricted for enforcement and education and for DUI housing reimbursements pursuant to Ohio Revised Code Section 4511.191.

OneOhio Opioid Settlement Fund:

The OneOhio Opioid Settlement fund accounts for settlement monies received from the State of Ohio's settlement agreement with opioids distributors that are restricted for approved purposes within the OneOhio MOU such as programming to address and implement efforts to lessen the impact of and reduce opioid addiction.

Safety Town Fund:

The Safety Town fund accounts for revenues generated from charges for services and donations collected for expenses that are restricted for the Safety Town traffic safety program for children.

DUI Grant Fund:

The DUI Grant fund accounts for the State grant monies received relating to DUI arrests that are restricted for safety programs.

Law Enforcement Assistance Fund:

The Law Enforcement Assistance fund accounts for a State grant to assist police officers in the City that are restricted for safety programs.

K-9 Patrol Fund:

The K-9 Patrol fund accounts for the revenues and expenditures collected and disbursed that are restricted for the formation of the K-9 patrol unit for the police department.

Economic Development (NACA) Fund:

The Economic Development fund accounts for financial resources received from the New Albany Community Authority (NACA) that are restricted for debt service payments and miscellaneous economic development projects throughout the City.

Economic Development (NAECA) Fund:

The Economic Development fund accounts for financial resources received from the New Albany East Community Authority (NAECA) that are restricted for debt service payments and miscellaneous projects throughout the City.

Local Coronavirus Relief Fund:

The Local Coronavirus Relief fund accounts for federal Coronavirus, Aid, Relief, and Economic Security (CARES) Act funds distributed by Franklin County to account for expenses incurred related to the global pandemic related to COVID-19.

Local Fiscal Recovery Fund:

The Local Fiscal Recovery fund accounts for the Federal American Rescue Plan Act (ARPA) funds distributed by the State of Ohio to stimulate the economy in effort to allow for recovery from the global pandemic related to COVID-19.

Hotel Excise Tax Fund:

The Hotel Excise Tax fund accounts for 25% of the "bed tax" received and disbursed in accordance with the Ohio Revised Code.

Healthy New Albany Facilities Fund:

The Healthy New Albany Facilities fund accounts for the revenues that are committed for the upkeep of the Philip Heit Center for Healthy New Albany.

Hinson Amphitheater Fund:

The Hinson Amphitheater fund accounts for the revenues that are committed for the operations of the Charles and Charleen Hinson Amphitheater.

Alcohol Indigent Fund:

The Alcohol Indigent fund accounts for revenues generated from fines imposed by the Mayor's Court for DUI arrests that are restricted for DUI enforcement training for police officers and other traffic safety programs in accordance with the Ohio Revised Code.

Mayor's Court Computer Fund:

The Mayor's Court Computer fund is authorized by the State of Ohio (Ohio Revised Code 1901.26) and enacted by the City. A fee of \$5.00 is collected on each case in Mayor's Court to be used to pay the cost of computerization, and the ongoing updates associated with computerization.

Court Special Projects Fund:

The Court Special Projects fund is authorized by the State of Ohio (Ohio Revised Code 1901.26) and enacted by the City. A fee of \$8.00 is collected on each case in Mayor's Court to be used to pay for special projects of the court.

Clerk's Office Computer Fund:

The Clerk's Office Computer fund is authorized by the State of Ohio (Ohio Revised Code 1901.261) and enacted by the City. A fee of \$5.00 is collected on each case in Mayor's Court to be used to pay the cost of computerization in the office of the clerk of court, and the ongoing updates associated with computerization.

Subdivision Development Fund:

The Subdivision Development fund accounts for the revenues that are collected for private development inspections that are passed through to an engineering services firm.

Builder's Escrow Fund:

The Builder's Escrow fund accounts for revenues that are held in escrow related to private development and are restricted for community development purposes.

Community Reinvestment Areas & Economic Opportunity Zones

NEW ALBANY

Fund Summaries – Operations – Economic Opportunity Zone

The Economic Opportunity Zone Income Tax (EOZ) funds account for the income taxes collected in each zone and restricted for and pledged to the New Albany Community Authority (NACA), the New Albany-Plain Local School District (NAPLSD), the Licking Heights Local School District (LHLSD), the Johnstown-Monroe School District (JMSD) and the City of Columbus for public infrastructure improvements.

Oak Grove EOZ Fund:

The Oak Grove EOZ fund accounts for net profits income tax and withholdings from entities within the Oak Grove (I) Zone. Funds received in this zone are distributed as follows with slight variations dependent upon the revenue sharing agreements in place: New Albany general distribution (35%); NACA (30%); and NAPLSD/LHLSD (35%).

Central College EOZ Fund:

The Central College EOZ fund accounts for net profits income tax and withholdings from entities within the Central College Zone. Funds received in this zone are distributed as follows with slight variations dependent upon the revenue sharing agreements in place : New Albany general distribution (35%); NACA (30%); and NAPLSD (35%).

Oak Grove II EOZ Fund:

The Oak Grove II EOZ fund accounts for net profits income tax and withholdings from entities within the Oak Grove II Zone which is divided into two areas Economic Development Agreements adopted in 2001 and 2012. Per the 2001 agreement, funds are distributed as follows: New Albany general distribution (27.5%); Infrastructure fund (30%); Columbus (15%); and LHLSD/JMSD (27.5%). Per the 2012 agreement, funds are distributed as follows: New Albany general distribution (22%) Infrastructure fund (30%); Columbus (26%); and LHLSD/JMSD (22%).

Blacklick EOZ Fund:

The Blacklick EOZ fund accounts for net profits income tax and withholdings from entities within the Blacklick Zone. Funds received in this zone are distributed as follows: New Albany general distribution (25%); NACA (50%); and NAPLSD (25%).

NEW ALBANY

Fund Summaries – Capital & Development – Capital Improvement

Capital Improvement funds are used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The Capital Improvement funds below are the primary source of funds for general capital improvements in New Albany.

Capital Improvement Fund:

The Capital Improvement fund receives 12% of the general municipal income tax levied by the City. These revenues are committed for various capital improvement expenditures within the City.

Village Center Improvement Fund:

The Village Center Improvement fund receives 1.5% of the general municipal income tax levied by the City. These revenues are committed for the improvement of the City's Village Center.

Park Improvement Fund:

The Park Improvement Fund receives 3% of the general municipal income tax levied by the City. This fund also receives \$150 for each new home building permit. These revenues are committed for the improvement of the City's parks and recreation areas.

Water & Sanitary Sewer Improvement Fund:

The Water & Sanitary Sewer Improvement fund receives water and sewer tap fees. These funds are committed to the improvement, extension, maintenance, repair, equipment and appurtenances necessary to affect such repairs and maintenance to the City's water and sanitary sewer systems, as well as the repayment of related debt.

Leisure Trail Improvement Fund:

The Leisure Trail Improvement fund receives \$350 for each new home building permit for the improvement of leisure trails within the City.

Infrastructure Replacement Fund:

The Infrastructure Replacement fund accounts for the accumulation of funds to repair and replace infrastructure as needed.

NEW ALBANY

Fund Summaries – Capital & Development – Tax Increment Financing (TIF) - Residential

The TIF – Residential funds account for the Payments In Lieu of Taxes (PILOT) payments collected in each residential TIF district. These payments, after revenue sharing, are primarily utilized to fund debt payments for related capital improvements. These TIFs are "non-school" and "non-fire". Therefore, the funds also account for the sharing of revenue with Plain Township in the amount it would have received for fire and EMS services per the agreements in place. Payments to the school districts for "non-school" TIF districts are made directly to the schools and are not accounted for in these funds.

Windsor TIF Fund:

The Windsor TIF fund was established with Ordinance 34-2004 to account for PILOT payments in the Windsor, Landsdowne, Souder East, and the West Nine TIF Districts. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Wentworth Crossing TIF Fund:

The Wentworth Crossing TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Hawksmoor TIF Fund:

The Hawksmoor TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Enclave TIF Fund:

The Enclave TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Saunton TIF Fund:

The Saunton TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Richmond Square TIF Fund:

The Richmond Square TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

NEWALBANY

Tidewater I TIF Fund:

The Tidewater I TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Ealy Crossing TIF Fund:

The Ealy Crossing I TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Upper Clarenton TIF Fund:

The Upper Clarenton TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Balfour Green TIF Fund:

The Balfour Green TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Straits Farm TIF Fund:

The Straits Farm TIF fund was established with Ordinance 31-2013 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Oxford TIF Fund:

The Oxford TIF fund was established with Ordinance 17-2014 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Schleppi Residential TIF Fund:

The Schleppi Residential TIF fund was established with Ordinance 14-2017 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement.

Fund Summaries – Capital & Development – Tax Increment Financing (TIF) - Commercial

The TIF – Commercial funds account for the Payments In Lieu of Taxes (PILOT) payments collected in each commercial and mixed-used TIF district. These payments, after revenue sharing, are primarily utilized to fund debt payments for related capital improvements and capital improvements.

Blacklick TIF Fund:

The Blacklick TIF fund was established with Ordinance 10-1999 and amended by Ordinance 27-1999 and by Ordinance 16-2018 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and begins for all parcels in the district the year of the first improvement. This TIF is considered to be "Non-School" and "Non-Fire", meaning the school district and township fire and EMS are made whole.

Blacklick II TIF Fund:

The Blacklick II TIF fund was established with Ordinance 20-2006 to account for PILOT payments in the TIF district. The term of the TIF is 30 years. This TIF is considered to be "Non-School" and "Non-Fire", meaning the school district and township fire and EMS are made whole.

Village Center TIF Fund:

The Village Center TIF fund was established with Ordinance 08-1998 and superseded by Ordinance 32-2013 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and is on a parcel by parcel basis. The Village Center TIF is a "school" TIF; therefore, there is a separate agreement that addresses the manner in which revenue is shared during the life of the TIF.

Research & Technology District TIF Fund:

The Research & Technology District TIF fund was established with Ordinance 19-2012 to account for PILOT payments in the TIF district. The term of the TIF is 30 years. This TIF is considered to be "Non-School" and "Non-Fire", meaning the school district and township fire and EMS are made whole.

Oak Grove II TIF Fund:

The Oak Grove II TIF fund was established with Ordinance 04-2009 and 24-2010 to account for PILOT payments in the TIF district. The term of the TIF is 30 years. The Oak Grove II TIF fund is a "nonschool" TIF; meaning the school districts are made whole. In addition, revenue is shared with the township primarily for fire and EMS, according to various separate agreements entered into as land is annexed to New Albany and added to the TIF area.

Village Center II TIF Fund:

The Village Center II TIF fund was established with Ordinance 32-2013 to account for PILOT payments in the TIF district. The term of the TIF is 30 years. This TIF is considered to be "Non-School" and "Non-Fire", meaning the school district and township fire and EMS are made whole.

Schleppi Commercial TIF Fund:

The Schleppi Residential TIF fund was established with Ordinance 12-2017 to account for PILOT payments in the TIF district. The term of the TIF is 30 years and is on a parcel by parcel basis. This TIF is considered to be "Non-School" and "Non-Fire", meaning the school district and township fire and EMS are made whole.

Fund Summaries – Capital & Development – Other Capital & Related

Other Capital and Related funds are those that account for Debt Service, Capital Equipment Replacement, Grants and Capital Improvements related to Development.

Debt Service Fund:

The Debt Service fund accounts for the repayment of debt of the City.

Bond Improvement Fund:

The Bond Improvement Fund accounts for revenues from bond issuances that are restricted for various capital improvement expenditures within the City, including the construction of various facilities and infrastructure improvements.

Capital Equipment Replacement Fund:

The Capital Equipment Replacement fund accounts for transfers and other revenues designated for the purpose of acquiring and replacing capital equipment.

Oak Grove II Infrastructure Fund:

The Oak Grove II Infrastructure fund receives 30% of the municipal income tax levied by the City within the Oak Grove II EOZ. These revenues are committed for infrastructure projects located within the New Albany International Business Park.

Economic Development Capital Fund:

The Economic Development Capital fund accounts for financial resources received from the New Albany Community Authority (NACA) that are restricted for miscellaneous capital projects throughout the City along with various grant funding.

Ohio Public Works Commission Grants (OPWC) Funds:

The OPWC funds account for capital projects funded through OPWC loans and grants. The Greensward Roundabout Fund is the only active fund through 2018. Previous OPWC Projects included the Beech Road Widening, High Street, Main Street, US62/Central College, Smiths Mill/CC, and 62/605 Improvements projects. Future OPWC projects will be accounted for in the Capital Improvement fund and tracked through project accounting. This fund is no longer presented in the summaries.

City Council is the legislative branch of government consisting of seven members, one of whom is the mayor. This council has been granted powers by the Ohio Constitution, state laws and City Charter, including the power to:

- Adopt ordinances and resolutions,
- Create and/or abolish departments, commissions, boards and committees,
- Audit accounts and records,
- Conduct inquiries and investigations,
- Levy taxes,
- Enforce laws and regulations,
- Adopt a budget and appropriate funds,
- Adopt building and zoning regulations,
- Hire a city manager.

Rationale:

Salaries & Wages and Pensions - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees, the mayor and members of council and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023.

Professional Development - The 2023 budget included additional certification and training for newly established Deputy Clerk of Council which is not necessary in 2024, resulting in a decrease overall.

Payment for Services & Miscellanous - The combined \$6,000 or 25% increase in 2024 includes increased miscellaneous costs including annexation fees, Secretary of State fees, supplies for workshops and parades, etc., along with a small discretionary budget.

This page is intentionally left blank.

New Albany is one of Ohio's safest communities and a key reason is the strong interaction between our officers, residents and businesses. Whether performing vacation house checks, offering women's selfdefense classes, working with businesses, patrolling neighborhoods, conducting bicycle safety programs for children or maintaining a presence on the school learning campus throughout the academic year, our officers understand that strong relationships set the foundation for a safer community. The department has recently undertaken proactive initiatives such as becoming nationally accredited, conducting human trafficking operations and using bait vehicles to apprehend criminals to promote, preserve and maintain a feeling of safety and security for all citizens and visitors.

KEY FUNCTIONS

- Patrol
- Criminal investigations
- Community education and outreach programs
- 9-1-1/Dispatch

Police

Pictured above from left to right: Mayor Sloan Spalding, City of New Albany Police Sergeant Garrett Fernander, City of New Albany Police Officer Nate Ferguson, City of New Albany Police Officer Joe Rehnert and City of New Albany Chief of Police Greg Jones at their Commendation March 21, 2023.

Organizational Goals & Goal Driven Strategies:

The Police Department has adopted the following core values which contribute to the City's overall organizational goals: *Professionalism, Integrity, Respect* and *Compassion*.

Workplace Culture that Promotes Professional and Personal Growth and Development (Supports City Organization Goal #5):

New Albany values and invests in Police Department personnel through an emphasis on training, support, and wellness opportunities.

Collaboration with Community Partners (Supports City Organization Goal #2):

New Albany's Police department commits three full-time School Resource Officers (SROs) to the New Albany – Plain Local Schools learning campus. The SROs provide public safety services to the school, but most importantly creates positive experiences with law enforcement to students. The SROs engage 5th and 7th graders with the DARE program, provide teachers and staff with active shooter training and educate high school students of the dangers of driving while intoxicated using a driving simulator.

Community Programming & Excellent Services (Supports City Organization Goal #4):

New Albany's Police engages with the community it serves to protect life and property and provides excellent services to citizens and visitors. The police force builds strong relationships by offering innovative programming such as women's self-defense classes, a prescription drug drop box, vacation house checks, bicycle training programs, the citizen police academy, and Safety Town. Community survey results have consistently confirmed an extremely high satisfaction rate (>90%) of residents with police protection provided by the department.

Police Department

2023 Accomplishments:

- National Re-accreditation
- Joined Internet Crimes Against Children (ICAC) Task Force
 - 17 Felony Cases
- Human Trafficking Arrests
 - 17 arrests
- Community Outreach
 - Citizen Police
 Academy
 - Bike/Helmet/ice
 cream coupons
 - Cops & Bobbers
 - Safety Town

Looking Forward:

- Recruitment/diversification
- Training
- Onboarding new staff
- Emergency Preparedness

QUICK FACTS:

				2023 YTD
	<u>2020</u>	<u>2021</u>	<u>2022</u>	(as of 9/30)
Calls	4,489	3,522	3,730	2,914
Incident Reports	1,189	1,294	1,426	1,324
Accident Reports	190	242	279	190
Citations Issued	985	1,138	1,639	1,216

Arrests (Misd.)	181	201	221	187
Arrests (Felony)	64	59	60	42

Performance Measures - Police Department

1. Programming – Educational & Preventative (Goal #2 & #4)

The Police Department continues to offer valuable programming and training for residents and students. Below is a table detailing participation from 2020-2022.

	<u>2020</u>	<u>2021</u>	<u>2022</u>	2023 YTD (as of 9/30)
DARE Participants	646	526	400	395
Safety Town Registrants	0**	458	402	0
School Resource Officers	2	2	3	3
ALICE Training Staff Participants	398	600	9*	8/700
Driving Simulator Deployment for Training	70	100+	150+	150+
RAD (Rape Aggression Defense) Classes/Participants	1/19	4/31	2/16	3/37
Citizens Police Academy Participants	0**	0**	25	25
	* # of courses **due to COV	s/ deployments /ID	(participants	unavailable)

2. Service & Assistance (Goal #4)

	<u>2020</u>	<u>2021</u>	<u>2022</u>	<u>2023 YTD</u> (as of 9/30)
Drug Drop Box Meds Collected	86.2 lbs	92.6 lbs	85.6 lbs	169
Vacation House	00.2105	92.0105	83.0105	109
Checks	2,465	1,588	1,437	1,716
Motor Vehicle Assists	66	63	66	42

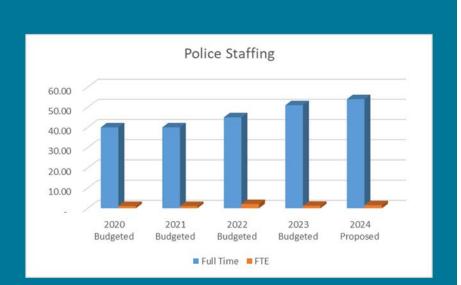

3. K9 Amigo Deployment (Goal #4)

The City's K9 and his handler are regularly deployed by the New Albany Police department when detection assistance is needed. The team also assists other local agencies when available. In Ohio, K9 teams must be certified annually by an Ohio Peace Officer Commission examiner. K9 Amigo is a "special purpose" K9 officer and completes the Special Purpose K9 certification test annually. He is trained in narcotics detection, tracking and article searches – skills he utilizes in various types of deployments. The team not only helps to keep narcotics or other dangerous items out of the community, it also helps to locate missing children or other individuals.

Further evaluation and review of the Police Department's demonstrated alignment with the overall Organizational Goals of New Albany, in addition to the evaluation of key performance indicators to be included within this document is in process and will be updated and included in the adopted 2024 Annual Budget Program.

	2020	2021	2022	2023	2024
	Budgeted	Budgeted	Budgeted	Budgeted	Proposed
Full Time	40.00	40.00	45.00	51.00	54.00
FTE	1.09	1.09	2.08	1.23	1.49
Total	41.09	41.09	47.08	52.23	55.49

Notes:

- Police Officer includes 20 patrol and 6 specialty officers (DARE, SRO (2), CALEA, and Detectives (2))
- 2 New Dispatchers proposed
- 1 New Records Clerk proposed
- FTE includes Safety Town

Rationale:

Salaries & Wages and Pensions - 2024 includes a 0.00% cost of living adjustment ("COLA") for the FOP, as negotiations are currently in progress. Increases noted for 2024 include "step" increases and the associated pension costs. In addition, the budget has been prepared to include the proposed House Bill 296 increase to pension contributions for law enforcement (from 19.5% to 24.0%) to the Ohio Police & Fire Pension fund. The bill proposes the increase to have a 4 year implementation period starting with 2024, with an increase of 1.5% resulting in a 21% contribution. In years 2025 - 2027, the contribution will increase an additional 1% for each year.

Materials & Supplies - This line item is used for a variety of purchases including armory supplies and operations, bike patrol, PD supplies, and community outreach supplies. The increase for 2024 is related to purchasing additional mobile field force equipment for new officers and replacing gas filters in the current equipment.

Consulting & Contract Services - The increase in 2024 is primarily due transferring costs for Language Line Services from Communications, in addition to an increase in the annual fee for LEADS online, increased licenses for Guardian Tracking and a LETS phone recorder and recording devices for the detective bureau.

Rationale:															

Salaries & Wages and Pensions - 2024 includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees. In addition, 2024 includes 2 additional dispatchers as proposed. Benefits - The increase in 2024 is attributed to conservatively budgeting for the highest insurance cost (family coverage) for the additional and unfilled positions.

Professional Development - The increase in 2024 is attributed to the departments overall emphasis on professional development and training. 2024 includes additional training for new (2023) and proposed (2024) dispatchers.

Consulting & Contract Services - The decrease in 2024 is due to moving annual MARCS system and IP connection to the Information Technology budget.

Rationale:

Salaries & Wages and Pensions - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. The 2024 budget also includes the impact of HB296 for sworn personnel within Police Administration (Sergeants, Lieutenant, & Chief) for the OP&FP increase as described in the Patrol Division and a new records clerk for the property room.

Benefits - The increase in benefits is attributed to conservatively budgeting for the highest insurance cost (family coverage) for the additional and unfilled positions.

Consulting & Contract Services - The decrease in 2024 is primarily attributed to moving costs for IT related contracts to the Information Technology division within Administration for more efficient tracking of the City's IT costs as a whole.

Materials & Supplies - The increase in 2024 is primarily attributed to the need for a new registration system due to the previous system no longer being in service.

Maintenance & Repairs - The increase in 2023 included Adventureland paving and moving maintenance items previously recorded in other line items to the proper account. In 2024, the line item is reduced and includes the potential reseal of Adventureland, yard service contract, and funds to utilize for maintenance once site condition is assessed after winter.

Professional Development Total Personal Services		-	-	-	-	-	1,200 1,200	1,200 1,200	0.00%
Total Expenditures	\$	- \$	- \$	- \$	- \$	- \$	1,200	\$ 1,200	0.00%

Rationale:

Other Revenue - In 2023, the police division and finance department reviewed internal control surrounding seized funds. A new fund was created with the adoption of the 2023 budget to hold seized funds deposited to a separate bank account once opened. Currently, any seized funds are secured in the property room at the police department while the related case is on going and released to appropriate parties once closed. The new process, once implemented, any seized funds will be deposited into the bank account until the case is processed and closed. Once the case is closed, the custodial fund/account will remit the funds to those awarded which may include the City of New Albany. Any seized funds awarded to New Albany would be deposited into this previously established "Law Enforcement Assistance Fund (Restricted)".

The community development team delivers a customer-focused approach to land use management and the built environment. The team provides comprehensive and creative solutions through planning, permitting, facilitating private site development, managing public infrastructure improvements, sustainable business attraction and retention strategies, and strategic community involvement.

KEY FUNCTIONS

- **Planning** Responsible for aligning the growth and development of the community with the city's master-planned vision and goals.
- **Economic development** Creates and implements programs to attract, retain, and expand businesses within the community.
- **Engineering services** Provides technical expertise in the design and construction of public infrastructure projects and private development plan review.
- **Zoning** Protects the interests and rights of property owners by upholding land use regulations and enforcing the property maintenance code.
- **Building** Ensures that the construction and modification of structures within the community comply with building code and safety standards.

Community Development

2023 Community Development Departmen

Community Development Leadership Team

LAND USE AND DEVELOPMENT FACTS

- New Albany's largest two land uses are commercial (63.88%), and residential (26.68%).
- New Albany has the lowest overall residential density (0.27 units per acre) than any other comparable central Ohio city.
- Nearly every home is within a quarter mile of a park.
- New Albany has more than 55 miles of leisure trails.
- Including Rocky Fork Metro Park, 15% of the land (more than 2,000 acres) in or abutting New Albany is green space and open space.
- The New Albany International Business Park has 24,000 employees.

2023 ACCOMPLISHMENTS

- The building division moved to the Intel trailer site and is fully functional in the new space.
- The building division implemented the electronic plan review system for Intel; and, the engineering division implemented electronic signature system for mylars.
- The economic development division collaborated with COTA to establish the extended Line 35 to the New Albany Park and Ride. This is the first daily and hourly service provided by COTA to the city.
- The economic development division connected with 31 different businesses to celebrate Economic Development Week.
- The economic development division created three new TIF Areas and three new CRA Areas; and, adopted four new incentive agreements and four amended incentive agreements.
- The planning division created and launched a GIS based zoning map on the city's website.
- The planning division has processed 100+ planning applications.
- Intel/Tech-Park Accomplishments:
 - 10 miles of new roads: That is the same distance if you traveled along SR 161 all the way from i-270 to Mink Street.
 - 750,000 cubic yards of earth moved: We have moved enough dirt to fill 240 Olympic-sized pools to construct the roadways.
 - 4 miles of large-diameter water pipes installed.
 - A lift station was constructed capable of discharging 6 million gallons of sewer water every single day.
 - 15,000 feet of large-diameter sanitary sewer has been installed: That is enough sewer pipe to stretch across 40 football fields.

Department Goals & Goal Driven Strategies:

The Community Development Department adopted the following core values to support the city's overall organizational goals: *Professionalism, Reliability, Creativity* and *Service*.

A. Exceed industry standards in providing excellent and timely customer service and community outreach (City Goals #1 & #4): The department sets high internal expectations as it relates to processing applications for planning, building, engineering, and zoning that exceed the industry standard. The department provides strategic outreach to the community through city tours, targeted marketing, and presentations.

B. Serve the needs of residents and businesses through appropriate development and infrastructure investments (City Goals #1 & #3): The department is the main driving force behind economic development projects locating that create and support a vibrant sustainable community according to the city's strategic plan. The strategic planning process includes citizen engagement, thorough research, growth of the region and city analysis, and other considerations. Proactively planning and investing in the supporting infrastructure for development has historically provided for high quality services to residents and businesses.

C. Create a healthy business environment that protects the local tax base (City Goals #2 & #4): The department continues to refine its comprehensive business retention and attraction strategy. The department maintains strong relationships with all of the businesses through formal and informal conversations. Businesses are considered New Albany's "corporate residents" and by providing excellent customer service and connections to the community, they are encouraged to continue to partner with New Albany and provide local taxes.

Looking Forward:

- Code updates
- Support capital budget initiatives
- Maintain high level of customer service through transition
- Support Intel implementation and 200-acre supplier <u>park</u>
- Professional development and training initiatives
- BRE program
- Public outreach
 - Community tours
 - Strategic marketing
 - Presentations

Performance Measures - Community Development Department

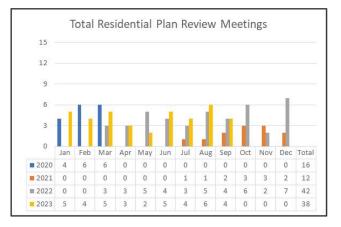

A. Exceed industry standards in providing excellent and timely customer service and community outreach (City Goals #1 & #4)

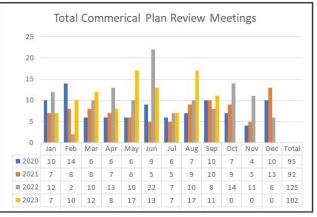

The key performance indicators for this goal are:

- 1. Number of residential and commercial plans reviewed 2020-2023
- 2. Total number of residential plan review meetings 2020-2023
- 3. Total number of commercial plan review meetings 2020-2023
- 4. Average days for plan review compared to Ohio Building Code 2020-2023
- 5. Number of professional development and training sessions by division
- 6. Number of community engagements and marketing investments

The graph above shows the total number of residential and commercial plans reviewed during each year. This includes new projects, responses to denials, and revisions to approved plans.

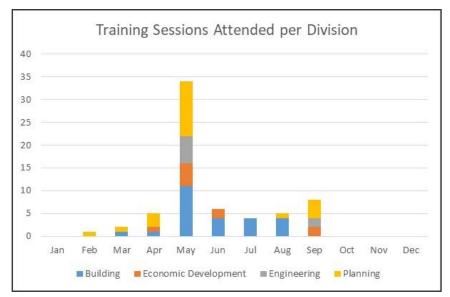

As shown on the two graphs above the department offers in-person meetings for small residential projects and commercial projects with the contractor/owners and appropriate city staff.

A. Exceed industry standards in providing excellent and timely customer service and community outreach (City Goals #1 & #4) continued

The graph below shows the average number of days for commercial plans reviewed by building and zoning during each month. The state standards from the Ohio Building Code and the city standards are listed as solid lines for comparison.

The graph above indicates the number of training sessions attended in 2023 by each division. Training and professional development directly correlate to the department's ability to provide an exceptional level of customer service.

A. Exceed industry standards in providing excellent and timely customer service and community outreach (City Goals #1 & #4) continued

The department invests in community outreach through city tours, presentations, and strategic marketing.

- Number of tours: 14
- Number of presentations: 12
- Money invested in marketing: \$230,000

Chamber of Commerce 25th Anniversary Luncheon

■NEW ALBANY ■

B. Serve the needs of residents and businesses through appropriate development and infrastructure investments (City Goals #1 & #3)

The key performance indicators for this goal are:

- 1. Engineering study effectiveness score
- 2. Planning study effectiveness score

Engineering Study Conducted	Completion & Timeliness	Quality of Findings	Implementation of Recommendations	Stakeholder Satisfaction	Total Score
	(0=delayed, 5=on/ahead of schedule)	(0=weak findings, 5=comprehensive findings)	(0=none implemented, 5=all will be implemented)	(0=highly dissatisfied, 5=highly satisfied)	(20 possible)
Water Capacity	5	5	5	5	20
Sanitary Sewer Capacity	3	4	3	3	13
City-wide Traffic Calming	4	4	4	4	16
Business Park Traffic Impact Study	5	5	5	5	20

The above matrix provides an evaluation of the engineering studies conducted within the community development department. It is designed to evaluate the studies across four key performance measures: completion/timeliness, quality of findings, implementation of recommendations, and stakeholder satisfaction. The areas for improvement are identified by assigning a score of 0-5 to each metric. The total score serves as a quantifiable success metric.

B. Serve the needs of residents and businesses through appropriate development and infrastructure investments (City Goals #1 & #3) continued

The below matrix provides an evaluation of the planning studies conducted within the community development department. It is designed to evaluate the studies across four key performance measures: completion/timeliness, quality of findings, implementation of recommendations, and stakeholder satisfaction. The areas for improvement are identified by assigning a score of 0-5 to each metric. The total score serves as a quantifiable success metric.

Planning Study Conducted	Completion & Timeliness	Quality of Findings	Implementation of Recommendations	Stakeholder Satisfaction	Total Score
Study conducted	(0=delayed, 5=on/ahead of schedule)	(0=weak findings, 5=comprehensive findings)	(0=none implemented, 5=all will be implemented)	(0=highly dissatisfied, 5=highly satisfied)	(20 possible)
Village Center Parking Plan	2	3	3	3	11
Traffic and Pedestrian Access Meetings	5	5	3	5	18
Solar Panel Best Practices Report and Code Update	3	4	3	3	13
Beech Road North Landscape Standards Plan	5	4	5	5	19
Central College Redevelopment Framework Plan	4	5	3	3	15
USPS Zip Code & Mailing Address Coordination	3	5	5	5	18
GIS Online Zoning Map Project	5	5	5	5	20
Digital Menu Board Sign Code Update	5	5	5	5	20

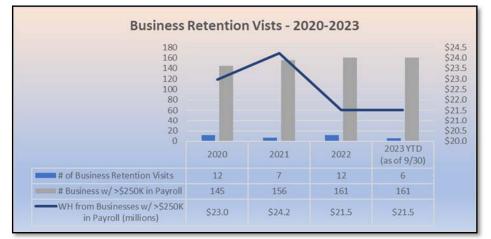

C. Create a healthy business environment that protects the local tax base (City Goals #2 & #4)

The key performance indicators for this goal are:

- 1. Business park retention visits
- 2. Active economic development pipeline by month
- 3. Investment from announced projects

The department strives to create a business-friendly climate that is supportive and inclusive, from a company located within the incubator to Fortune 100 corporations. The team works with employers to identify and implement strategies that can improve their ability to retain and grow their workforce. This helps to stabilize our tax base and provide sustainable revenue to support continued operations and investment in infrastructure, community facilities, and programming to improve the quality of life for residents.

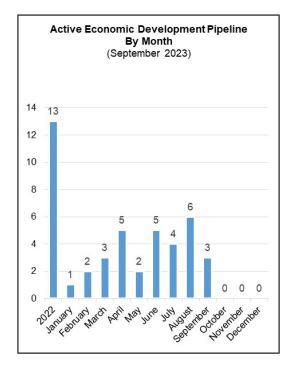

The chart below depicts the number of BREs for the years presented in comparison to the total number of businesses located within New Albany with a payroll greater than \$250,000. For additional information, the total revenue in withholding from these businesses is shown in millions. This information will assist city staff in determining appropriate goals to include in their revised plan.

NOTE: 2023 YTD information on # of Businesses and related payroll and withholding information is not yet available and will be updated with the final document. For reference, information from 2022 is used in the graph in the related data.

C. Create a healthy business environment that protects the local tax base (City Goals #2 & #4) continued

The graph below describes the department's active economic development portfolio. There are currently 44 projects within the pipeline with the top site requests representing the High-Tech Manufacturing and Logistics industry.

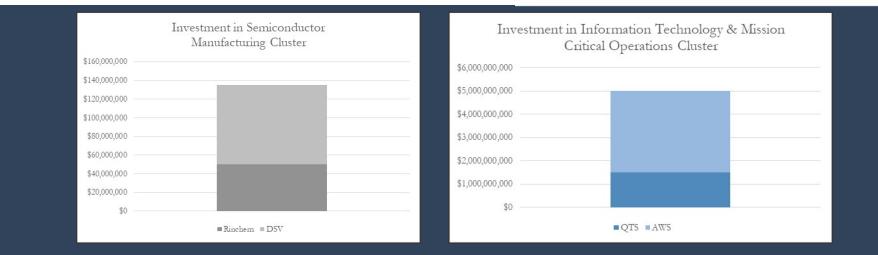

C. Create a healthy business environment that protects the local tax base (City Goals #2 & #4) continued

The department announced a total of \$5.1 billion in new projects in 2023. The tables below describe the investment by company and cluster.

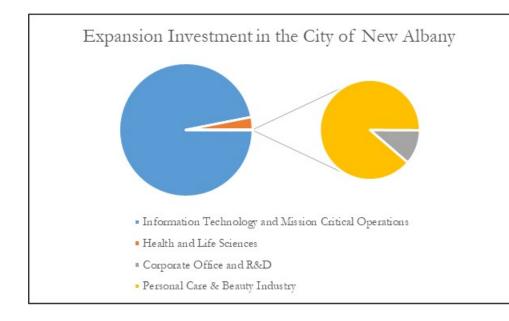

Additionally, Google recently announced an additional investment of \$1.7 billion across their three central Ohio sites – which includes New Albany.

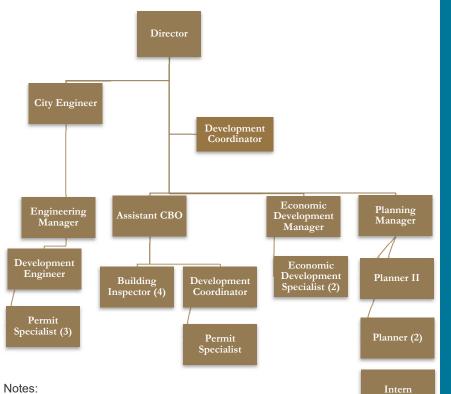

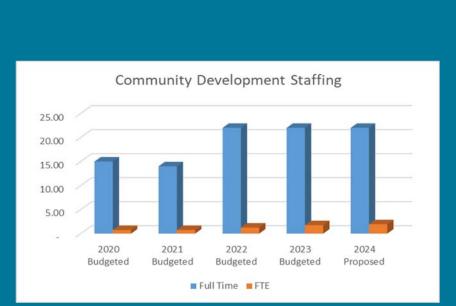

C. Create a healthy business environment that protects the local tax base (City Goals #2 & #4) continued

Existing companies in New Albany expanded in existing facilities or new facilities representing an investment of \$392,749,543.

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023.

Professional Development - The 2024 budget reflects an increase of 54% in the professional development category. The increase aligns with the organizational goal that encourages each department to pursue continual service and operational improvements; and, the investment in the professional development of the workforce. As the staff increased, the budget to maintain the necessary continuing education credits and certifications also increased. Additionally, the increased staffing resulted in an increase in the amount the city pays in annual professional dues and memberships. Other increases include registration for professional training and conferences including the OKI conference, OTEC, the Economic Development Institute certification classes, the Ohio basic ED courses, the annual water resources conference, and the annual OBOA (building) conference.

Utilities & Communications - This line item was decreased based on data regarding cell phone use and billing.

Consulting & Contract Services - The 2024 budget includes a 3.5% increase in the consulting and contract services category. The department will maintain contracts with planning and design consultants to focus on long-range planning projects such as the US 62 Corridor Study (proactive approach to ODOT US 62 widening north of Central College) and Triangle Plan Update; and, updates to the codified ordinances (urban center code, solar panels, village center park and open space dedications). New projects include an ECOS redux to reflect the updates in sustainability and green building standards and the continuation of fiber-to-the-home studies. The budget also includes the necessary funds to maintain the contract staff responsible for commercial plan review, inspection, electrical inspection, and chief building official services. Note that the hourly rate for the commercial plan reviewers is billed back to the applicant.

Total Expenditures	\$	-	\$	-	\$	-	\$	-	\$	-	\$	-	\$	-	0.00%

Rationale:

Funds from NACA/NAECA - The city received the first distribution from the New Albany East Community Authority (NAECA) in 2019. The initial distributions were applied to the OWDA loan for the construction of the Beech Road South infrastructure and the Blacklick Creek Trunk Sewer - Phase 1, Phase 2A.1, Phase 2A.2, and Phase 2B. In 2022, the city applied NAECA funds to the OWDA loan for the construction of water lines on Ganton Parkway and the sanitary sewer on Worthington Road. In 2024, the city will receive approximately \$2 million toward the first year of interest payments on bonds that will be sold in January 2024 for the construction of the Rose Run II project. (This chart only includes "department" expenditures and not Capital (capital projects), Debt Service, or Other Financing Uses (transfers to debt service for OWDA payments).

The city manager serves as the CEO of the city under the direction of the City Council. In addition to the city manager, the administrative services director interfaces with all city departments in the planning, coordinating and implementation of interdepartmental operations. Departmental functions include human resources, public records management, contractual services (including legal and engineering), information technology, risk management, buildings and grounds, community relations, special event logistics coordination and Mayor's Court.

KEY FUNCTIONS

- Provide organizational leadership.
- Advise City Council on policy matters and keep them apprised of municipal operations.
- Oversee implementation of City Council enacted policies and adopted budgets.
- Ensure effective delivery of services to New Albany residents and businesses.
- Implement all fiscal, planning and infrastructure programs.

Administrative Services

The first phase of Taylor Farm Park opened in August of 2023. As the city's first destination park, it includes an adventure playground, walking paths and environmental features like wetlands.

e NA 101 series aimed to connect new and existing resid to city staff and information.

The city's first Household Hazardous Waste Drive collected 3,000 cans of hazardous material

Organizational Goals & Goal Driven Strategies:

The Administrative Services department has adopted the following core values which contribute to the City's overall organizational goals: *Courage, Humility, Integrity* and *Leadership*.

Connecting residents to each other and to their government is an important function of Administrative Services. Administrative Services supports local events that bring the community together and implements a robust communication strategy to inform and engage with residents in a variety of ways which are attributed to winning national awards for communications efforts. Along with supporting external customers, the department supports internal functions such as human resources and information technology.

Workplace Culture, Employee Wellness, and Professional Development (Supports City Organization Goal #5):

Administrative Services strives to provide employees with a workplace culture that promotes professional and personal growth and development through employee wellness programming and professional development opportunities, while also seeking ways to support work-life balance for employees throughout the organization. The department works closely with each department and plays a key role in the recruitment and hiring process, while also helping to find ways in investing in current staff to promote retention and a positive environment.

Community Focus on Programming, Sustainability and IDEA (Supports City Organization Goals #2 & #4):

The Community Investment & Programming division of the Administrative Services department facilitates the implementation of several council initiatives. The Senior Connections program for residents age 55+, initially organized by one of our community partners, Healthy New Albany, was brought in house in 2022 and has continued to increase its membership and the number of programs offered. In addition to Senior Connections, funding for recommendations from the Sustainability Advisory Board and IDEA (Inclusion, Diversity & Equity Action) Implementation Panel is budgeted within this division. Programs such as managing and tracking community composting sites, five different types of waste drives, summer concerts, preschool party in the park programs, DORA (Designated Outdoor Refreshment Area) and Senior Connections are a few examples of programming this division facilitates. Specific IDEA Panel programs in 2023 included the NA 101 series (business park bus tours, Appy Hour at the Heit Center and the Taylor Farm Open House), a Juneteenth Celebration, Family Fun Day and a Diwali Celebration. This division also manages the permitting process and coordinates logistics for special events by outside organizations that occur in New Albany.

Oversight of & Planning for Community Facilities (Supports City Organization Goals #2 & #3):

A key focus of the Administrative Services department is to oversee the improvement of and plan for current and future community facilities, including neighborhood parks, destination parks including Rose Run and Taylor Farm, Village Center amenities, and investment in future dedicated park space with community partners guided by the City's strategic plan.

■NEW ALBANY ■

Organizational Goals & Goal Driven Strategies, Continued:

Robust and Effective Communications (Supports City Organization Goal #4):

The Administrative Services department also includes the Communications division. The City has historically placed significant importance on timely, effective and open communications with its residents and also the media. The chief communications & marketing officer and multimedia communications specialist work together to find new, creative and effective ways to communicate both externally and internally. Communication has grown from utilizing primarily direct mailings and the City website to a heavy focus on digital communications with social media, e-newsletters, videos and guest columns in local publications. In addition, community surveys have been conducted regularly seeking feedback from residents concerning City services, areas of improvement, resident needs, and confirmation that planning and development within the city is headed in the right direction according to its constituents.

Administrative Services Department

2023 Accomplishments:

- Maintained a high volume of hiring processes
- Employee turnover rate of <10%
- Completed classification and compensation study

IT Services & GIS:

Created public facing online
 maps and dashboards

Community Programming:

- Increased Senior Connections memberships
- Permitted and produced 33 special events

City Council Initiatives:

 Upgraded 3 neighborhood playgrounds, opened first phase of Taylor Farm Park, launched the IDEA Implementation Panel, expanded waste drives

Communications:

- Four national/Ohio PR awards
- Successful promotion and branding of city's new events
- Grew attendance at all-staff
 internal meetings

Looking Forward:

- Enhance city website and expand internal communications
- Electronic Personnel Action Forms & onboarding documents

IT Services & GIS:

- Establish new service
 request/work order system
- Enhanced security measures

Community Programming:

 Focus on organizational structure to accommodate growth in events and programs

City Council Initiatives:

 Rose Run Phase 2 construction, Sustainability Advisory Board, Park upgrades, IDEA and Fiber to the Home Study

Communications:

- Improve website experience
- Create studio space for video shoots and potential podcasts
- Develop new videos to assist in communicating annual report info

Performance Measures - Administrative Services Department

1. Overall Impressions – Community Survey Results (Goal #4)

The Community Survey is performed every other year. The next survey will be conducted in 2024.

2. Workforce Growth and Management (Goal #5)

The city workforce continues to increase as growth continues through the community. Administrative Services facilitates and manages all hiring processes recruiting and attracting quality candidates that help to further the City's mission.

Workforce Growth and Management

	2020	2021	2022	2023
Budgeted Full Time Positions	102	103	129	137

Performance Measures - Administrative Services Department, continued

3. Senior Connections (Goal #4)

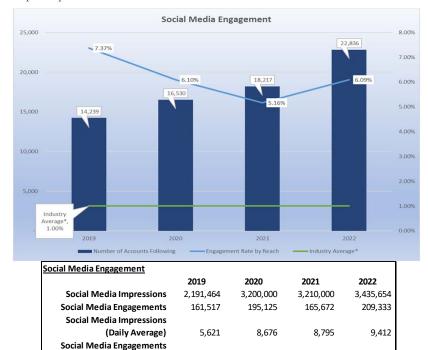

Senior Connections programming was brought in house in 2022. The program was previously administered through Healthy New Albany, a community partner since inception in 2019 and has proven to be a valuable program for residents. Below is a graph depicting the growth and participation in the program.

4. Communications and Social Media (Goal #4)

The city's communications team won six total awards for communications efforts, including three national awards in 2022. The team has significantly diversified how information is shared over recent years to ensure it reaches the community effectively.

Significant updates have been made to the City's website, CONNECTS e-newsletters are distributed weekly, videos highlighting city services, programming, staff, residents and businesses that make New Albany such a special community are regularly created and distributed, and significant strides have been made to utilize social media across several platforms. Below is a table and a chart demonstrating the growth of social media participation as a result of these efforts.

D-4												8		

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. The 2024 budget also includes the addition of an Administrative Services Clerk and a part-time Administrative Assistant.

Benefits - The increase in benefits is attributed to conservatively budgeting for the highest insurance cost (family coverage) for the newly established Clerk.

Consulting & Contract Services - The increase in 2024 is primarily related to including funds for an electric aggregation consultant.

Total Expenditures	\$ 522,918	\$ 588,834	\$ 610,778	\$ 1,044,031	\$ 1,156,488	\$ 1,546,945	\$ 1,604,540	3.72%

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023.

Materials & Supplies - 2022 included costs related to additional software, new PC equipment for newly established positions (including those added during year for Intel), additional tablets, laptops, and mounts for service and fleet, and other similar expenses. 2023 continues to have similar costs but less in quantity. The 2024 expenses are projected to be similar to expenses to date for with returning to the normal expense of purchasing for new staff and replacing current staff equipment based on scheduled replacements and upgrades. Utilities & Communications - 2024 includes funding for the MARCS system IP Connection which was previously budgeted within the Police Department.

Maintenance & Repairs - 2024 includes costs related to additional software, increases in licensing costs and maintenance agreements. During the audit of the 2023 financial statements in the spring of 2024, each of these Subscription-Based Information Technology Arrangements ("SBITA") recorded within this category will be evaluated as a part of Government Accounting Standards Board (GASB) Statement No. 96 (as described in the IT Budget within the Appendices). Items required to be reclassed on a Generally Accepted Accounting Principles (GAAP) base, will be moved to the Capital Equipment fund in the 2024 budget for tracking purposes.

Consulting & Contract Services - The 2024 budget includes a decrease related to software support and services that were transferred to the Maintenance & Repairs category until reviewed for GASB 96 determination.

Miscellaneous - The 2023 budget includes the copier leases throughout the City. In 2024, the expense related to the copier leases was moved to the Capital Equipment fund due to being classified as a capital lease.

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. The 2024 budget also includes the addition of a part-time Communications Specialist.

Professional Development - The 2024 budget was increased in anticipation of adding the part-time Communications Specialist.

Materials & Supplies - The 2024 budget includes an increase for various equipment for studio, potential podcast and other video recordings. The increase also accounts for drone equipment and related accessories for video and photography.

Consulting & Contract Services - The 2024 increase includes the cost of the bi-ennial Community Survey in addition to increased efforts to enhance communications with additional funding for communications messaging assistance and video production.

Payment for Services - The 2024 budget includes printing costs for the Annual Report, Council letters to residents, potential IDEA communications and other communications to residents in addition to various forms of advertisement and promotion and social media tools and analysis.

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. The 2024 budget also includes the addition of a Program Specialist.

Operating & Contract Services - The Community Investment & Programming Division was created in 2022 to track investment in the community separately. In the past, all expenses were listed under "Community Support" within the Miscellaneous category. During the year, the City also hired a Senior Programming Administrator. With the City having direct costs for the program, 2023 includes a breakdown of the type expenditures and is further refined in 2024. The overall Operating & Contractual Services category is budgeted to stay substantially the same for 2024.

Note: Total All runds includes the General rund, All Tax increment rinancing runds, Healthy New Aldany rund, and the Hinson Amphitheater rund. For purposes of this presentation, the Economic Opportunity Zone Funds and the Hotel Excise Tax Fund are excluded due to their "zero balance" nature of activity. The Severance Liability Fund is excluded due to it's nature of operating as a "reserve" for costs which are otherwise accounted for in the General Fund. Various grant funds (FEMA, Local Coronavirus Relief, and Local Fiscal Recovery funds) are excluded due to the "one-time" nature of activity which is not related to ongoing operations.

Rationale:

Professional Development - The increase in 2024 is related to increased membership fes to various organizations and funds to focus on additional City staff professional development opportunities.

Materials & Supplies - The increase in 2024 is related to and increase is fuel usage related to the New Albany SmartRide program reinstated in greater service in the fall of 2023, along with the cost of fuel.

Consulting & Contract Services - This line item primarily accounts for the Franklin County Public Health contract, liability insurance, mosquito spraying, employee wellness, Code Red, Franklin County EMS Everbridge fee and an amount set aside for special projects that may develop throughout the year as a result of council initiatives. The increase is attributed primarily to an increase in liability insurance due to additional facilities the city maintains and operates, cyber coverage, funding for special projects and overall increase in existing contracts.

Rationale:

Total Revenues & Expenditures - New for 2024, a summary of all Tax Increment Financing (TIF) funds is included in the General Administration Department. These funds are special revenue funds and account for the payment in lieu of taxes the City receives within the TIF districts, the related auditor & treasurer fees charged by the counties for collection and any other expense or project related to the TIF district. TIF revenues will fluctuate based on the timing of abatements commencing for new projects or ending for previous projects.

Rationale:

Consulting & Contract Service - The increase in the 2024 budget is primarily due to a contract increase for the City Attorney, continued FOP negotiations and other special projects.

Departments - 204

The public service team provides essential services and infrastructure management to residents and businesses within the community. This team is committed to maintaining the built environment to the highest level and is devoted to providing quality of life services consistent with the highest standards.

KEY FUNCTIONS

- Administration
- Capital projects
- Streets maintenance
- Utilities maintenance
- Right-of-Way management and maintenance
- Forestry
- Special projects
- Fleet management

Public Service

■NEW ALBANY ■

Organizational Goals & Goal Driven Strategies:

The public service department has adopted the following core values which contribute to the City's overall organizational goals: *Professionalism, Integrity, Reliability, Quality* and *Pride.* This team is dedicated to maintaining and improving the quality of life in the City of New Albany to the meet the highest standards. This department will maintain a superior infrastructure and facilities, and manage our natural resources with pride and integrity.

Support and enhance the quality of life to all residents by implementing proactive infrastructure design, construction and maintenance programs. (Supports City Organization Goal #3):

The public service department elevates the standards as it relates to infrastructure design, construction and maintenance of parkland. The department provides project management, purchasing, installation and maintenance of public infrastructure and parkland amenities.

Exceed industry standards in providing excellent and timely customer service to residents and businesses. (Supports City Organization Goal #4):

The Public Service Department strives to provide excellent customer service. Public Service engages with the community by providing leaf pickup, clearing roadways during snow events, trash pickup and resident inquiries.

Implement and facilitate successful community programming and provide quality services to citizens and visitors. (Supports City Organization Goal #4):

The public service department participates in and assists with many special events and projects each year that require collaboration with community leaders, vendors and residents. The staff at the public service department devoted more than 1,000 hours of time in support of special events in 2023.

Organizational Goals & Goal Driven Strategies, continued:

Workplace Culture that Promotes Professional and Personal Growth and Development (Supports City Organization Goal #5)

Provide a workplace culture that promotes both personal and professional growth while equipping and empowering the team to be successful in their trade. The public service department provides staff with high quality, dependable tools and equipment to support a quality work product as well as foster employee safety. Provide routine, meaningful training and professional growth opportunities. Prioritize celebrating and acknowledging the wins of the team and learn from the losses.

Public Service Department

2023 Accomplishments:

- Provided high level response & support services for snow & ice control and leaf collection
- Provided support to the expanded special events programming
- Completed construction on the US62/SR161 improvement project
- Finalized right of way acquisition and engineering design for Market Street ext
- Implemented expanded street light, fire hydrant and traffic signal painting program
- Doubled the area included in the sidewalk program
- Implemented expanded street tree pruning program
- Implemented expanded village center streetscape and roundabout maintenance program
- Expanded utility inspection, training and maintenance program

Looking Forward:

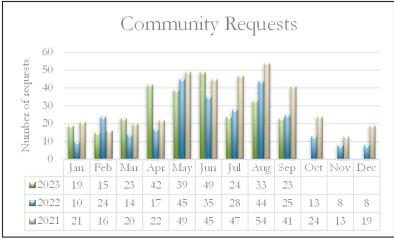

- Begin construction of Market
 Street extension project
- Reconstruct South Harlem Road Between US62 and James River Road
- Support expanded New
 Albany Smart Ride program
- Evaluate existing road maintenance program and identify opportunities for improvement
- Continue implementation of expanded operations & organizational structure to support continued expansion of the business campus.

■NEW ALBANY ■

Performance Measures - Public Service Department

Community requests, special events and composting (Goal #1 & 4)

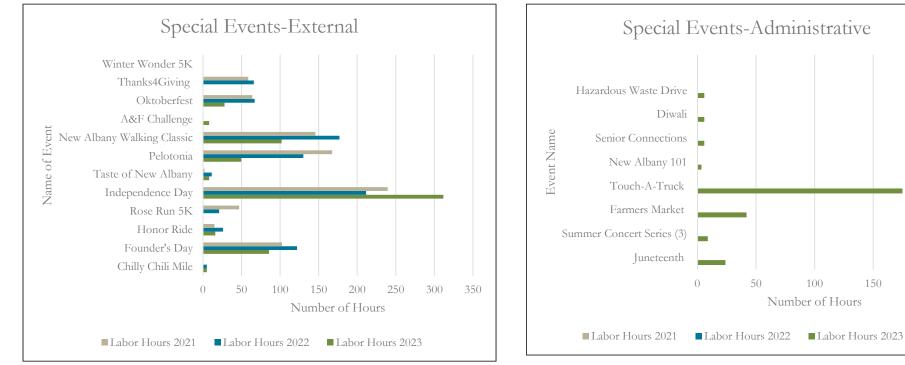

The Public Service Department is responsible for responding to community requests related to city-owned infrastructure and services. The community requests graph represents the number of requests and types of requests received from residents. The Public Service Department devotes hours to special events. In addition, the department supports sustainability and green initiatives. New Albany's composting program is one of the leading programs around the area.

* The goal of the public service department is to provide an initial response to all community requests within 2 business days of receipt. This goal continues to be consistently met and exceeded.

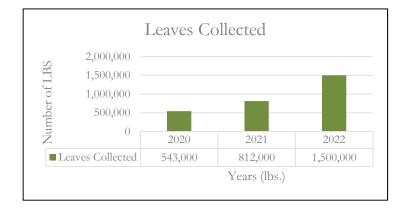

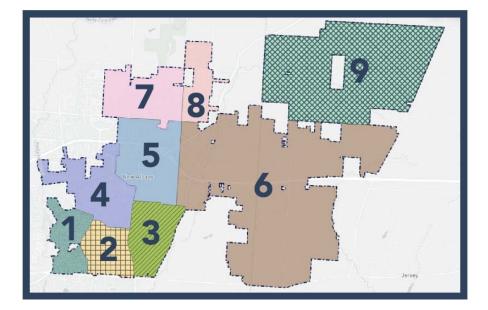

* The number of special events increased by 9 from 2022-2023 in response to city council and resident requests. The goal of the public service department is to provide continued support for the continued growth and quality of special events that are supported by New Albany.

*Started collecting data in 2023

200

* Leaf pickup is divided into 9 districts throughout the city. When one district is cleared entirely our crews will begin work on the next sequential district. Our goal is to provide weekly collection service to the community.

This year to date our crews have completed 7 passes through the community and average 1.2 passes per week, which exceeds the established goal of one collection service per week.

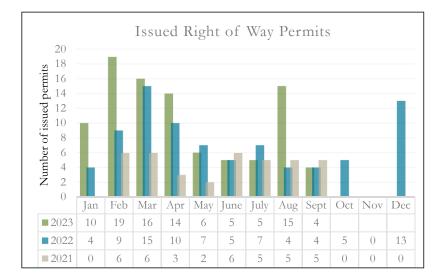

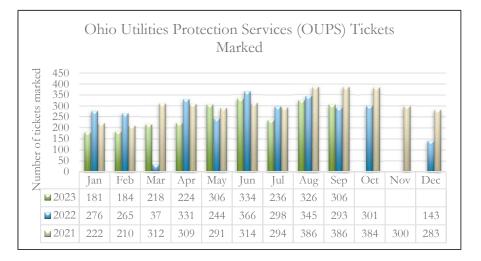

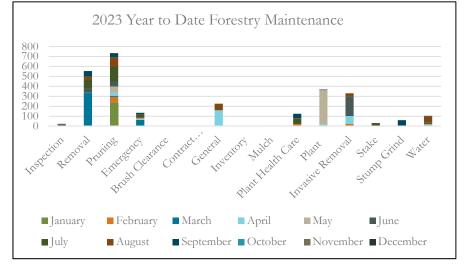

* When a snow and ice event begins, public service crews commence an immediate 24-hour response. Our goal is to have roadways completely cleared within 24 hours of the last snowfall. This goal is consistently met and exceeded.

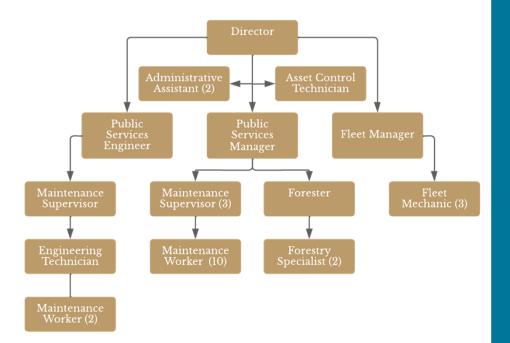

Performance Measures – Land & Building Maintenance Department Future development through infrastructure and maintenance with a commitment to quality (Goal #1 & 3)

The Public Service Department inventory continues to increase year over year. The department continues aggressive maintenance programs to ensure the longevity of infrastructure, continues to hold contractors accountable for damage in the right-of-way and will continue to update the long-range maintenance plans of infrastructure. The department has adopted a preventive maintenance plan to repair and maintain the city's facilities to ensure a sustainable work environment.

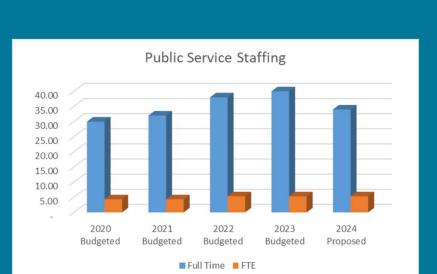

Notes:

- Public Services Engineer replaces Project Manager
- FTE includes winter and summer seasonal maintenance workers
- Eliminated Clerk and Public Service Coordinator
- Add 2 Maintenance Workers (if needed)

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. In 2024, personnel costs for each working crew will be assigned to newly established divisions within the Infrastructure Maintenance Division (1015200s) and the Land & Building Maintenance Department (1016000s). 2024 also accounts for the addition of 2 maintenance workers. Overall, within the Public Service department, personnel costs show a decrease which is reflected as an increase in the Land & Building Maintenance Department.

Professional Development - The 2024 budget includes an increase related to increased staffing along with the continued implementation of an expanded safety and operational training program.

Materials & Supplies - The 2024 budget accounts for increased costs and demand for materials and supplies. Supply costs have realized a steady increase over the past three years, road salt being a major contributer. Extended product lead times also warrant the procurement of additional products and materials to better populate department inventory. Further, additional staff has resulted in expanded maintenance activity and additional demand for materials and supplies.

Clothing & Uniforms - The increase in 2024 is primarily a result of additional staffing.

Maintenance & Repairs - The 2024 budget was increased from the usual original budget of \$30,000. This account provides for maintenance as it relates to infrastructure damage. Infrastructure damage is unpredictable and every effort is made to recover these costs from defendents and/or their insurance companies. Previous years included a budget for these costs for less than \$50,000 and each year it has had to be adjusted. 2024 represents a more realistic starting point. The account will be reviewed at mid-year to determine if additional funds are necessary. As a reminder, the Fleet Division was created 2022, and all related costs/budgets were moved, which is why it appears that 2024 is a significant decrease from previous years. **Consulting & Contract Services** - The 2024 budget reflects an increase to the Franklin Soil & Water contract services, in addition to adding funds to utilize for recruitment for the vacant Public Service Engineer position.

2024 Annual Budget Public Service Department - Continued

	2019 Actua	al 2020 Actual	2021 Actual	2(022 Actual	2023 YTD (9/30/2023)	2023 Amended	2024 Proposed	% Increase/ (Decrease)

Maintenance & Repairs		-	-	-	239,301	178,460	244,800	270,000	10.299
Consulting & Contract Services		-	-	-	49,003	113,100	125,000	55,000	-56.009
Payment for Services		-	-	-	-	200	200	-	-100.009
Total Operating & Contractual Services		-	-	-	415,274	395,759	487,500	428,000	-12.219
Total Expenditures	\$	- \$	- \$	- \$	748,684	\$ 660,136	\$ 1,003,661	\$ 920,930	-8.249

Rationale:

Total Expenditures - In 2022, the fleet division was separated into its own division within the Public Service Department to better account for the services and expenditures of the City's fleet operations. The costs budgeted within this division were previously reported within the Public Service Department as a whole (Division 5000) prior to 2022.

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. In 2024, personnel costs decreased overall, reflecting a more refined estimate of costs with the previous vacancies filled in 2023.

Materials & Supplies - The 2022 and 2023 budget included the purchase of additional tools and equipment for a new workstation and additional staff. The 2024 budget does not include the same level of purchasing.

Maintenance & Repairs - The 2024 increase provides for a general increase in cost of materials along with an increase related to vehicle maintenance for the expanded shuttle program. Consulting & Contract Services - The 2024 budget was decreased by amount budgeted for the Smart Ride contract to be supported by the NA Business Campus Association. This funding will instead be utilized for the increased maintenance as described in the Maintenance & Repairs section and related fuel costs as described in General Administration. The balance of operations of the shuttle program will continue to be funded in the Economic Development (NACA) fund.

Total Expenditures	\$	- \$	- \$	- \$	- \$	352,204	\$ 654,000	\$ 3,311,236	406.31%

Rationale:

Total Expenditures - The 2023 budget includes the creation of a series of Infrastructure Maintenance divisions (as represented in one overall division within this document) to accommodate and track newly implemented infrastructure maintenance annual programs and other related infrastructure maintenance which will primarily be contractual services. These programs have been restructured and increased to include Utilities Maintenance (including hydrants) (5210), Forestry - Street Trees Maintenance (5220), Street Maintenance (5230), Right-of-Way (ROW) & Village Center Maintenance (5240), and Fiber Maintenance (5290). The overall increase for 2024 includes moving related work crews to the created divisions and the maintenance activities related to the expansion of the business park, along with increased maintenance programs for Village Center.

Rationale:

This fund is primarily used for Economic Development within the Community Development department. In 2018, the service department assumed the New Albany SmartRide shuttle program operations which was previously maintained and operated by the New Albany Community Improvement Corporation. In 2020, a portion of the program was moved to the general fund which receives the reimbursement from the New Albany Business Campus Association. In 2023 and 2024, an amount is included in maintenance & repairs as a part of the proposed annual maintenance program to maintain street lights and mast arms. This portion will be used towards those street lights and mast arms located in the New Albany Business Park. In addition, Consulting & Contract Services is increased significantly to account for the expanded New Albany SmartRide shuttle program launched in the fall of 2023. The revenue received in this fund is accounted for within the Community Development Department budget.

NEW ALBANY

New Albany's general obligation rating from Moody's Investors Service is Aaa and New Albany's rating from Standard & Poor's is AAA; the best ratings possible. The finance department consistently receives the Certificate of Achievement for Excellence in Financial Reporting for its comprehensive annual financial report (CAFR). This is the highest form of recognition in governmental accounting and financial reporting and a distinction that less than five percent of government entities nationwide achieve. The department also received the Distinguished Budget Presentation Award for its *Annual Budget Programs* for 2021 and 2022, which is the highest award in governmental budgeting.

KEY FUNCTIONS:

- Oversee fiscal operations.
- Debt issuance.
- Provide an accurate accounting of receipts and disbursements.
- Coordinate the annual audit.
- Manage the New Albany Community Improvement Corporation financial functions.
- Manage financial aspects of Economic Development, revenue sharing agreements, and tax incentive districts.

Finance

Michael Khoury, Financial Data Analyst – Payroll Specialist; Candy Cook, Accounts Payable Technician; Bethany Staats, CPA, Director of Finance; Drew Turner, Management Analyst; Megan Thomas, Administrative Assistant; Cindy Powell, Finance Manager.

NEW ALBANY Organizational Goals & Goal Driven Strategies:

The Finance has adopted the following core values which contribute to the City's overall organizational goals: *Leadership*, *Integrity*, *Vision*, and *Excellence*.

The daily activities of the Finance Department are designed to carry out stated policies in the City of New Albany's Statement of Financial Policies adopted in 2007 and subsequent amendments. These activities provide a framework for executing planning of general operations and capital projects, budgets and financial reporting. They also guide the design of day-to-day processes, which are carried out to ensure funds are utilized as intended throughout the City in order to safeguard assets entrusted to the City by its citizens.

Maintain excellent stewardship of the City's public funds in accordance with local, state, and federal laws by implementing best practices in all areas and to maintain the confidence of the community in the City's finances. (Supports City Organization Goal #3, 4):

Encourage efficiency and collaboration with all City departments while providing dependable, reliable, forward-thinking support and expertise when offering insight and solutions to potential challenges that may be encountered. (Supports City Organization Goal #3):

Provide excellent customer service and partnership to all parties including city officials, boards and commissions, administration and staff, residents, vendors, businesses, and community partners. (Supports City Organization Goal #3):

Finance Department

2023 Accomplishments:

- 2022 GFOA ACFR (Submitted)
- 2022 AOS Distinguished Reporting (Pending ACFR)
- 2023 GFOA Distinguished Budget (Submitted)
- 2023 90+ cashVest
- Relocation of offices to 8000 Walton Parkway
- Grants & Project Management
- Economic Development related analysis & reconciliation
 - NDA charge projections
 - Revenue sharing
 - Annexation agreements
 - TIRC support

Maximize available

Looking Forward:

- data/software tools
- CIP reporting & tracking
- Dashboards (w/ GIS)
- Streamline budget process
- Workforce planning
- Capital budget
- Economic development
- Enhance business relations
- Economic development agreements – tracking, reporting & monitoring
- Enhance school relations
- Grants & project management

NEW ALBANY

Performance Measures – Finance Department

1. Income Tax Collections (Goal #3, 4)

Income tax is generally New Albany's largest single source of revenue and provides for operations and capital projects, alike. The continuous and close monitoring, which occurs each month upon distribution from RITA (Regional Income Tax Agency) and the State of Ohio Tax Division, is important to quickly identify and address variances in actuals from projections and evaluate possible significant impact on providing for operations and planned projects. Generally, the initial projections have been very conservative. In both 2021 and 2022, substantial increases were made to the projects as revenue collections were realized.

Income Tax Budget History - 2021-2023

2. Project Management (Goal #1-4)

While New Albany generally utilizes decentralized purchasing, projects are initiated at the department level. The lead department is responsible for ensuring compliance with the City Charter, the Ohio Revised Code, and federal regulation during the initial stages of a project (legislation, competitive bidding, advertising, etc.) through selection of the contractor to be awarded. Once a contractor is chosen for a project, the administration of the contract is turned over to the finance department for execution and processing. For each project, finance creates a system of project phases and accounts for tracking the project within the financial software. Throughout the contract, finance initiates and maintains purchase orders to accommodate contract adjustments, processes approved/certified pay applications, monitors prevailing wage certification and retainage amounts, and works closely with departments to ensure compliance is maintained throughout the contract. Each project may have several other smaller contracts or related costs that are also maintained as part of the overall project. In addition, where grant funding or loans are utilized, finance maintains all grant and loan administration including draw down requests, quarterly reporting and more. In 2022, the number of projects added and continued reached record levels as New Albany continues approximately \$280 million in infrastructure projects necessary to accommodate the future site of Intel's chip manufacturing plant and related development.

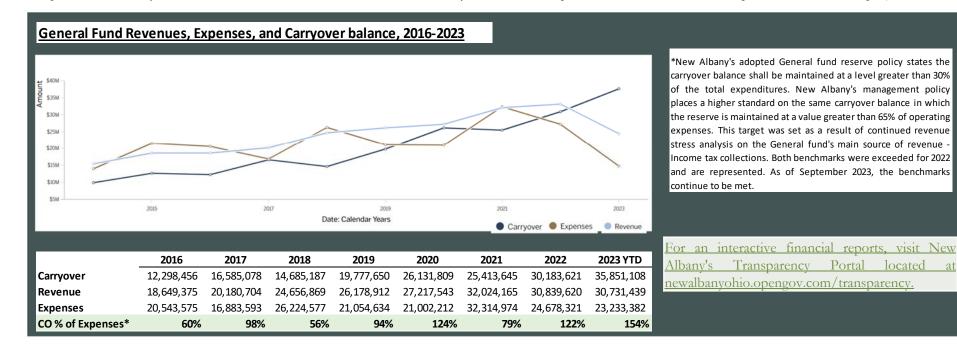

at

NEWALBANY

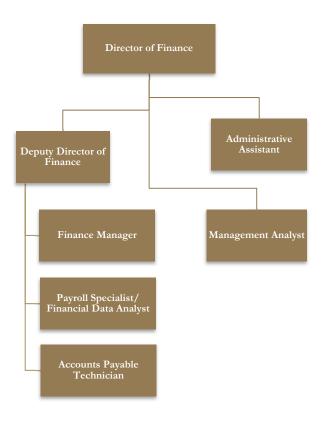

Performance Measures - Finance Department, continued

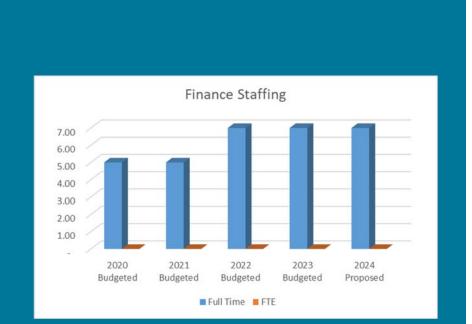

3. Adherence to General Fund Reserve Policy (Goal #4)

New Albany has a history of being fiscally sound, even in times of economic downturn due to the adoption of and adherence to financial policies created to prepare for such times of economic downturn. The most notable fiscal policy which is stressed throughout financial documents, monthly reports, budget discussions, capital planning, and more, is a moderation of the "Fund Balance Reserves" Policy 5.40(A) as it relates to the General Fund. The policy states the target reserve for this fund is 30-35% of expenditures, however, all documentation and expectation internally is a target of 65% of the fund's operating expenditures. Each year, the "excess" of the 65% is evaluated for the ability to transfer to capital or other funds to facilitate planned or additional projects.

Total Expenditures	\$ 1,220	,430	\$ 1,250,923	\$ 1,38	87,894	\$	1,480,722	\$	1,355,282	\$	1,756,535	\$	2,134,005	21.49%

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023.

Benefits - The increase in benefits is attributed to conservatively budgeting for the highest insurance cost (family coverage) for the vacant Management Analyst position and a full year of benefits for all 7 approved positions.

Consulting & Contract Services - This account includes additional consulting and contract services related to various financial projects and economic development analysis and fiscal administration. This account also includes the fees for the City's municipal advisor, investment advisor, and preparation and audit of the City's Annual Comprehensive Financial Report (ACFR). The audit services have increased from \$15,750 to \$22,500, due to the city qualifying for a Federal Audit in connection with the receipt of Federal grants for Business Park infrastructure, a Federal Safety grant related to the 62/161 project and the ARPA funding used primarily for the Pickleball Facility in 2023. In addition, the 2023 budget has been adjusted throughout the year to provide for additional temp services when necessary, as a result of instances of staff planned and unplanned extended leave, and help with increased workload. These services are expected to continue in 2024 due to increased volume in workload and the necessity to cross-train on key functions of the department where even scheduled leave results in significant delay of daily activities. Currently, the budget includes \$130,000 for these services which would only provide for 6 months of full time temp services and is also the approximate cost of an additional position. The need for an additional permanent position is currently being evaluated and this budget would be reduced by said amount if the decision is made to move forward with the additional position within the final adopted budget for 2024.

Payment for Services - This line item primarily includes RITA collection fees and bank fees which vary depending on income tax revenue and bank balances. With increased income tax revenue expected, RITA fees reflect an increase as well.

Departments - 230

NEW ALBANY

The New Albany Public Service Department pledges to be the organizational leader in providing benchmark services and infrastructure management to the community. With a strong commitment to its citizens and business partners, we serve to ensure safety and quality of life in New Albany. Working collectively, we find success in solving problems confronting our community so we can move forward for a better tomorrow.

KEY FUNCTIONS

- Facilities
- Parks & Open Space

Land & Building Maintenance

■NEW ALBANY ■

Organizational Goals & Goal Driven Strategies, continued:

Support and enhance the quality of life to all residents by implementing proactive programs to improve all city-owned rights of way, parks and open space. (Supports City Organization Goal #2 & 4):

The Public Service Department is committed to improving the aesthetics, of city parks, open spaces and rights-of-way through regular structured maintenance programs and other methods of enrichment. In addition, the department will monitor and update the right-of-way permit process as needed to ensure compliance and enforcement are adequate to protect all city infrastructure.

QUICK FACTS:

		<u>2023</u>
Facilities maintained		18
Destination parks maintained		2
Pocket parks maintained	11	
Trash Can Receptacles		80
Dog waste stations		23

Public Service Department

2023 Accomplishments:

- Established a comprehensive facilities maintenance plan
- Assisted with police
 department refresh project
- Provided support for the construction of six city-owned pocket parks
- Applied rhino-coating to the exterior of the salt barn
- Repainted public service fuel island
- Implemented an annual invasive species management program
- Village Hall kitchen remodel
- Replaced the front gate at the public service facility
- Facilitated the design, construction and operation of the pickleball facility
- Expanded the front employee and visitor parking lot at the public service building

Looking Forward:

- Support reconstruction of Windsor Pocket Park
- Support the construction of Taylor Farm Phase 2
- Facilitate the construction of an additional storage building at the public service facility
- Support New Albany Parks framework plan
- Facilitate and manage the office reconfiguration project planned for the first floor of Village Hall
- Lead and direct a design effort to evaluate building expansion opportunities for the police department building
- Implement an active maintenance program for Taylor Farm, Phase 1

■NEW ALBANY ■

Organizational Goals & Goal Driven Strategies:

The Public Service Department has adopted the following core values which contribute to the City's overall organizational goals: *Professionalism, Integrity, Reliability, Quality* and *Pride*. The Public Service Department is dedicated to maintaining and improving the quality of life in the City of New Albany. The department will maintain a superior infrastructure and manage our natural resources with pride and integrity.

Facilitate a robust infrastructure maintenance network to preserve city owned facilities, park structures and amenities. (Supports City Organization Goals #1 & #3):

Public infrastructure assets are subject to gradual wear or aging. This depreciation in the value of the asset occurs at varying speeds, depending on its nature. Although maintenance is needed to mitigate the effects of aging and offset the loss of asset value associated with it, regular maintenance is required.

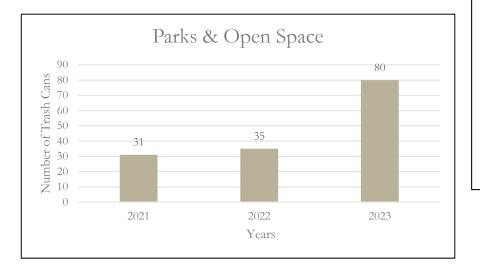

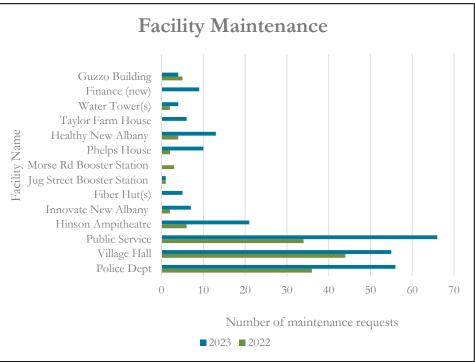

■NEW ALBANY ■

Performance Measures - Land & Building Maintenance Department

Future development through infrastructure and maintenance with a commitment to quality (Goal #1 & 3)

The Public Service Department inventory continues to increase year over year. The department continues aggressive maintenance programs to ensure the longevity of infrastructure and will continue to update the long-range maintenance plans of infrastructure. The department has adopted a preventive maintenance plan to repair and maintain the city's facilities to ensure a sustainable work environment.

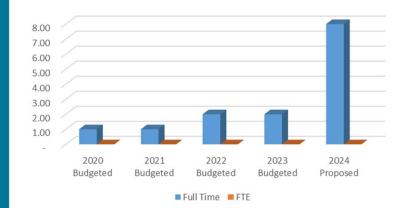

*2021 data not available. Maintenance requests shown above are outside of monthly preventive maintenance.

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. In 2024, personnel costs for each working crew, some prevsiously included in the Public Service Department, are assigned to the general Land & Building Maintenance and Pocket Parks & Other Miscellaneous Land divisions based on their primary function. Overall, within the Land & Building Maintenance Department, personnel costs show a significant increase which is reflected as a decrease in the Public Service Department.

Utilities & Communications - The 2024 budget includes miscellaneous utilities not in a specific division, such as street lights, traffic signals and flushing devices. It also includes composting, solid waste and recycling costs. As infrastructure and right of way is deeded to New Albany as development occurs, related utilities increase.

Maintenance & Repairs - The 2024 budget decreased primarily due to moving the Street Tree Maintenance & Replacement costs to the new Forsestry - Street Trees Maintenance (5220) division in the Infrastructure Maintenance division series within the Public Service Department, in addition to applying various buildings and structures maintenance costs previously accounted for in this division within specific facilities' divisions. Also, annual maintenance performed by a contractor, was transferred to the Consulting & Contract Services line item.

Consulting & Contract Services - The 2024 budget increased due to moving annual contracted maintenance costs for lands and buildings such as turf maintenance, pond maintenance, and irrigation service and maintenance from the Maintenance & Repairs line item.

Rationale:

Utilities & Communications - The 2024 budget is proposed based on a review of current utility usage and moving building specific solid waste and recycling costs to each facility. Consulting & Contract Services - The 2024 budget includes funding for architectural services for a floorplan study of the first floor in connection with the proposed capital project included for the second floor expansion of the building.

Rationale:

Utilities & Communications - The 2024 budget is proposed based on a review of current utility usage and moving building specific solid waste and recycling costs to each facility. Maintenance & Repairs and Consulting & Contract Services - 2023 included pavement maintenance, increasing pavement for additional staff parking, remaining window replacement, demolition/stabilization of the red barn on the property, and the replacement of the front gate. 2024 includes funds to reconstruct the facility dump pad and other miscellaneous projects which represent an overall decrease in the Public Service facility budget.

Rationale:

Consulting & Contract Services - The previous tenants moved out of this facility and the city is now responsible for utilities and additional maintenance costs. In addition, the 2024 budget for consulting & contract services includes additional funding should repairs or other costs are realized until the space is occupied by new tenants or if city staff move to this location.

Total Expenditures	\$	- \$	- \$	17,441	\$ 46,221	\$ 58,999	\$ 117,000	\$ 165,50) 41.45%

Rationale:

Utilities & Communications - The 2024 budget is proposed based on a review of current utility usage and moving building specific solid waste and recycling costs to each facility.

Additionally, 2024 includes an increase to properly account for the electric cost of the EV chargers located at the facility. Maintenance & Repairs - The increase in 2024 is to provide special projects such as expanding the dumpster enclosure, dome lighting, and bike parking facilities previously budgeted for in 2023.

	La	nd & 3	Build	ling Mair	tenance	- Int	el Trail	er	(6045)					
	2019	Actual	2020	Actual 2	21 Actual	2022	2 Actual		023 YTD /30/2023)	202	3 Amended	2024 P	roposed	% Increase/ (Decrease)

Rationale:

Salaries & Wages, Pensions and Benefits - The 2024 budget includes a 3.00% cost of living adjustment ("COLA") for C.O. 155 employees and annual increases for staff not currently at the highest step or salary within their applicable grade. In addition, the 2024 budget includes the implementation of the classification and compensation study completed in 2023. In 2024, personnel costs for each working crew, some prevsiously included in the Public Service Department, are assigned to the general Land & Building Maintenance and Pocket Parks & Other Miscellaneous Land divisions within the Land & Building Maintenance Department, personnel costs show a significant increase which is reflected as a decrease in the Public Service Department.

Materials & Supplies - The 2024 budget has been increased to account for miscellaneous facility maintenance materials to support wood pedestrian bridges, horse fence and wood guard rail.

Maintenance & Repairs - The 2024 budget adds a general budget for pocket park maintenance (\$15K) and an amount to support anticipated additional requests for maintenance of non specific pocket parks.

2024 Annual Budget

Total Expenditures	\$	\$	- \$	52,621	\$ 17,557	\$ 22,119	\$ 84,000	\$ 83,500	-0.60%						

Rationale:

Maintenance & Repairs and Consulting & Contract Services - 2024 reallocates amount previously budgeted in the Maintenance & Repairs category to the appropriate line according to planned costs. The 2024 budget carries funds from 2023 planned for special projects such as replanting/supplementing streambanks with native plantings and electric repair along Dublin Granville Road.

Land & Building Maintenance - Taylor Farm (6052)

Rationale:

Utilities & Communications - The 2024 budget is proposed based on a review of current utility usage and moving building specific solid waste and recycling costs to each facility. Maintenance & Repairs - 2024 has been increased to include maintenance of Phase 1 and 2 improvements including the Taylor Farm Park and existing structure maintenance. Payment for Services - 2024 has been increased to provide for property tax cost while exemption status is obtained. Upon approval, all or a portion of taxes paid would be reimbursed through Franklin County.

Rationale:

N/A - This division previously established to account for expenses related to the Worthington Road Lift Station has been renamed to account for similar lift stations which are temporary in nature. Worthington Road Lift Station was taken offline in 2021.

Land & Building Maintenance - Jug Street Booster Station (6066)													
	2019 Act	ual 2020 A	ctual 20	21 Actual	2022 Actual	2023 YTD (9/30/2023)	2023 Amended	2024 Proposed	% Increase/ (Decrease)				
Total Personal Services	\$	- \$	- \$	- ?	\$-	\$ -	\$-	\$ -	0.00%

Total Expenditures	\$	- \$	- \$	12,352	\$ 38,451	\$ 29,303	\$ 50,700	\$ 46,500	-8.28%				

Rationale:

Utilities & Communications - The 2024 budget is proposed based on a review of current utility usage and moving building specific solid waste and recycling costs to each facility.

Consulting & Contract Services - The 2024 budget increased to include annual and as needed contract services specific to the facilities within this division. Previously, maintenance costs related specifically to the Jug Street Booster Station were taken from the general Land & Buildings division.

Payment for Services - The 2022 and 2023 expense accounted for the payment of property taxes associated with the facility's parcel prior to the approval of exemption. The amount is not needed for the 2024 budget.

2024 Annual Budget

Land & Building Maintenance Department - Continued

Rationale:

Maintenance & Repairs - The 2024 budget decreased due to reclassin certain annual contracted services to the Consulting & Contract Services line item. The 2024 budget includes funding for the parking lot maintenance and other maintenance material costs.

Consulting & Contract Services - The 2024 budget increased to include funding to replace the first floor carpet and unplanned roof and HVAC maintenance continency.

Departments - 250

Capital Summary

Capital Equipment

The capital equipment budget is adopted annually. The budget is comprised of additional or replacement equipment needed in the City's fleet, office, and technology areas, along with other miscellaneous tools and equipment. The City established the Capital Equipment Replacement fund to account for interfund transfers and other revenues designated for the purpose of acquiring and replacing capital equipment which helps support the City's organizational goals, specifically to "Pursue Continual Service and Operations Improvements". Deposited funds may be used for purchasing, leasing, maintaining or replacing capital equipment; and purchasing or leasing computer software that has a cost greater than the value at which capital equipment is capitalized or \$5,000.

The City has implemented software with Tyler Technologies that has upgraded the Public Service department's ability to schedule preventative maintenance and monitor repair costs of all City vehicles. This program allows the City to monitor the usage and the repair cost of the vehicle, indicating the need for a vehicle to be replaced earlier or later than anticipated in the vehicle replacement schedule. The software also allows for the tracking and auditing of parts inventory. Previously, this information was tracked through various spreadsheets. The City reviews the office and technology areas to ensure the necessity of purchasing equipment items and includes those in the Capital Equipment replacement schedule. The computers and printers are assessed and scheduled so the most dated machines are retired from the City first. Office equipment is reviewed for usefulness, reliability, and length of life. The option of leasing equipment where feasible is considered.

In addition to the Capital Equipment Replacement Fund, the City also established the Water and Sanitary Sewer Improvement Fund. Among other related purposes, this fund was established in part for the maintenance, repair, equipment and appurtenances necessary to maintain the City's water and sanitary sewer systems. For 2018 and beyond, a reservation of fund balance has been established in this fund to set aside funds for the future replacement of related equipment.

The 2024 capital equipment purchases list is presented by fund used and the department requesting the item. The list gives a brief description of the item, type of purchase (ie "New", "Replacement", "Upgrade", or "Rehabilitation"), amount, and projected replacement year. Most fleet and equipment to be purchased are replacement in nature. There are a few exceptions for new technology upgrades and various vehicles and equipment.

Included with this section is an analysis of the Capital Equipment Replacement Fund balance. In order to fully fund the Capital Equipment Replacement fund, the historical cost of each asset is amortized over the anticipated useful life and an amount equal to the accumulated amortization through each year is set aside in the fund. A transfer from the General fund is necessary each year to ensure the program is fully funded.

NEW ALBANY

Capital Improvement

The City of New Albany is a master-planned community founded in 1837 and incorporated in 1856. Over the last several decades, the City has invested significantly in the development of the community, including establishing one of the largest successful business parks in the State of Ohio. New Albany continues to implement the balanced growth principles in the strategic land use and economic development plans supporting the City's organizational goals. The City has developed in the following pages a five-year Capital Improvement Program based on City Council priorities established in the Capital Workshop held in September 2021. The 2023 Capital Workshop was held on September 11, 2023.

The following categories of capital improvements were established with the Capital Workshop and is the basis for the layout of the Capital Improvement schedule that follows: Roads & Utilities; Parks & Open Space; Bike & Pedestrian Connections; and Facilities.

The Roads & Utilities category consists of infrastructure improvements comprised primarily of streets, street lights and signals, and underlying water and sewer lines.

The Parks & Open Space category includes passive and recreational land improvements including stream corridor restorations, parkland, civic spaces and streetscapes that contribute to the beautification of the Village Center and neighborhoods. The Bike & Pedestrian Connections category includes infrastructure that connect people to places including leisure trails, bike lanes, sidewalks and related amenities. The Facilities category includes public buildings needed for the operation of City functions and services.

Six annual programs previously established and one proposed are included in the Capital Improvement Program. These six programs were previously established and set aside an annual commitment to maintain each of these assets: Annual Street Paving/Maintenance; Sidewalk Replacement Program; Trail Gaps/PTAB Priorities; Trail Improvements; and Facilities Parking/Drive Maintenance. The Traffic Calming Implementation Design & Construction program is proposed in the 2024 to be included as a seventh annual program.

The City's financial policies include guidance for maintaining a five-year Capital Improvement Program document, which shall include descriptions of the proposed projects, justifications (i.e., cost savings, productivity improvements, or other basis), the projects funding requirements and sources of funds.

When planning for capital improvements, the city administration and senior staff consider many factors, including but not limited to, impact on operations, continued maintenance, future improvement needs, and other important factors. The 2024 final budget will include additional information related to these considerations.

2024 CIP by C	ate	gory	
Detail		Total Project	Percent of CIP
Roads & Utilities	\$	98,300,000	65.6%
Streets, streetlights, signals, water & s	ewe	er lines	
Parks & Open Spaces	\$	48,562,173	32.4%
Parkland, stream corridors, civic spac	es,	streetscapes	
Bike & Pedestrian Connections	\$	1,350,000	0.9%
Leisure trails, bike lanes, sidewalks			
Facilities	\$	1,650,000	1.1%
Public buildings, parking			
Total	\$1	49,862,173	100%

NEW ALBANY

Debt Summary

The City's debt policy is used to guide City officials as they consider the proper use of debt to fund capital projects. The primary objective is to establish conditions for the use of debt and to create policies that minimize the City's debt service and issuance costs, retain the highest credit rating and maintain full and complete financial disclosure and reporting. The debt policy is intended to guide the prudent use of resources to provide the needed services to the citizens of New Albany and to maintain sound financial management practices.

Additionally, state law places limitations on the amount of debt that can be issued by the City. The Ohio Revised Code provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The City's assessed valuation of property as of December 31, 2022 was \$705,898,000. The statutory limitations on debt are measured by a direct ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2022 (as reported in the 2022 Annual Comprehensive Financial Report), the City's total voted debt margin was \$75,048,672. The City currently has various unvoted bonds. The purpose of each bond issue varies from construction of the Police and Public Service facilities, the McCoy Center, Rose Run I, the Heit Center (Healthy New Albany), and utilities in the business park. The bonds vary in interest rates from 2.39% to 5.00% and the maturities of the bonds range from 2027 to 2037. The revenue source for the repayment of principal and interest payment for the unvoted issues is a mix of income tax, PILOT payments, and lease payments received from the Healthy New Albany facility.

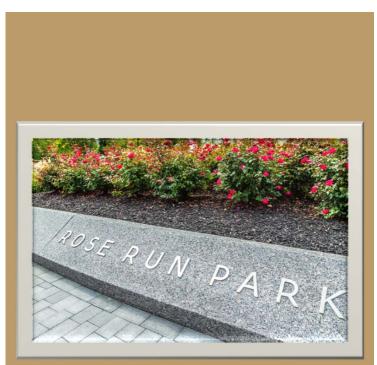

The City has five outstanding Local Economic Development (LED) loans with the Ohio Water Development Authority (OWDA) with outstanding principal projected as of December 31, 2022. The City entered into an LED loan agreement with OWDA in 2017 to fund the construction of water and sewer lines along Beech Road which matures in 2048. Terms of the agreement include interest only payments at 1% through 2033 and 4% principal and interest for the remainder of the loan. In 2018, this loan was supplemented with an additional \$5 million issue for the first phase of Blacklick Creek Trunk Sewer Construction and in 2019, the City also issued an additional LED loan for part A of the second phase of the same project, both bearing an interest rate of 3.00%. In 2020, the City issued its fourth LED loan with OWDA for part B of the second phase of the project which bares an interest rate of 2.5%. Finally, in August of 2021, an LED loan was issued for the Ganton Parkway Relief Sewer and Water project which bares an interest rate of 1.0%. Repayment of the loans will be through requests from the New Albany East Community Authority (NAECA) which receives a 9.75 mil Development Charge from projects locating within the eastern portion of the New Albany Business Park.

NEW ALBANY

The City will have eight outstanding loans with the Ohio Public Works Commission (OPWC) with outstanding principal as of January 1, 2024. The interest rates of these issues are 0% with maturities in 2024 through 2042. The loans are repaid using PILOT payments and requests from the NACA Economic Development fund.

The City has one outstanding loan payable to the New Albany Company with a 1.5 - 3.0% interest rate in which funds were used to construct the Main Street roundabout and other Village Center improvements. The loan will be paid as revenue within the Village Center II TIF and the Straits Farm TIF is collected. There is no official loan repayment schedule. Previous loans with the New Albany Company, including Oxford area trail and park improvements and the purchase of park land and trail improvements at Nottingham Trace (Schleppi) were paid in full during 2021 with an advance provided from the General fund. In addition, a portion of the current loan outstanding was also paid with an advance from the General fund. The General fund advance will be repaid by the Oxford, Schleppi Residential and Schleppi Commercial TIF funds as TIF revenue is available. The General fund advance to Village Center II TIF fund to pay a portion of the current loan outstanding will be repaid once the remainder of the loan is paid and as funds become available.

The Capital Improvements Program as detailed in the "Capital" section of this document will be financed with a mixture of cash, requests from the NACA Economic Development fund and current borrowing. Funding of the CIP has been included in this budget document to show the potential effect on fund balances. On-going, previously approved projects, "US 62 – SR 161 Gateway" and "Market St Ext", are included utilizing a mixture of grant and loan proceeds and cash contributions. The projects are proposed for the Capital Improvement fund in which the proceeds of the proposed OPWC loans will be deposited. Since the OPWC loans are proposed amounts and the projects are not complete, they are not included with the existing debt in the following tables.

City of New Albany, Ohio 2024 Annual Budget Program Significant Financial Policies

The Financial Policies of the City of New Albany provide a framework within which the City is to conduct its fiscal operations. These policies have helped to strengthen the City's financial condition since adoption in 2009 and have prepared the City for fluctuations in the economy. Below is an excerpt of General and Other Financial policies from the City's "Financial Policies and Operating Procedures" manual.

Policy 5.10 – Financial Planning & Budgeting Policy

Purpose of Policy:

The City of New Albany is required by the Ohio Revised Code to prepare and approve an annual appropriations budget to identify and manage spending. In addition, it is in the best interests of the City residents, businesses and employees that the City prepares multi-year revenue and expenditure projections in order to identify any potential funding issues. The following policy has been developed to comply with the ORC requirements and to better understand the financial condition of the City.

A. **<u>BUDGETING AND FINANCIAL PLANNING</u>**

1. **Financial Planning Elements**

The major elements of the budgeting and financial planning process for the City of New Albany are:

a) Strategic Plan

The City of New Albany Strategic Plan (adopted in 1998 with the latest update in 2021) and the Economic Development Strategic Plan (adopted in 2006, and currently under revision) documents established a policy framework to guide the provision of City services and future economic development and growth over a ten to fifteen-year period.

b) Five-Year Pro-Forma Financial Projections

Updated annually, this plan projects operating funds' financial performance, estimates funding needs, identifies funding sources and expands upon the Strategic Plan by estimating the costs and funding levels for projects and programs that accomplish the long-term goals of the City.

c) Annual Operating and Capital Budgets

These items represent the annual financial plan of the City and its' departments.

2. Long-Term Focus

The City recognizes the importance of long-term strategic planning, as evidenced by its strategic planning documents. Similarly, it recognizes that prudent financial planning considers the multi-year implications of financial decisions. The City shall maintain a long-term focus in its financial planning that is mindful of the long-term objectives of the City.

3. Conservatism

a) **Revenue Projections**

Revenues will be projected conservatively, but realistically, taking into consideration:

- (1) past experience;
- (2) the volatility and predictability of the revenue source;
- (3) inflation and other economic conditions; and
- (4) the probability of receiving significant non-recurring revenues and the potential amount.

b) Special-purpose or extraordinary one-time revenues

These revenues will generally be used to finance capital projects or for expenditures legally required by the source of the revenue, and not to subsidize recurring personnel costs or other operating costs. In the event the City is unable to maintain the desired reserve balance due to deteriorating financial conditions, these revenues may be used to provide funding for current operations until the desired reserve ratio is met. Non-material one-time revenues may continue to be used to subsidize the recurring costs of operations.

c) **Expenditure Projections**

Expenditure projections will be projected conservatively considering:

- (1) a conservative, but likely, scenario of events (versus 'worst-case scenario');
- (2) specific identified needs of the program or service;
- (3) City Council's list of prioritized projects;
- (4) Strategic planning document projects;
- (5) historical consumption and trends; and
- (6) inflation and other economic trends.

4. **Five-Year Financial Plan**

A five-year pro-forma financial plan shall be updated on an annual basis. The plan shall include all major operating funds and all capital improvement funds of the City. The purpose of this plan is to:

- (1) identify major policy issues for City Council's consideration prior to the preparation of the annual budget;
- (2) establish capital project priorities and make advance preparation for the funding of projects within the five-year horizon;
- (3) make conservative financial projections for all major operating funds and all capital improvements to provide assurance that adequate funding exists for proposed projects and services;
- (4) identify financial trends in advance or in the early stages so that timely corrective action can be taken, if needed; and
- (5) communicate the City's plans to the public and provide an opportunity for the public to offer input.

5. Annual Operating and Capital Budget

a) Scope

The operating and capital budgets are the primary components of the City's annual financial operating plan. All funds, except agency funds and federal/state grant funds, will be subject to appropriation by Council.

b) Balanced Budget

The budget will be 'balanced' for each fund. The proposed cash resources of each fund (beginning of year unencumbered fund balances plus estimated receipts) will exceed appropriations. When necessary, the following budget-balancing strategies will be used, in order of priority:

- (1) reduce expenditures through improved productivity;
- (2) shift expense to other parties;
- (3) increase revenues by creating new service fees or increase existing fees;
- (4) reduce or eliminate services; and/or
- (5) seek tax-rate increases.

c) Budget Process

The policy of the City is to have the annual operating and capital budgets approved by the City Council as of December 20 prior to the beginning of the fiscal year. The City follows procedures prescribed by State law in establishing its budgets as follows:

- (1) The City is required to prepare and file a tax budget with the Franklin County Budget Commission by July 15 of the preceding year or as may otherwise be prescribed by the County Budget Commission. This budget is used by the Commission to create an Official Certificate of Estimated Resources (OCER) and a summary of amounts and rates as approved by the Commission.
- (2) The City is required by the Commission to pass a resolution formally accepting the rates and amounts by October 1 of the preceding year.
- (3) Article IX, Section 9.03 of the City's Charter requires the City Manager, in consultation with the Director of Finance, to prepare and submit a proposed operating budget and appropriation ordinance to council at least sixty (60) days prior to the beginning of the fiscal year (or by November 1 of the preceding year).
- (4) On or about January 1 of each year, the City will submit to the Budget Commission a report of estimated revenue and actual unencumbered cash balances by fund. Thereafter, the County Budget Commission will issue a revised Official Certificate of Estimated Resources.

- (5) Unencumbered appropriations lapse at year-end. State law provides that no contract, agreement or other obligation involving the expenditure of money shall be entered into unless the Finance Officer first certifies that the money required for such contract, agreement, obligation or expenditure is in the treasury, or is anticipated to come into the treasury, before the maturity of such contract. (ORC 5705.41)
- (6) All funds of the City, with the exception of agency funds, have annual budgets legally adopted by the City Council.

d) **Budget Format and Structure**

The annual operating and capital budgets as approved by the City Council will meet the following requirements:

- (1) The budgets will be prepared on a cash basis of accounting.
- (2) The budget will be developed and monitored on a fund and departmental basis.
- (3) The budget will be sufficiently detailed to identify all significant sources and uses of funds. The format will include the following on a fund-by-fund basis:
 - (i) estimated beginning fund balances;
 - (*ii*) estimated receipts;
 - (iii) projected cash disbursements and encumbrances; and the estimated year-end fund balances.
 - (iv) Actual prior-year data and projected current year results will be presented for comparative purposes.

e) Legal Level of Control

The 'legal level of control' is the level of detail as approved by City Council in the appropriation ordinance. Legal level of control for the City of New Albany is based on fund, function/department, and within each function/department, personal services and operating and contractual services. In addition, within each fund, capital, debt services and transfers and other financing uses (OFU) are budgeted. Function/department represents groupings of functionally similar tasks performed by the jurisdiction and is the local equivalent of the ORC-required department.

f) Budget Modifications/Supplemental Appropriations

Amendments to authorized appropriations at the legal level of control may be made from time to time as changing circumstances dictate. These will be recommended to City Council by either the City Manager or the Director of Finance along with the rationale supporting the request(s). Such budget amendments must be approved by ordinance of Council.

B. <u>CAPITAL IMPROVEMENT PROGRAM / CAPITAL BUDGET</u>

The City shall provide for the expansion and adequate maintenance of the City's infrastructure and capital equipment, as well as providing for the orderly replacement of such assets.

1. Five-Year Capital Plan

The City shall prepare a five-year capital plan and update it annually. The plan will prioritize all anticipated capital projects and determine availability of funding.

2. Capital Budget

An annual capital budget will be prepared and approved by Council as a part of the annual operating budget development process.

a) Scope

The Capital Budget encompasses the following funds:

- Street Construction, Maintenance & Repair Fund (201);
- Capital Improvement Fund (401);
- Park Improvements Fund (404); and/or
- other capital project or special revenue funds as identified by the City Manager, or new funds established from time to time for specific projects.

b) Capitalization Thresholds

City Council is responsible for establishing the dollar threshold for capitalizing expenditures as well as determining the estimated useful life of the asset. The Council shall pass this schedule by resolution.

c) Eligible Projects

The purchase or construction of a capital asset that falls within the guidelines contained within the Asset Life/Capitalization Threshold schedule is eligible for funding as a capital project.

d) **Funding Sources**

A recommended funding source and resource availability shall be presented to Council for each project. Street and roadway maintenance projects are typically funded from either the Street Construction, Maintenance & Repair Fund, the State Highway Fund or the Permissive Tax Fund. Park improvement capital projects are typically funded from the Park Improvement Fund. Other capital projects are generally funded from the Capital Improvement Fund.

The Street Construction, Maintenance & Repair Fund receives its funding from 92.5% of the gasoline taxes collected by the State of Ohio. The State Highway Fund receives the remaining 7.5% of the gasoline taxes. The Permissive Tax Fund receives its funding from taxes on vehicle registrations and drivers license registrations.

The Capital Improvement Fund receives its funding primarily from: 1) 12% of the income taxes not associated with a City TIF program; and 2) transfers from the General Fund. The Park Improvement Fund receives its funding primarily from: 1) 3% of the income taxes not associated with a City TIF program; 2) impact fees assessed on new residential construction; and 3) transfers from the General Fund. The City Manager will investigate all potential alternative-funding sources, such as federal or state grants.

e) **Operational Costs of Capital Items**

The operational costs associated with the maintenance and operation of a proposed capital item will be estimated and included in the operating budget.

C. <u>BUDGETARY COMPLIANCE AND EXPENDITURE CONTROL</u>

1. Budgetary Compliance and Monitoring

The City will maintain a budgetary control system to ensure that appropriations or fund balances will not be overdrawn. A purchasing control system will be maintained which will generally require advance authorization of purchases as required by the Ohio Revised Code (ORC 5705.41).

Encumbrance accounting will be utilized as an extension of formal budgetary control. Under this system, purchase orders, contracts and other commitments for the expenditure of monies are recorded as an appropriation encumbrance prior to placing the order or entering into the contract in order to reserve that portion of the applicable appropriation. The proper crediting of revenues and proper charging of costs is intended to maintain the integrity of the various funds.

2. Budget Reporting

Monthly expenditure reports will compare actual results with approved budget amounts. Such reports will be available within the financial accounting software to the appropriate department head for review. Appropriation deficiencies will be addressed timely via an authorized transfer of appropriations or request for supplemental appropriations.

3. **Prompt Payment**

All invoices approved for payment shall be paid within thirty days of receipt unless contractual terms provide otherwise. Procedures shall be established to enable the City to take advantage of all purchase discounts deemed to be in the best interests of the City.

D. **FINANCIAL REPORTING**

The City will prepare its financial reports in conformance with applicable statutes and, where applicable, accounting principles generally accepted in the United States. A Comprehensive Annual Financial Report will be prepared annually. All plaques and other awards shall be displayed in an appropriate location.

Policy 5.20 - Risk Management & Insurance

Purpose of Policy:

In the course of performing its public functions, the City of New Albany is exposed to risk and liability on a daily basis. In order to minimize the potential risk and reduce any potential financial liability, it is extremely important that the City offset much of the risk through the use of liability insurance. In addition, the City owns a significant amount of assets (i.e., buildings, vehicles, equipment, etc.) that should be protected by property and casualty insurance. The following policy has been developed in order to fully disclose and better understand the issues of risk management and insurance for the City.

A. **<u>RISK MANAGEMENT (INSURANCE)</u>**

1. Loss Prevention

The City shall make a diligent effort to prevent loss or degradation of City assets and to reduce the City's exposure to liability.

2. Insurance

The City shall transfer risk to other parties, where cost-effective, by purchasing insurance. The Director of Finance shall be responsible for maintaining adequate limits of coverage by performing periodic appraisals of the City's assets.

3. Liability Protection

The City shall shift the legal and financial responsibility to third parties who perform work or provide services to the City for losses or potential losses caused by the actions of those third parties. This transfer of risk may occur through a variety of means in leases, purchase and service agreements, and other contracts. The transfer of risk shall be made formally and in writing and may include indemnification agreements, insurance requirements and the required provision of certificates of insurance (with the City of New Albany named as an 'additional insured').

Policy 5.30 - Debt Management

Purpose of Policy:

The debt management policy of the City of New Albany is established to help ensure that all debt is issued both prudently and cost effectively. From a policy perspective, the City can use debt in two ways: (1) as a mechanism to equalize the costs of needed improvements to both present and future citizens; and (2) as a mechanism to reduce the costs of substantial public improvements.

The debt management policy sets forth comprehensive guidelines for the issuance and management of all financing of the City of New Albany. Adherence to the policy is essential to ensure that the City maintains a sound debt position and protects the credit quality of its obligations.

A. **<u>DEBT MANAGEMENT</u>**

Debt will be used to fund only capital projects or the purchase of capital assets that will continue to provide a benefit to the community during the term of the debt. Debt will not be used to finance operating expenditures.

1. Creditworthiness Objectives:

a) Credit Ratings

The City seeks to maintain the highest possible credit rating consistent with the City's financing objectives. The City of New Albany will endeavor to maintain a long-term credit rating with one or more of the following agencies: Moody's Investors Service, Standard & Poor's, or Fitch. Maintaining or improving the City's bond rating is an important objective of the City. Accordingly, the City will strive for continual improvement in its financial policies, practices, and performance.

b) Financial Disclosure

The City is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, City departments and agencies, other levels of government, and the general public to share clear, comprehensible, and accurate financial information. The City is committed to continuing disclosure of financial and pertinent credit information relevant to the City's outstanding securities and will abide by the provisions of Securities and Exchange Commission (SEC) Rule 15c2-12 concerning primary and secondary market disclosure.

c) Capital Planning

To enhance creditworthiness and prudent financial management, the City of New Albany is committed to systematic capital planning and long-term financial planning.

- (1) Evidence of this commitment to systematic capital planning will be demonstrated through adoption and periodic adjustment of a Comprehensive Plan and the annual adoption of a Five-Year Financial Plan.
- (2) The budgetary impact of debt service expenditures for proposed debt must be illustrated in the Five-Year Plan as adopted, or modified, by Council.

d) Renewal and replacement funds

The City seeks to establish sufficient reserve balance to provide for the renewal and replacement of capital assets. In order to provide the future funding, the City will seek to set aside annual cash allocations.

e) Statutory Debt Limits

The City will keep outstanding debt within the limits prescribed by State law, including the indirect (inside) 10-mill limitation. The City will consider using revenue debt in lieu of general obligation debt, when revenue debt is feasible, if the available margin within the 10-mill limitation is less than 3 mills.

f) **Debt Limits** — City Policies

- (1) Net bonded debt (general obligation debt that is not self-supporting from revenues) shall not exceed 3.0% of assessed valuation.
- (2) For funds that typically issue self-supporting debt, the City will strive to maintain a debt coverage ratio of 1.5 or higher. Debt coverage is calculated by the following formula (using data from the latest Comprehensive Annual Financial Report):

(operating revenues + investment income — operating expenses + depreciation and amortization) / annual debt service payments = Debt Coverage Ratio

2. **Purposes and Uses of Debt**

a) Long-Term Financing

The City will consider long-term financing for the acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five years longer than the term of the financing.

b) Required Approval

The City shall issue debt only as specifically approved by City Council. Expenditure of such monies shall be in strict accordance with the designated purpose.

c) Financing Term

The improvement will be financed over a period not exceeding the estimated useful life or average useful lives of the improvement or improvements to be financed. (ORC 133.20)

d) **Bonded Debt Issuance Considerations**

Factors to consider when determining whether to issue bonded debt include:

- (1) whether there are sufficient current resources to fund the improvement;
- (2) whether it is in the best financial interest of the City, considering the costs of issuance relative to investment opportunities;
- (3) whether it is an appropriate means to achieve a fair allocation of costs between current and future beneficiaries; and
- (4) whether the cost of the improvement is at least \$500,000.

e) Interfund Lending

The City will refrain from inter-fund borrowing for the purpose of avoiding operating fund deficits, except for short-term (six months or less) borrowing from the General Fund. Interfund borrowing will be considered on a case-by-case basis, to the extent permitted by law, to finance high priority capital needs, but only when planned expenditures in the fund making the loan would not be adversely affected. The borrowing fund will pay interest at a market-based rate, such rate to be determined by the Director of Finance.

f) Enterprise Debt

The City shall seek to finance the capital needs of its revenue-producing enterprise activities through the issuance of revenue-secured debt obligations (including revenue-secured general obligation bonds). The City will determine that projected revenues are sufficient to re-pay the debt. These revenues shall be conservatively projected.

g) **Debt Service**

Debt service expenditures shall take priority over all other expenditures in the annual budget.

h) **Revenue Anticipation Notes**

Revenue anticipatory notes shall not exceed six months in duration and shall be issued only in anticipation of revenues to be received during the same calendar year. (ORC 133.3)

3. **Debt Standards and Structure**

a) Term

Debt will be structured to achieve the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users.

- (1) Short term notes (with final maturities of five years or less) are suitable as a source of permanent financing for projects within the following parameters:
 - (i) The project has a useful life of less than ten years.
 - (*ii*) The immediate need for financing is less than \$5 million.
- (2) Long-term debt (bonds) are suitable as a source of permanent financing for projects within the following parameters:
 - (i) The project has a useful life of greater than ten years.
 - (ii) The immediate need for financing is greater than \$5 million.

(iii) Average long-term interest rates, as indicated by the Bond Buyer General Obligation 20 Bond Index, are at or below eighty-five percent (85%) of the index's twenty-year average.

b) **Debt Repayment**

- (1) The City shall strive to repay at least 20 percent of the principal amount of its debt within five years and at least 40 percent within ten years.
- (2) The City will typically seek to structure debt with relatively level debt service (principal and interests) costs over the life of the debt.
- (3) There shall be no 'balloon' bond repayment schedules, which consist of low annual payments and one large payment of the balance due at the end of the term.

c) Credit Enhancement

Credit enhancement (e.g., letters of credit, bond insurance) may be used, but only when its use reduces net debt service by more than the cost of the enhancement.

d) Call provisions

Initial call features shall be no later than ten years from the date of delivery of the bonds. Calls shall be made as short as possible in context of seeking the optimal true interest cost. Calls should generally be at par.

e) Issuance costs

Expenses related to the issuance of the debt such as bond counsel fees, financial advisor fees, registrar / paying agent fees, rating agency fees, printing costs, and underwriter's discount, will be charged to the bond issue to the extent allowable by law.

f) Anticipatory Notes (BANS)

The use of short-term borrowing, such as bond anticipation notes (BANs) will be undertaken only if the transaction costs plus interest of the debt are less than the cost of internal borrowing, or available cash is insufficient to meet capital requirements.

g) **Debt Refunding**

- (1) Periodic reviews of all outstanding debt will be undertaken to evaluate refunding opportunities.
- (2) Refunding will be considered if and when there is a net economic benefit from the refunding. In general, advance refundings will be undertaken when a net present value savings of at least two percent of the refunded debt can be achieved. Refundings that produce a net present value benefit of less than two percent will be considered on a case-by-case basis.

4. **Debt Administration and Process**

a) **Competitive versus Negotiated sales**

- (1) In general, it is the policy of the City to issue 'new purpose money' debt through a competitive process. Bids will be awarded on a true interest cost (TIC) basis, providing other bidding requirements are satisfied.
- (2) Negotiated sales of debt will be considered when the complexity of the issue requires specialized expertise, when the size of the issue may limit the number of potential bidders, when a negotiated sale would result in substantial savings in time or money, when the City has determined that all competitive bids received are unsatisfactory, when refunding existing debt issues, or when market conditions or City credit are unusually volatile or uncertain.

b) **Investment of bond proceeds**

All bond proceeds shall be invested consistent with the City's investment policy. Investment of proceeds and records thereof will be structured to comply with the arbitrage rebate compliance requirements of federal tax code.

Policy 5.40 – Other Miscellaneous Financial Policies

Purpose of Policy:

The prior sections of this Financial Policies & Procedures manual cover many of the primary issues and topics. There are, however, many smaller topics that would not justify a dedicated section. In order to fully document all City financial policies and procedures, these miscellaneous topics have been consolidated into this section. These would include: interfund transfers, reserves, internal controls, financial reporting and audit, to name just a few.

A. INTERFUND CASH TRANSFERS

In the event of a projected funding shortfall, cash transfers may be made from the City's General Fund to another fund if authorized by ordinance by an affirmative vote of at least four members of Council. Transfers between special revenue and/or capital improvement funds are permitted by ORC §5705.14. Transfers from special revenue and/or capital improvement funds back into the General Fund are permitted with approval of the Franklin County Court of Common Pleas.

B. **FUND BALANCE RESERVES**

The City will endeavor to budget target fund cash balances for various operating funds to provide reserves for unforeseen emergencies or revenue shortfalls and to eliminate the need for short-term borrowing for cash flow needs.

Fund	Balance as % of annual expenditures
General Fund	30-35%
Street Construction, Maintenance	2%
& Repair	
State Highway	2%
Permissive Taxes	2%
Capital Improvements	5%
Water & Sanitary Sewer Improvements	10%

C. **INTERNAL CONTROL POLICIES**

The City will maintain a system of internal control to safeguard its assets against loss, check the accuracy and reliability of its accounting data, promote operational efficiency, and encourage adherence to prescribed managerial policies.

1. **Objectives of Internal Control**

A system of internal controls should be able to provide reasonable assurance that these objectives have been met:

a) **Authorization**

All transactions are properly authorized by management.

b) **Recording transactions**

Transactions are recorded as necessary: (1) to permit preparation of financial statements in conformance with statutory requirements and accounting principles generally accepted in the United States; and (2) to maintain accountability for assets.

c) Access to assets

Access to assets and records should be permitted only with proper authorization and supervision.

d) **Periodic independent verification**

The records should be checked against the assets by someone other than the persons responsible for the records or the assets. Examples of independent verification are monthly bank reconciliations and periodic counts of inventory.

e) Segregation of duties

The organizational plan should separate functional responsibilities. In general, when the responsibility for custody of assets is separate from the responsibility for maintaining the records relating to those assets, then there is appropriate segregation of duties.
