Inside This Issue:

General Analysis

Revenue Analysis

Expenditure Analysis

Investments

Introduction

The purpose of this report is to summarize the financial position of the City of New Albany (City) on a monthly basis using year-to-date (YTD) and prior year information for comparison purposes. The document is comprised of two major sections:

1. General Fund analysis
2. All Funds analysis

Each section contains graphs with supporting analysis. In the appendices are supporting financial documentation relating to the analysis. Within each section, financial information is displayed at the following levels:

1. Fund
2. Revenue
3. Expense

The General Fund section contains additional data used to measure and assess the City's financial condition. The goal is to emphasize the General Fund as the best overall indicator of the financial health of the City and to utilize All Funds for a more holistic view. A summary of Investments is also included.

Upon review of the information provided, the finance department is available to answer questions or provide additional data. Please do not hesitate to submit your request via email to bstaats@newalbanyohio.org or phone at (614) 855-3913.

Bethany Staats, CPA, Finance Director

General Fund Section — SUMMARY OF FINANCIAL RESULTS

CASH BALANCE

1. Chart 1 illustrates a positive YTD variance of (\$9,181,122) between revenue (\$44,686,566) and expenses (\$35,505,444) of the General Fund (101), the primary operating fund.

REVENUE

1. Chart 2 shows a YTD increase in revenue of \$11,185,487 or 31.39%. Income tax collections are \$36,473,347 year-to-date, which is a 34.90% increase from 2025. Chart 3 provides a monthly illustration of these collections.
2. Chart 4 breaks down income tax collections by type. Typically, withholdings are the best indicator of income tax stability. YTD withholdings in the General Fund are higher than 2025 and all previous years dating back to 2022, as shown. The growth since 2022 (and prior years) can be attributed to general business expansion and increasing development in the City, which includes an increase in construction company employee withholding. In 2021, total income tax revenue increased drastically from historical collections which was a combination of continued growth in withholding and significant increases related to net profits and individual tax estimates, despite continued economic uncertainty coming out of the 2020-2021 global pandemic (COVID). Withholding for New Albany remained stable through 2022 as a result of increased construction withholding related to economic development projects cushioning the overall decrease in withholding for some companies within the New Albany Business Park. The decrease in withholding for these companies resulted from several companies shifting to hybrid and work-from-home models for employment. In addition, a large employer left the business park in 2022. The former growth seen in withholding in 2021 resumed for 2023, and continued in 2024 and 2025. In total, actual 2024 income tax collections surpassed 2023 collections by an astonishing \$9.4 million or 28.6% and 2025 income tax collections surpassed 2024 collections by an unprecedented \$12.5 million or 29.54%. With the first six months of collections far exceeding previous YTD collections back to 2022 (and prior), although still early, 2026 appears to follow the continued growth path of previous years. Continual monitoring, regular analysis on current and future projections and timely adjustments to income tax revenues estimates are increasingly more important as the city realizes the effect of the growth of the business park and substantial withholding from construction companies contributing to an overall growth in income tax revenue.
3. Chart 5 provides additional insight into income tax collections by type. The pie chart entitled 'Normal' shows the historical average breakdown of income tax collections for the prior three years.

EXPENSE

1. YTD expenses excluding transfers and advances are 25.48% higher than last year. Overall, operating expenses have continued to increase each year as a result of continued growth and development of the city. The primary reason for the continued increase in operations is related to Intel choosing New Albany for its new microchip manufacturing plant in early 2022 along with various other impactful projects choosing New Albany. In addition, the management of several million dollars in related infrastructure improvements necessary to support the growth and project development have contributed to the increase in expense. A total of 19 new positions were filled from June of 2022 through the end of 2023 and 20 new positions were filled in 2024, which is consistent with the overall increase in expense operations and further, personnel costs during that time as staffing was adjusted to meet the needs of increased development and city programming. In 2025, only 12 new positions were created and filled as staffing levels were gradually reaching levels needed for the increase in demand on city services from the previous 2-3 years. The 2026 adopted budget anticipates a net increase of eight more positions to continue adjusting staffing levels with current operations. The operating & contract services category includes expenses for professional services related to economic development, planning, inspection fees, legal fees, and other costs that may have a one-time expense or project-driven costs. The YTD increase in expenses noted are primarily the result of timing of encumbering annual expenses at the beginning of each year. The increase in these expenses for 2026 is not anticipated to remain as high, however, expenditures will be monitored and budgets adjusted as necessary throughout the year. In recent years, the General fund has not been used for direct capital outlay expenses and no such expenses are planned for the General Fund in 2026. The General Fund provides for capital expense by transferring funds to the appropriate capital projects funds.
2. The adopted appropriations as amended are reflected in the 2026 budget amounts. The General Fund has utilized 36.32% of the appropriations to date for 2026.

All Funds Section — SUMMARY OF FINANCIAL RESULTS

ALL FUNDS

1. When examining income tax withholding collections, inclusion of the Business Park results in a 22.17% increase compared to an increase of 22.66% in the General Fund. As abatements and revenue sharing agreements expire, revenue sharing with the schools also ceases. As a result, Business Park revenue will partially shift to the General Fund and certain designated capital funds. This, combined with increased construction withholding, has led to the General Fund generally outpacing the All Funds growth in recent years. In 2022, a few large employers in the Business Park made adjustments to employee schedules and employment practices (hybrid and/or work from home models) leading to a reduction in withholding from the previous year. This proved especially true within the Central College EOZ where, in addition to a change in employee work locations, a large employer discontinued operations and moved from the Business Park. 2023 collections in this EOZ remained consistent with the decrease in 2022. In 2024, this EOZ showed an increased level of revenues as buildings were utilized more, generating increased withholding in 2024, however, 2025 collections showed a decrease in this EOZ (see Chart 8). The decrease relates to the timing of certain abatements and revenue sharing requirements within the specific EOZ. The impact of significant growth in construction withholding and new businesses coming online is believed to balance any continued negative effect on withholding as businesses continue to adjust their operations as it relates to remote work or other economic factors. Final total collections in 2025 resulted in a \$19.22 million or 27.5% increase over the same for 2024.
2. Chart 8 shows the EOZ areas and provides insight into the breakdown of tax collections within the Business Park from which the City distributes between the General, Capital Improvement, Park Improvement, and Village Center Capital funds.

General Fund Section — CASH BALANCE

CHART 1: General Fund (101)—Revenue, Expenses, and Carryover
(Additional Data can be found in Appendix A: General Fund Monthly Cash Flow)

	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	YTD 2026

Sustainability Advisory Board (Intrafund)	-	-	-	-	-	-	-	-	133,370	110,890
Total Transfers	2,524,125	10,488,977	4,234,723	2,868,185	10,071,677	4,054,642	7,602,136	9,406,783	35,291,528	17,126,821

Historically, the City has primarily maintained a positive variance between revenue and expenses, which has allowed it to maintain a target carryover balance of at least 60% of annual revenue as established, based upon a sensitivity analysis previously conducted. For budgetary purposes, the City also maintains a target reserve of 65% of the adopted operating budget in the General Fund, which is predominately funded by income tax revenue. In years 2018, 2021 and again in 2025, significant transfers and advances to various funds as excess reserves were used to fund various projects as needed, therefore, expenses did exceed revenues. However, the carryover balance remained consistent and even exceeded previous years with the exception of 2018 and 2025. The City Council has been able to redirect additional surplus dollars to the Infrastructure Replacement, Severance Liability, and Capital Equipment Replacement funds to address the long-term needs of the city, as well as other Capital funds to subsidize current capital projects. Additionally, the City utilizes the excess balance to advance funds to certain funds as necessary to be repaid once said fund collects from its anticipated revenue source and funds are available. In 2025, the General Fund transferred a historical amount to the Capital Improvements Fund for the purchase of property intended to partially lease to the school district for the future site of their athletic campus, in addition to funding other significant projects. In 2026, similar significant transfers for Capital and Park Improvements were budgeted and have been made in addition to regular transfers to Debt Service, Severance Liability, Infrastructure Replacement, and the Capital Equipment Replacement funds. In addition, various intrafund transfers to general operating “sub-funds” are included in the budget. While 2025 finished the year with an ending carryover balance that was \$6.2 million less than that of 2024, the final balance far exceeded the target reserve. The adopted 2026 Annual Budget Program anticipates the carryover balance to be restored to previous levels by year end.

General Fund Section — REVENUE

CHART 2: General Fund—Revenue Sources

(Additional Data can be found in Appendix A: General Fund YTD Revenue Analysis)

2026 Analysis

In total, revenues have increased by 31.39% from 2025 in the General Fund. Income taxes, which comprise 77.90% of total revenue for 2026, have increased by 34.90%. Hotel Taxes and Service Charges have increased by 93.50% and 880.29%, respectively. The increase in Service Charges is a result of the City moving to a self insurance model for health benefits for employees and includes revenue for the employer and employee health benefit premium. When revenues were initially projected for 2023 and beyond, the City had anticipated that income tax could be negatively impacted as a result of the economic climate at the time. Fortunately, a significant negative impact has not been realized, and instead, the City has realized substantial growth in income tax revenue since 2022. The growth in revenue is a result of increased economic development and related construction, along with the expiration of tax abatements which discontinues the City's obligation to share income tax revenue once schools begin receiving property tax revenue from the project. Income taxes from Individuals and Net Profits have mainly seen significant increases for the last several years. The City views these increases with caution due to the potential for large refunds once returns are filed by individuals or the ability for companies to carry forward losses to future years, resulting in decreased revenue in those years. To mitigate the risk and prepare for such circumstances, the City has sufficient reserves to cushion a resulting downturn in revenue, should it be realized in the near future. The reserve allows time for appropriate adjustments to appropriations and related spending to be aligned with the City's available resources.

General Fund Section — REVENUE

CHART 3: General Fund Income Tax Revenue (All Types) - Monthly
Additional Data can be found in Appendix A: General Fund Income Tax Trend Analysis

Each line represents a year of Income Tax collections. The points along each line represent the individual months of collections. The maroon line represents 2026. When examining total collections for each month in 2026, the collections recorded for April are slightly less than that of 2025 and all other months show moderate to significant increases over 2025 and each of the same months in the four years prior. In total, 2025 collections exceeded 2024 collections by more than \$12.7 million. Looking ahead to 2026, January, February, May, and June collections are record-setting and point to the continued growth of revenue continuing. However, it is still too early to assume that year-to-date collections are indicative of overall 2026 collections. These collections will continue to be monitored, especially after the primary income tax filing season, and projections will be updated as appropriate.

General Fund Section — REVENUE

CHART 4: General Fund Total Income Tax Collections by Type
Additional Data can be found in Appendix A: General Fund YTD Revenue Analysis

This graph shows the YTD income tax in the General Fund for the last five years. Withholdings are the most important income tax performance indicator. Increased payroll deductions are indications of job, wage, and economic growth. The area of caution relating to income tax performance is Net Profits, which are volatile and similar in nature to company stock performance. Also, changes in legislation regarding Net Profit taxes (option to file with the State and Net Loss carry-forward provisions) could present some uncertainty relative to the stability of this source of income tax. YTD receipts in withholding, net profits, and individual income tax revenue are higher than the previous years, with withholding seeing the most significant increase. The YTD individual income tax revenue for 2026 results in an increase of approximately 118.10% from 2025. Although the increase is significant by percentage, the increase amounts to approximately \$2.89 million, which is made up with the overall increase in all types of income tax collections of \$9.4 million. With an overall YTD increase in total collections of 34.90% from 2025, collections continue to show growth. The overall collections YTD for 2026 represent an astonishing 134.39% increase from 2022 collections.

General Fund Section — REVENUE

CHART 5: General Fund Total Income Tax Distribution

Additional Data can be found in Appendix A: General Fund YTD Revenue Analysis

The pie chart titled ‘Normal’ shows the historical average breakdown of Income Tax collections for years 2023—2025. The additional charts can be used to compare the YTD 2026, YTD 2025 and FY 2025 totals to the normal percentages. The timing of receipts can skew the data, especially in the early part of the year as tax filings are submitted. Over the last several years prior to 2024, Net Profits and Individual collections grew to represent larger portions of income tax collections. Due to the nature of those collections fluctuating and being significantly vulnerable to the overall economy, the portion of income tax they represent could also fluctuate accordingly.

General Fund Section — EXPENSE

CHART 6: General Fund Expenditures by Category

Additional Data can be found in Appendix A: General Fund YTD Expenditure Analysis

This graph shows the YTD operating expenditures in the General Fund, comparing amounts with YTD for 2025, the 2024 and 2025 budgeted amounts, and the actual expenditures for both 2024 and 2025. Personal services are the greatest expense among these categories. Expenditures for personal services have continuously grown over the last three years. This is primarily due to three factors: 1) the addition of new positions to serve the community and accommodate New Albany's ongoing growth; 2) movement along steps of pay grades; and, 3) general cost of living increases. Expenditures for Operating & Contract Services were expected to increase significantly beginning in 2022 and continued in 2023 to accommodate new economic development projects. The 2024 Actual and 2025 Actual represent a continuation of that trend. Capital outlay expenditures are no longer included in the General Fund. The General Fund supports capital expenses by transferring funds to the appropriate capital projects funds. The primary capital items that were previously included in the General Fund were continued fiber connections, miscellaneous furnishings, and information technology related equipment - each of which presently utilize a different funding source.

All Funds Section — SUMMARY OF FINANCIAL RESULTS

Long Term Analysis

All funds other than the General Fund fall into four major fund types:

1. Special Revenue — a fund with a specific revenue source like a grant or TIF project with restricted expenditure requirements
2. Debt Service — the fund used for principal and interest payments for city borrowings
3. Capital Project — a fund used to pay for capital projects or infrastructure
4. Agency — a fund used for collection and distribution purposes (In/Out)

The **YTD Fund Balance Detail**, found in Appendix B, provides information on the financial position of these funds.

The Economic Opportunity Zones (EOZ) funds are useful in obtaining a holistic view of income tax collections. The city has revenue sharing agreements with the New Albany Community Authority, City of Columbus, New Albany-Plain Local School District, Johnstown-Monroe Local School District, and Licking Heights Local School District. Income tax collections within the EOZ are identified and shared based on the revenue sharing agreements for that area. Income taxes realized outside of the EOZs are distributed as follows:

101—General Fund	83.5%
401—Capital Improvements	12%
403—Village Center Capital Improvements	1.5%
404—Park Improvements	3%

Income tax revenues from the EOZs are distributed as follows depending upon slight variations in the revenue sharing agreements:

New Albany	20-35%
School District (s)	35%
New Albany Community Authority	0-50%
Infrastructure Fund	0-30%
City of Columbus	0-26%

All Funds Section — REVENUE

CHART 7: All Funds Total Income Tax Collections by Type

Additional Data can be found in Appendix B: All Funds YTD Revenue Analysis

When examining income tax from an All Funds level, the results are consistent with the General Fund yet representative of the Business Park environment.

CHART 8: EOZ Revenue Sharing YTD 2026 –vs– YTD 2025

Additional Data can be found in Appendix B: New Albany EOZ Revenue Sharing

The EOZ areas provide insight into the breakdown of income tax collections within the Business Park.
